Cadency by Trintech

CADENCY
BY TRINTECH

Innovative Financial Close Platform with Proven ROI

Cadency by Trintech offers a comprehensive and transformative platform designed to elevate the financial close process for large enterprises. The Cadency platform not only streamlines all aspects of the Record to Report (R2R) process but also integrates with existing ERP systems, ensuring a seamless flow of data and significantly reducing the risk of errors.

By automating key tasks and providing actionable insights, Cadency empowers finance and accounting teams to close faster, with more accuracy, and with less effort. With Cadency, you're not just closing the books; you're opening up possibilities for strategic decision-making and long-term success.

Cadency Platform

Transaction Matching

Cadency Match allows you to quickly and accurately perform high-volume transaction matching, enhancing the accuracy and regulatory compliance of financial statements. Its superior exception management capabilities apply multiple match rules, reducing daily transaction matching time and allows for timely handling of exceptions instead of deferring to period end.

UP TO
99%
REDUCTION in preparation time on reconciliations *(for reconcilers)*

Balance Sheet Reconciliation

Cadency Certification streamlines account reconciliation and substantiation through standardization, automation, and controls. It enhances the speed, quality, and accuracy of the financial close by automating low-risk reconcili-ations, identifying high-risk areas earlier while providing actionable insights.

UP TO
90%
REDUCTION in number of accounts to be reconciled

Close Task Management

Cadency Close automates and documents your period end, providing control and audit-ready visibility over the entire financial close process. Automation is essential for managing multiple locations, teams, and ERP integrations, ensuring faster, more compliant close times and enhancing the strategic value of your finance and accounting teams.

UP TO
30%
REDUCTION in time preparing and completing close tasks

TRINTECH

Journal Entry

Cadency Journal Entry centralizes and automates the journal entry process, providing audit-ready documentation and ensuring compliance with corporate guidelines and government regulations. It bridges required adjustments and the general ledger, creating a closed-loop process.

UP TO

75%

REDUCTION in time preparing and reviewing journal entries (for preparers)

Compliance

Cadency Compliance strengthens governance, reduces risk and simplifies compliance within your business. It operates across multiple subsidiaries, geographies, and legal entities, allowing thorough risk evaluation by focusing compliance efforts and resources on the most appropriate controls.

UP TO

60%

REDUCTION in time to support an external audit

Intercompany

Cadency simplifies intercompany accounting by streamlining workflows for comparing and reconciling transactions between entities and facilitating vendor/customer postings with automation invoice creation.

UP TO

75%

REDUCTION in time spent on reconciliations (for reviewers)

Automations

Streamline your processes in Cadency and your ERP by automating tasks (e.g. bad debt analysis or depreciate run) that trigger dependent activities. An automation dashboard with a built-in scheduler minimizes reliance on IT and technical resources, boosting productivity and provides greater visibility into your automated workflows.

Integration

Cadency integrations provide certified connectors for major ERPs (ex. SAP, Oracle, Workday, NetSuite), targeted APIs, and Data-as-a-Service capabilities, ensuring smooth data transfer between Cadency and your system of record. This integration enhances data accuracy, streamlines processes, and supports efficient financial management and compliance.

Trintech gives people time back for what matters most. Our cloud–based platform and solutions enable thousands of clients worldwide to lead productivity transformation across their finance and accounting organizations — driving efficiencies, ensuring accuracy to mitigate risk, and empowering strategic decision-making.

Make time count with Trintech.
