

365ParcelShip

Ship High Volumes of Parcels Directly Through Microsoft Dynamics 365 Finance and Supply Chain Management

Are you a distributor forced to work outside Dynamics 365 to ship parcels using bulky, expensive third-party systems that require expensive integrations? **365ParcelShip is your answer to shipping high volumes of parcels with ease.**

With 365ParcelShip, wholesalers and distributors can manage and ship small package orders using an internet-based rate engine that includes most major parcel shippers—all without leaving Dynamics 365. Get the best rates and deliver superior customer service, even while shipping thousands of packages a day.

**SHIP THOUSANDS OF
PACKAGES A DAY WITH
365PARCELSHIP**

**OUR CUSTOMERS ARE
USING 365PARCELSHIP TO
GROW THEIR DISTRIBUTION
BUSINESSES:**

A high-volume baby supply distributor ships 6,000+ packages a day

One of the largest online retailers of printer supplies in the US ships 4,000+ packages a day

A global food company ships 20,000+ packages a day

Ship High Volumes, Faster, from One Solution

Use 365ParcelShip to streamline your shipping operations from start to finish and keep customers happy.

- Eliminate time-consuming packing steps to quickly ship any number of orders with pre-printed labels
- Close out work and ship orders with just one scan
- Track delivery status, service customers, and automate the capture of shipping information all in Dynamics 365
- Rate shop with ease to find the best rates without having to track changes or maintain rate tables
- Give customers their carrier rates
- Integrate scales to get accurate weights at the time of shipment
- Automatically add freight charges to sales orders
- Enable shipping from multiple locations, such as warehouse, inside sales, and sales counter
- Enjoy predictable costs and only pay a few cents per parcel shipped

PRACTICAL SOLUTIONS FROM THE EXPERTS IN WHOLESALE DISTRIBUTION

IN BUSINESS OVER 35 YEARS, WESTERN COMPUTER HAS
A DEEP UNDERSTANDING OF WHOLESALE DISTRIBUTORS
AND THE UNIQUE CHALLENGES THEY FACE.

Working with scores of Microsoft Dynamics customers, Western Computer has leveraged industry expertise to develop standard commercial products that solve common problems. These distribution applications are verified by Microsoft and are available through Microsoft AppSource.

“Shipping is **easier** and **faster** using **365ParcelShip**, developed by Western Computer. The **365ParcelShip** app has given Hyland’s the ability to increase customer satisfaction through address validation as well as rate shopping among all carriers, which is resulting in more orders. **365ParcelShip** is an easy-to-use but very robust shipping solution that provides Hyland’s customers a best-in-class shipping experience on every order.”
