

LEARN ABOUT **MIE TRAK PRO**

Your company has
unique needs, we
understand.

WELCOME

MIE Trak Pro™ is designed to responsively adapt to meet your needs.

MIE Trak Pro™ is an end-to-end ERP system that seamlessly integrates all business processes from the warehouse to the front office to your mobile device. Everything, from the robust architecture to the massive suite of customizable tools to the intuitive user interface, is designed to maximize efficiency and agility across your entire enterprise.

MIE Solutions is devoted to helping your business succeed. Our team of support specialists, project managers, consultants, and developers are here to assist you with your business in every way possible

ADVANTAGES

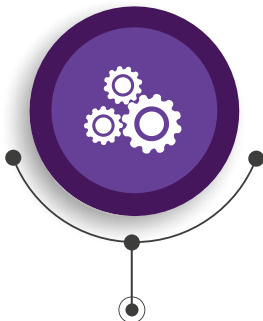

RESPONSIVE SUPPLY CHAIN MANAGEMENT

Anticipate shortages and adjust scheduling in real time to prevent slow-downs and guarantee on-time delivery to your customer.

EXPERT SUPPORT

Receive the training and support your staff needs to make MIE Trak Pro™ work efficiently and effectively. Receive access to knowledgeable and consistent support, 24.7.

STATE OF THE ART AUTOMATION

Our unique automation system anticipates and solves problems by minimizing human error and maximizing efficiency. It keeps your key staff informed so they can make choices with integrated data using proven industry best practices.

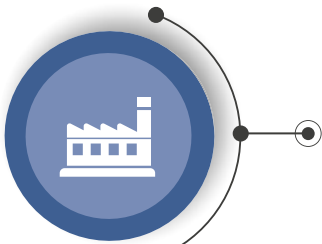

FAST IMPLEMENTATION

We know that changes are disruptive to your company. Our team of implementation experts work with your key staff to ensure a thorough, smooth, and fast implementation process so you can get up and running as quickly as possible.

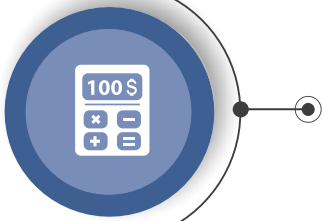

FEATURES

MIE TRAK PRO™
PROVIDES A TOTAL END-
TO-END SOLUTION On-
Premise and on the cloud

MANUFACTURING

Maximize efficiency with an automated scheduling engine that's vertically integrated with your supply chain. Programming is based on specified due dates, required sequences, and the availability of work centers and machines.

ACCOUNTING

MIE Trak Pro's Accounting module is a fully functional and integrated system that includes financial statements, reconciliation, human resource functions, time clock, and more. You can also seamlessly integrate with QuickBooks and Sage and easily import customer and supplier invoices, customer data, and supplier information.

CLOUD CAPABILITIES

You own the MIE Trak Pro ERP software along with your data. Other cloud-based ERP systems have "multi-tenant" solution where you lease the application and have no control of software updates. We provide a "dedicated" AWS server so *you* are in control of software updates. We also provide regular backups for disaster recovery.

QUALITY

Increase quality and minimize failures at each step of the manufacturing process. Identify and address quality concerns with powerful analytic reports that identify key areas of improvement.

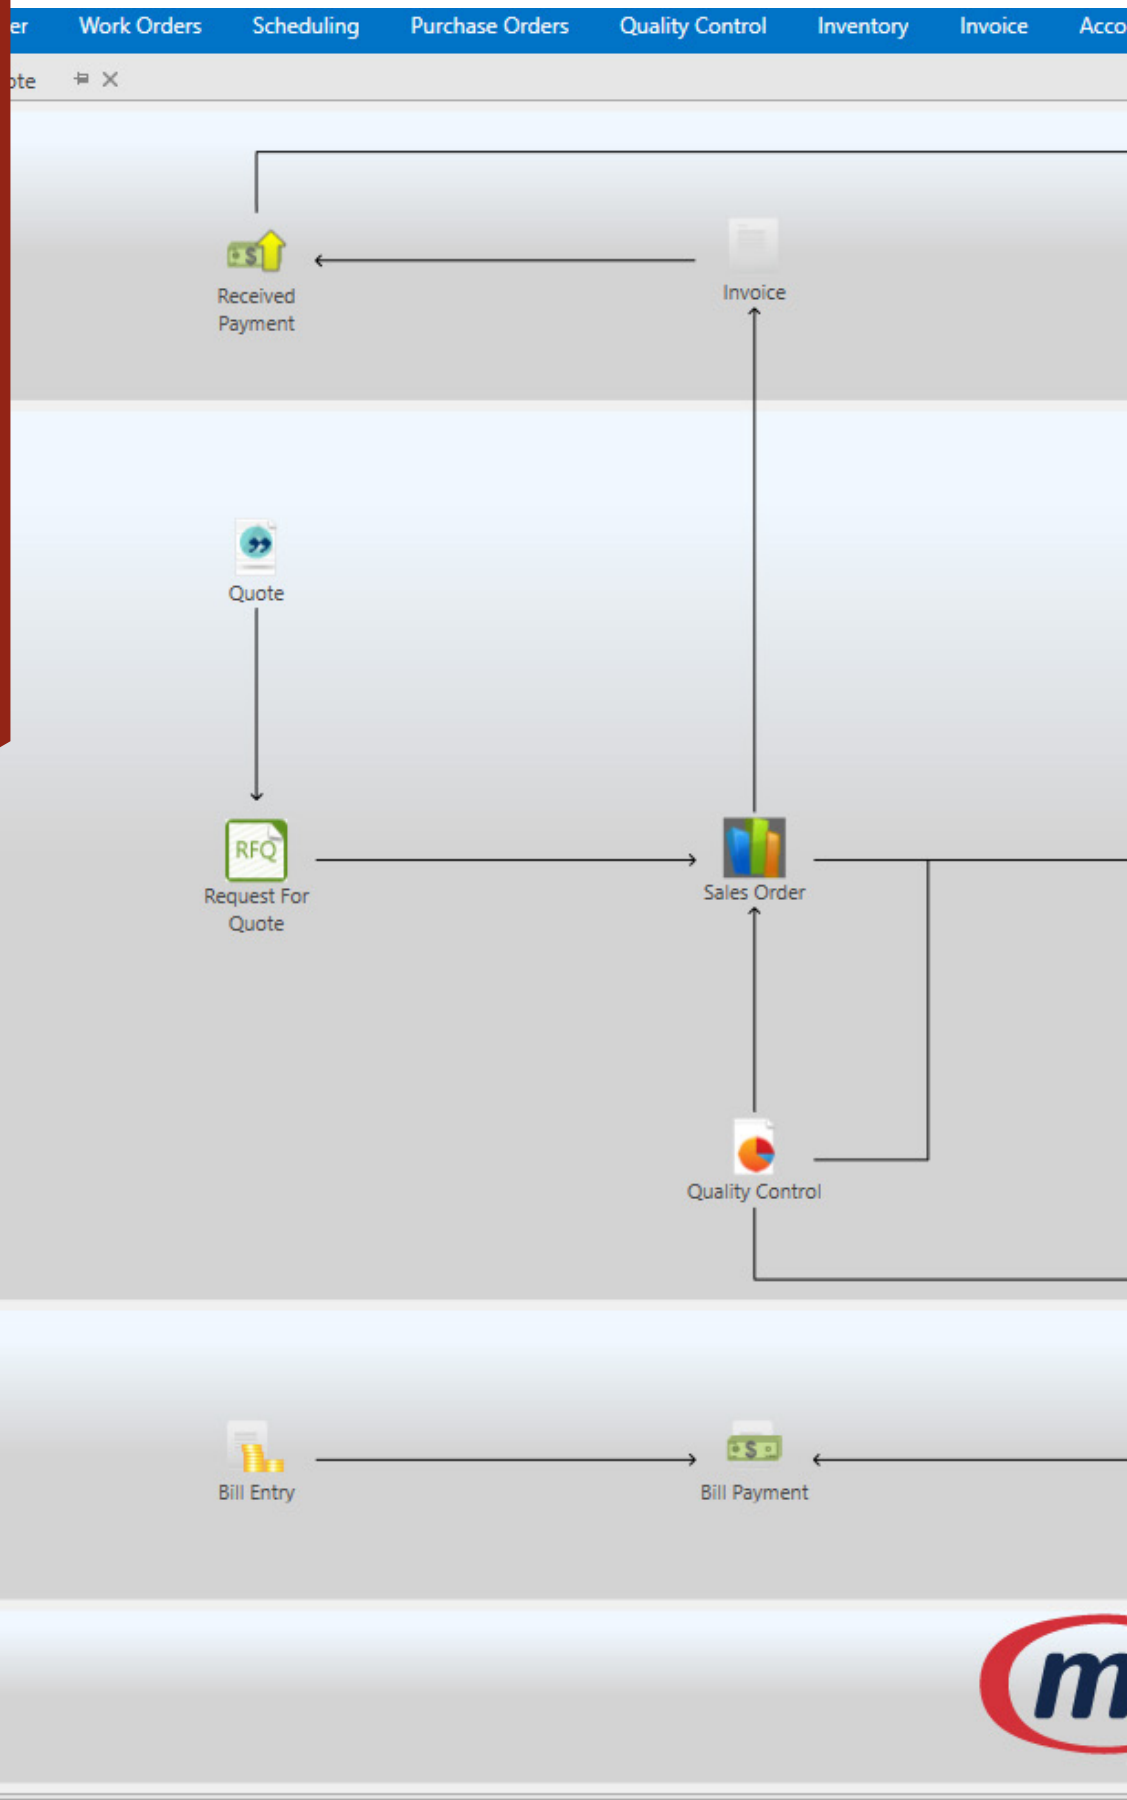

SALES

Create RFQ's and detailed assembly quotes without the use of complicated spreadsheets. Create sales orders instantly from the RFQ and generate work orders, pick lists, and invoices at the touch of a button.

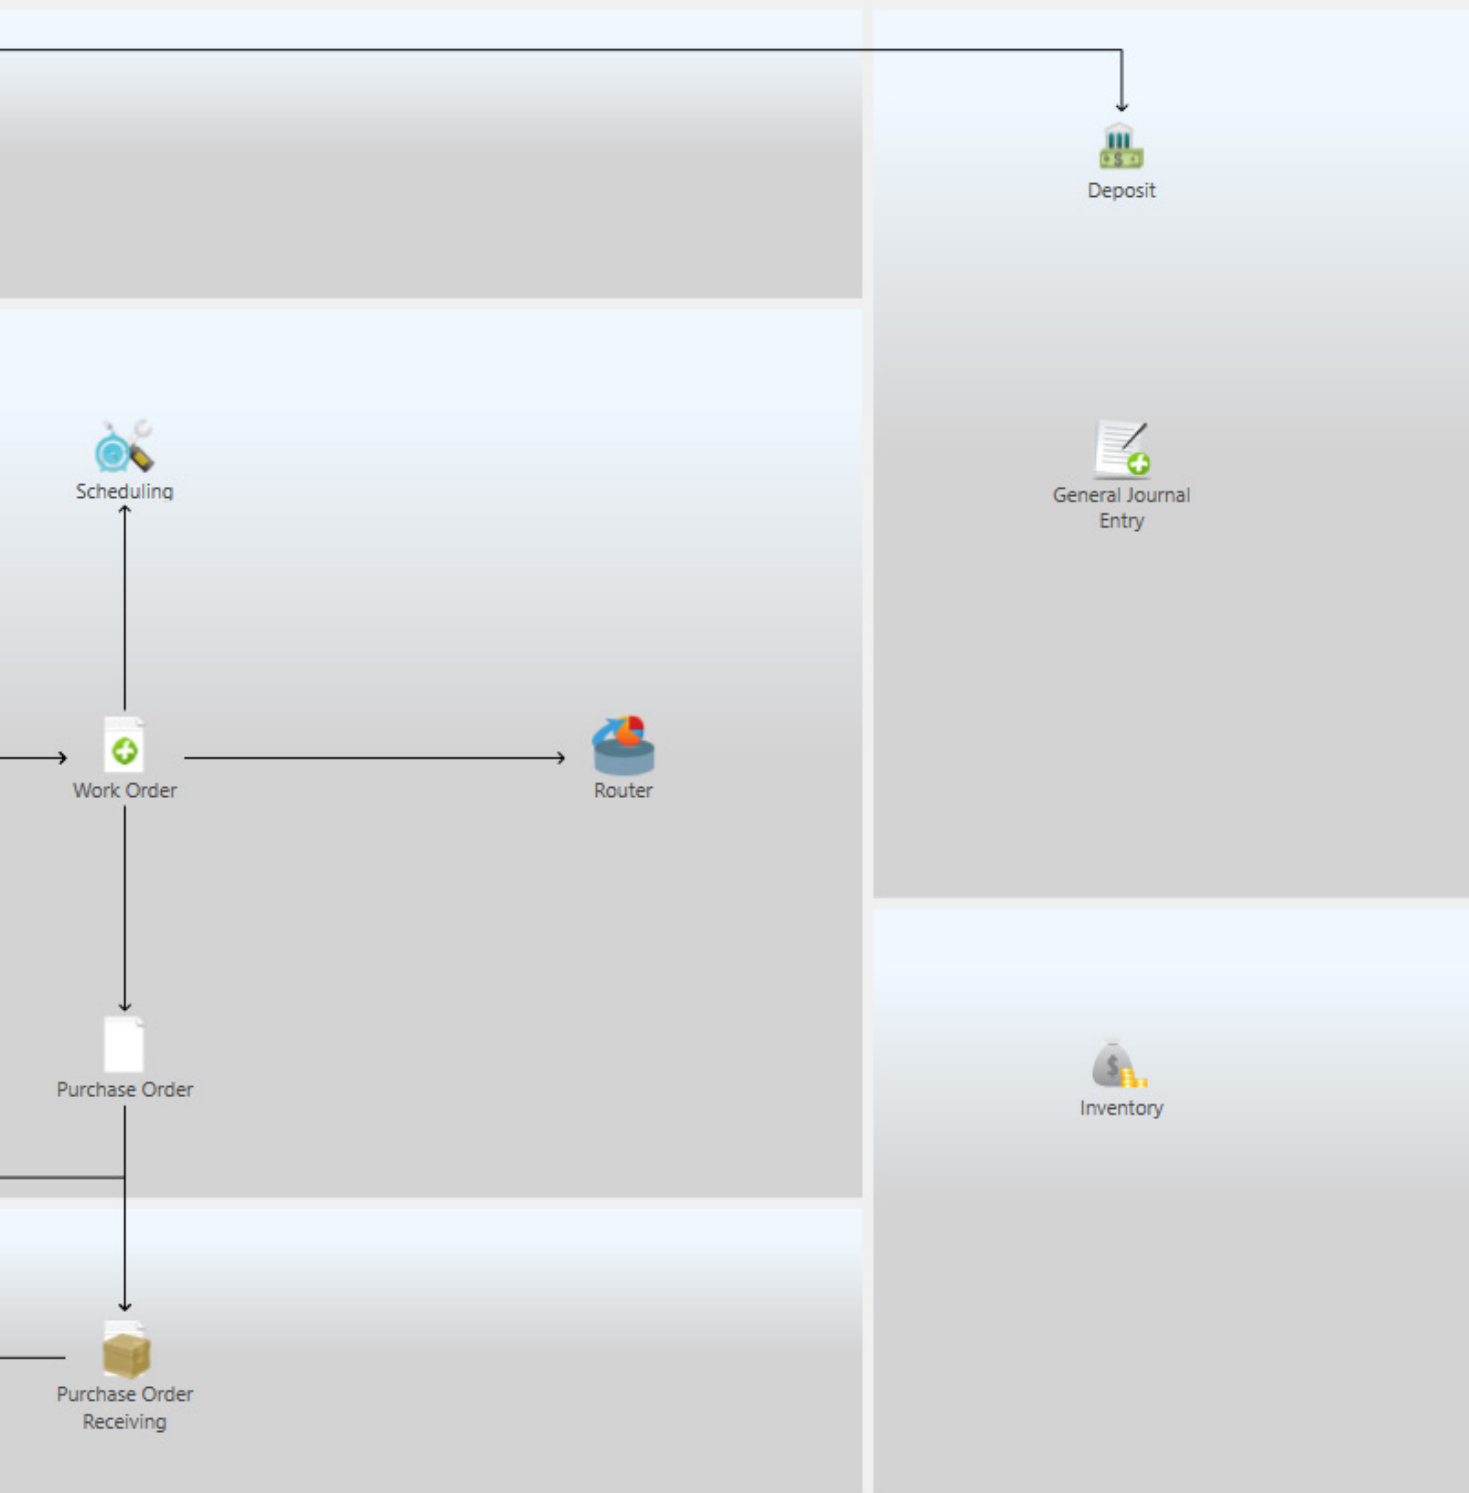

ERP Software for Manufacturers

- Quoting/Estimating
- Sales Order
- Work Order
- Scheduling
- Purchase Order
- Inventory
- Quality
- Data Collection
- Kiosk
- Invoicing
- Accounting
- Preventive Maintenance

LET US SHOW YOU

Streamline everything for
maximum speed, efficiency,
accuracy, and control.
All in real time.

QUOTING /ESTIMATING

- ✓ For easy, custom quotes
- ✓ Pricing developed for parts and products
- ✓ Detail breakdowns

SALES ORDERS

- ✓ Create from an RFQ
- ✓ Import from a spreadsheet
- ✓ Create straight from module

INVENTORY

- ✓ Accuracy of inventory quality
- ✓ Data Collection
- ✓ WIP Inventory

QUALITY

- ✓ Pass IOS/AS Certification
- ✓ Pass QC Audits
- ✓ Learn which products failed and why

MIE Trak Pro™ is an ERP offering that is ideal for manufacturing businesses with modules designed to accommodate most production cycles and optimize the capabilities of repetitive, custom, quick-turn, and mixed-mode operations.

It is best suited for custom manufacturers and fabricators that handle up to \$500 Million in fabrication and processing. The solution supports several manufacturing modes, including discrete, Made-to-Order (MTO), and Engineering-to-Order (ETO).

WORK ORDER

- ✓ Automate WO creation
- ✓ Go paperless
- ✓ Improve your work flow

SCHEDULING

- ✓ APS Scheduling
- ✓ Forecast your delivery dates
- ✓ Never doubt your capacity

PURCHASE ORDER

- ✓ Run Lean Purchasing
- ✓ Analyze your supplier's delivery performance
- ✓ Order Just-In-Time

DATA COLLECTION

- ✓ Gain Visibility
- ✓ Real-Time Reporting
- ✓ Real-Time Work Order Tracking and Data

INVOICING & ACCOUNTING

- ✓ Full time reporting dashboards
- ✓ Visibility to your bottom line
- ✓ Close your financial period

KIOSK

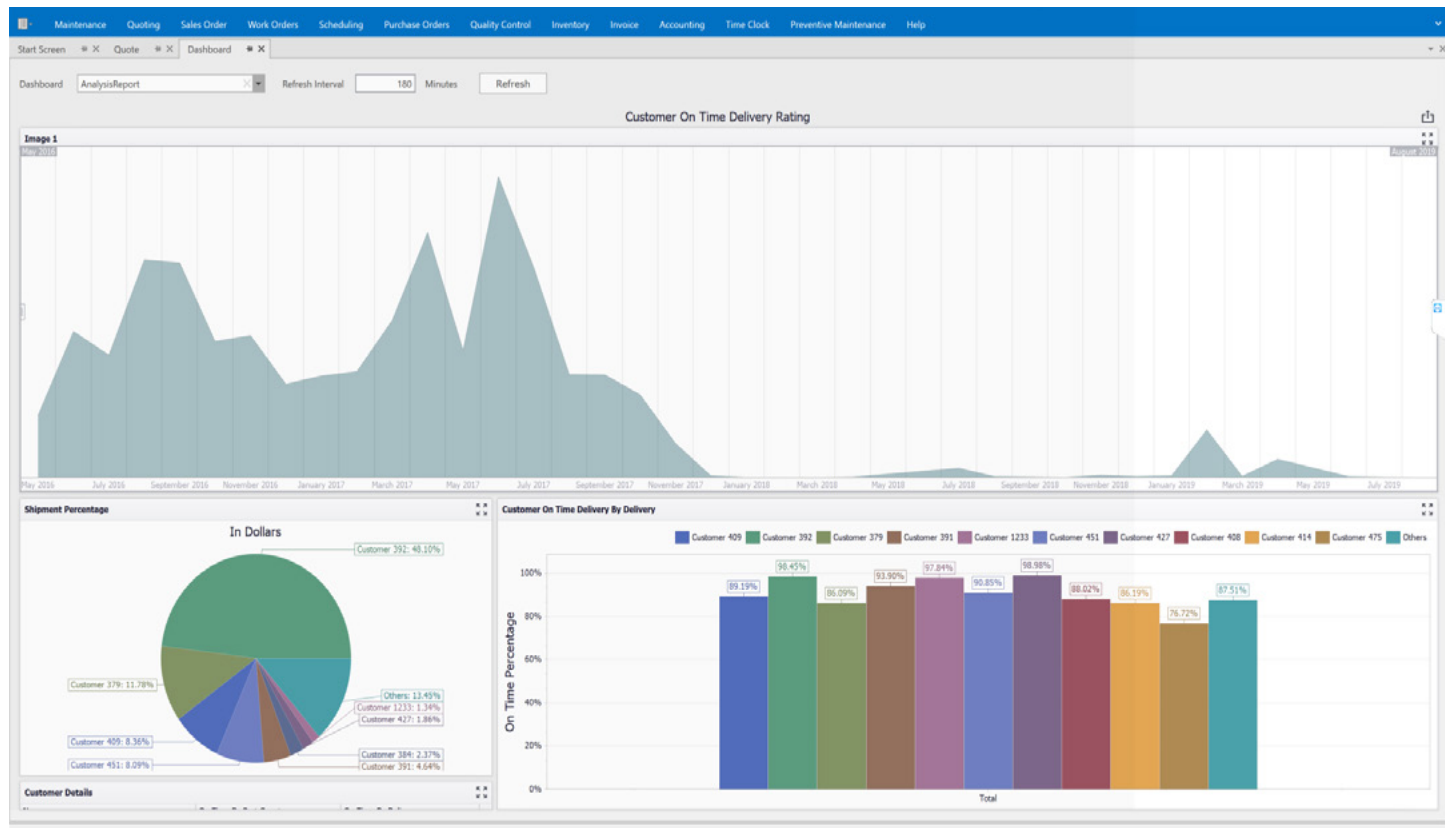

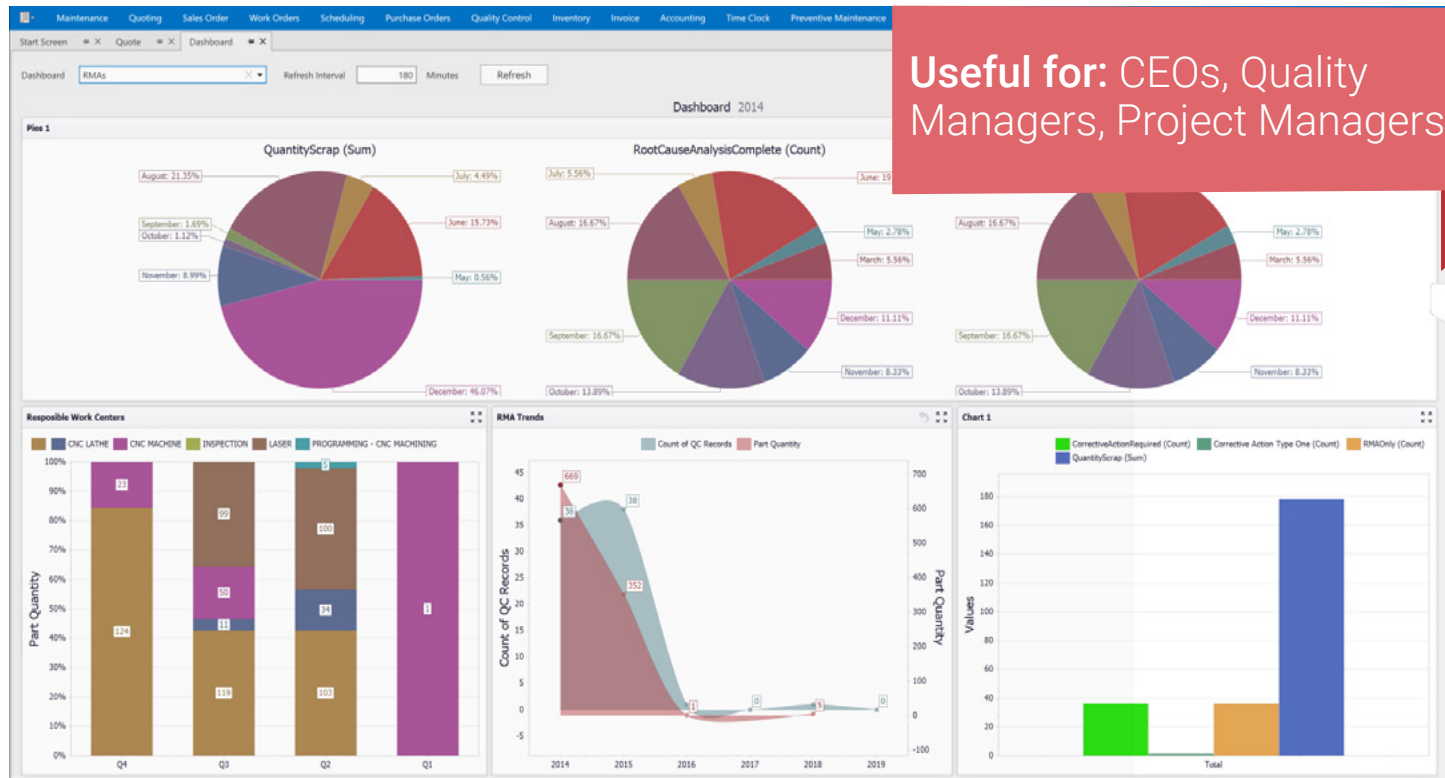

- ✓ Collect data in real time
- ✓ Seamless integration with MIE Trak Pro
- ✓ Login via iPad

MIE Trak Pro™ streamlines the following features for maximum speed, efficiency, accuracy, and control—all in real time: Accounting, Business Analytics, CRM, EDI, BOMs, Barcoding, Human Resources, Inventory Control, Invoicing, Quality Control & Inspection, Repair & Maintenance, RFQ/Quoting, Sales & Purchase Order Processing, Time Clock, and Work Order Scheduling & Reporting.

The system also offers Kiosk Data Collection and Whiteboard Scheduling modules with drag-and-drop scheduling capabilities. It also contains customer and vendor centers with an executive management overview to ensure access to real-time data updates.

CONFIGURATOR

Speak to a MIE Solutions sales representative about our various options to suit your business. All software packages are available via cloud or on-premise.

Implementing MIE Trak Pro™ is a simple and efficient process. We supply the support you need to make a smooth transition.

IMPLEMENTATION PLAN

Be fully implemented in 120 days by working with your project manager and following our step-by-step plan.

DATA IMPORTING

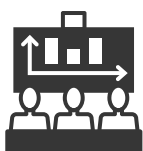

Depending on the ability to export data from your existing system, standard imports include: Customers, Suppliers, Item Master, Open AR, and Open AP.

DESIGN KEY REPORTS

Enhanced reporting features customized to fit your needs.

TRAINING

Attend a workshop in California to learn the ins and outs of MIE Trak Pro™.

SUPPORT GOING LIVE

Multiday on-site support when MIE Trak Pro™ goes live.

Implementation FOLLOW-UP

Multiday on-site follow up one month after going live to ensure satisfaction.

“In 2014, we went from \$4 Million to \$8 Million (annually) without increasing overhead. We’re still maintaining those numbers. We had no idea we could grow like that. MIE Trak Pro paints a better picture and gives you the visibility you need.”

- Frank Roth, Owner of Elite Tool LLC
