

MeisterTask Business

Intuitive, agile task management for businesses

MeisterTask Business offers the best of both worlds: simple, intuitive task management for your team, and sophisticated rights management for you. Give your team the tools it needs to work together efficiently, while maintaining full control over projects, workflows and tracked time.

Tip: Choose MeisterTask's Enterprise plan to get a tailored pricing offer, custom security review, dedicated account manager and more.

Here's what's included:

Task Management

Manage tasks in a beautiful, agile environment and collaborate on projects in real-time.

Time Tracking

Track the time you spend on tasks right inside the app. Edit time slips. Export reports.

Roles & Permissions

Assign different roles to team members and restrict their ability to modify projects and tasks.

Statistics & Reports

Get insights into your team's productivity, see how projects are progressing, and more.

Integrations

Easily connect MeisterTask with the tools your team already uses on a daily basis.

Automations

Automate recurring steps in your workflow for more efficiency and consistency.

Custom Fields

Customize tasks by adding fields for specific types of information to them.

User Groups

Create groups of multiple users within your team for quick sharing of projects.

Team Projects

Make projects available to your whole team without cluttering up their dashboards.

Priority Support

Get guaranteed support within 8 hours from our dedicated customer support team.

Account Management

Manage the licensing and billing of your entire business team with ease.
