

ALIGN PEOPLE, PLANS + PERFORMANCE DATA TO ACHIEVE YOUR GOALS

Envisio helps you to deliver your plans, align staff with your strategy and manage the expectations of your council and community.

Join civic leaders from more than 80 cities, counties and towns across North America that use Envisio to go from plan to action. Clearly measure performance, report progress and build trust in your administration along the way.

ALL-IN-ONE STRATEGY AND PERFORMANCE MANAGEMENT

Manage all your municipal or county plans in one place. Easily communicate progress through internal reports and public dashboards, and put data at the heart of your strategy story.

PLANS

- Cascade your strategic goals into actions. Get visibility into every level of your plan and keep your team aligned with the things that matter.
- Assign owners, contributors and observers across departments. Keep them on track with automated reminders, checklists and reports.
- Automate progress reports for your staff and your council. Use our best practice templates, create your own, or let our team do it for you.

ANALYTICS

- Easily collect, analyze and visualize your performance data to drive better decisions.
- Embed charts and graphs into any level of your plan to track your performance measures. Include them in your reports with a single click.
- Slice and dice your data to discover new insights about your organization's performance.

PUBLISH

- Share your story with your community via interactive public dashboards. Choose which aspects of your plan and performance measures are shared.
- Easily design your dashboards to align with your brand.
- Roll up actions and updates into summary performance dashboards, then let your residents drill down into the areas important to them.
- All Envisio public dashboards are fully ADA compliant.

WE SERVE PUBLIC INSTITUTIONS

Envisio works with public institutions to help them execute strategy and build trust with stakeholders. Our software is built to address the unique challenges that come with managing the expectations of elected officials and a highly diverse public. In addition, we foster a community of innovative local government leaders who share best practices and content. The deep expertise of our team and community is key to driving success for our customers.

FLEXIBLE, COMPREHENSIVE REPORTING

Envisio makes it simple to deliver timely and accurate information to your council, community and staff. Structure reports in a way that makes sense for each of your stakeholder groups, without spending hours in spreadsheets. Create on-demand or scheduled reports by person, department, status, or any other aspect of your plan. Roll up action-level updates under strategic goals to see how the organization is performing, then drill into specific areas for more granular insights.

OUR TEAM IS YOUR TEAM

Envisio makes it easier for people to do their jobs by providing intuitive and engaging tools. However, we understand that effective strategy execution often requires cultural and operational changes. That's why every Envisio customer is backed by their own strategy execution team. Our experts in local government strategic planning, performance analysis and change management will get you set up in Envisio, help you define performance measures, build your reports and provide hands-on help throughout the delivery of your plans.

ABOUT US

We believe that public institutions thrive when there is trust, and that nothing builds trust like a well-executed plan. Envisio is the #1 strategy and performance management solution used by government.
