# AI-Powered Benefits Enrollment & Management **Solution Guide**

## Key Challenges of Managing Benefits Enrollment Manually or with Outdated Tech

- Today's benefits solutions are asking employees to make **critical decisions about their health** without much support or insights into the potential outcome of their decisions.
- Employers **struggle with manual processes and outdated tech** that takes weeks or longer to configure, and that doesn't take into account the unique structure of their business.
- The **hassle of synchronizing** the enrollment and payroll deduction data with multiple carriers, payroll/HCM providers, and other third-party tools.

## What's Unique about our Benefits Enrollment & Management Solution?

EverythingBenefits' artificial intelligence (AI) powered solution streamlines enrollment and makes it easy for employers to make critical decisions while eliminating paper forms and manual processes.

Virtually unlimited configuration options for employers make it easy to setup diverse offerings, new carriers, enrollment periods, eligibility and more

Integrations take care of communicating the data with over 600 benefits providers and TPAs

Our implementation team ensures a fast and seamless on-boarding experience and continues to provide superior support post integration

## TOP FEATURES

- **AI-Powered Benefits Support.** Our powerful technology compares employee's demographic data and personal preferences to the actual outcomes of millions of others, highlighting best benefits options.
