Modernize Your Business

Start your automation.

armatic.

What pain points do you hope to address with armatic?

armatic.

Problem.

 SaaS Overload

 Different, unconnected software

 Manual data export/import

 Integration efforts

 armatic.

Challenge.

Many disconnected software solutions that require database synchronization of various records:
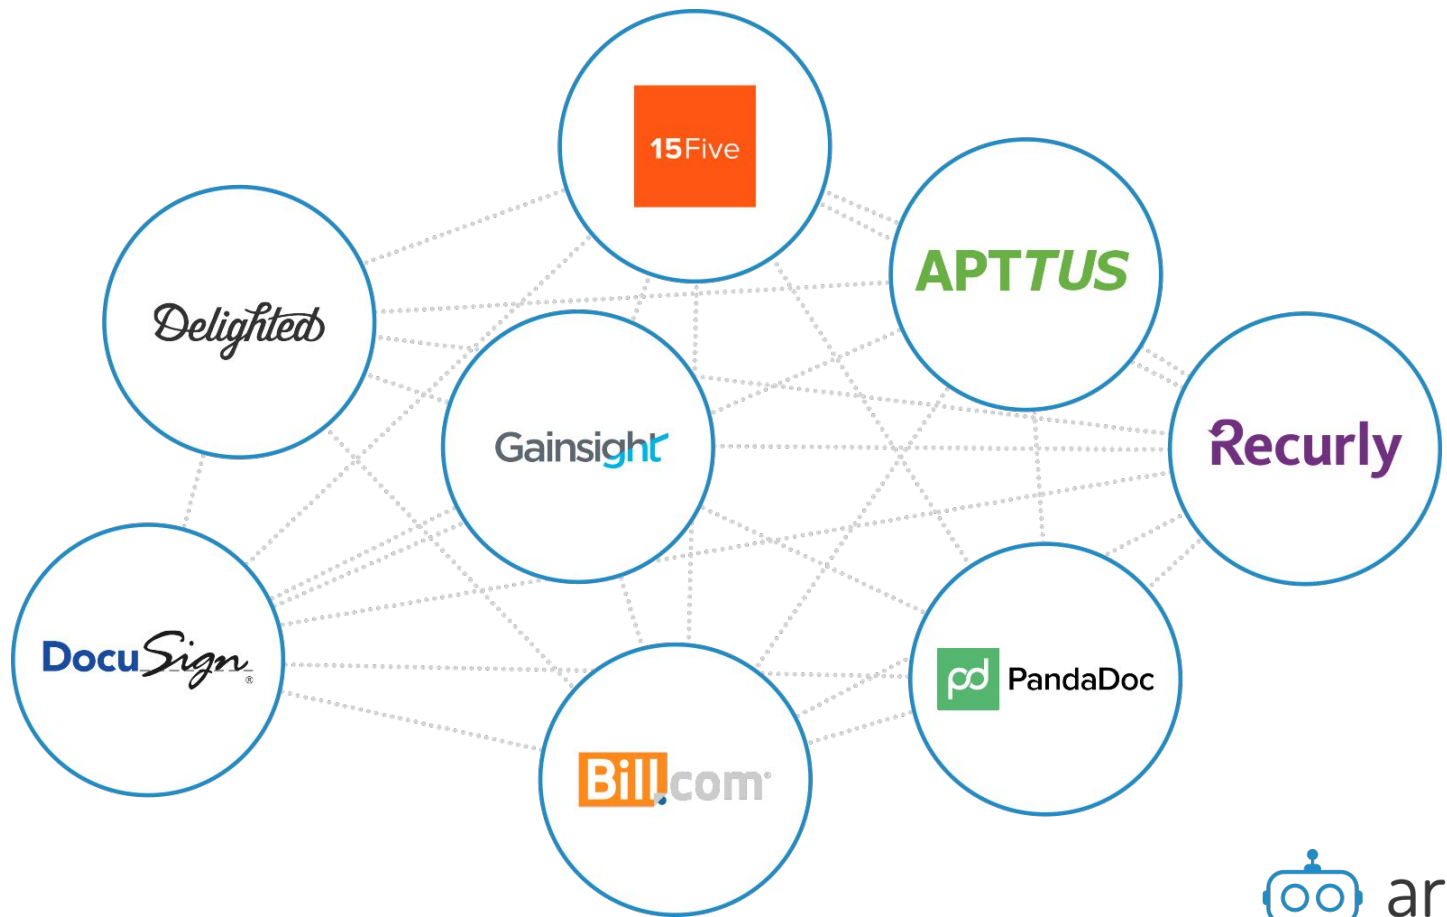

Customers

Invoices

Subscriptions

Employees

HR: **bambooHR** **workday**

armatic.

Why stitching is a bad idea?

No database of truth

Labor intensive

Sync issues

Multiple logins Very costly

armatic.

What's Needed.

- Database of truth
- One Login
- Inter departmental workflows
- Instant access to features
- Consolidation of object data
- Activity insights
