

Centralized Payments on One Robust Platform

Initiate 100% of your payment approval and execution workflows through one user-friendly interface. Facilitate foreign and domestic transactions via different payment types, including check, wire, ACH, and virtual card for end-to-end efficiency.

BENEFITS

Real-time payment capabilities in 145 currencies

Integration with any banking partner or ERP

Increased fraud protection and authorization rates

Mobile payment acceptance via iOS or Android app

24/7/365 in-house, expert support

Improve Efficiency

Streamline and centralize your payments on a single platform. Create batch payments and pay vendors via any payment type all from your existing bank accounts. Remittance notifications are automatically sent to approvers and vendors for maximized visibility.

Reduce Costs

By automating and scheduling your payments, you can eliminate paper pileup from manual workflows. Our mobile or desktop approvals allow users to set approval workflows for specific departments, invoices, GL codes, and more, so your AP team doesn't have to spend time chasing down signatures or stuffing envelopes.

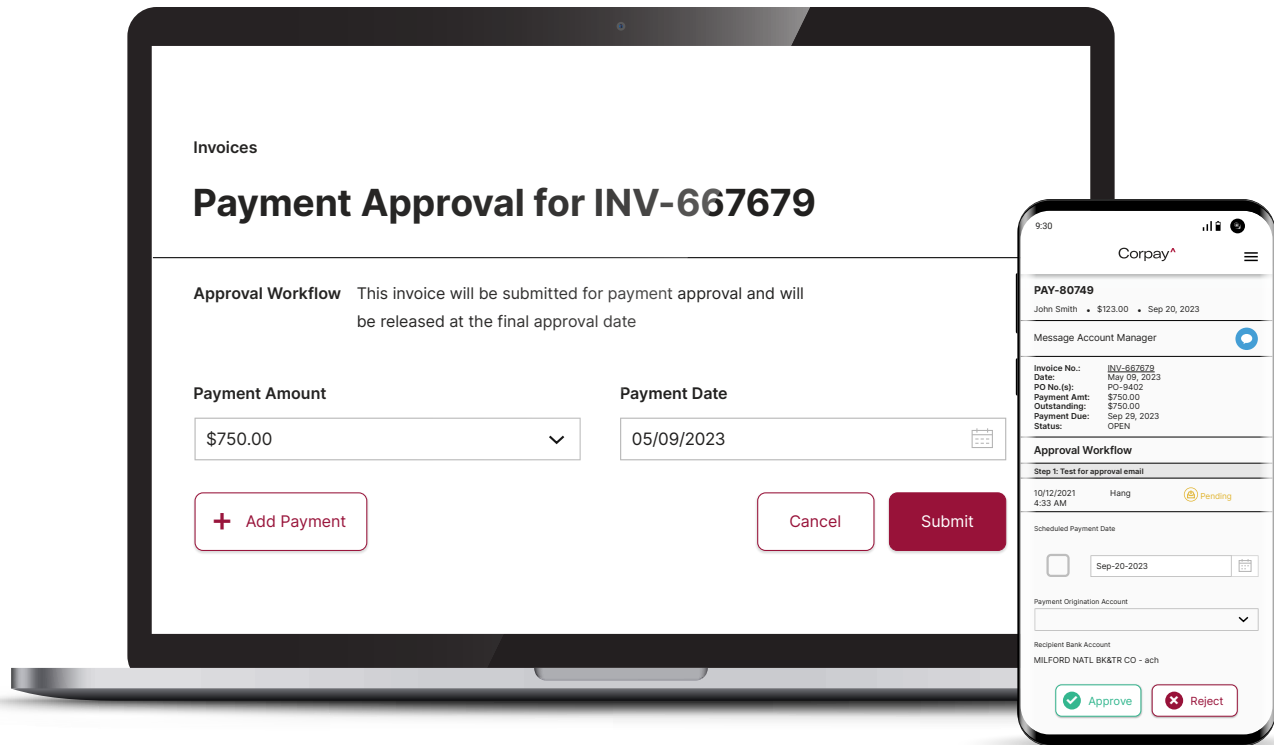

Mitigate Fraud

Our cloud-based portal serves as a central repository for all communications, invoice history, vendor data, and sensitive payment information so your team is always in-the-know. Minimize risk by ensuring spend documentation across all locations and international subsidiaries is always accessible.

Implement to Your Needs

Our tier 1 bank integrations and ERP-agnostic solutions allow for expedited implementation processes. No need for disjointed systems or manual data entry. Plus, our in-house implementation teams ensure minimal IT involvement and ongoing support.

Extended Visibility Across All Systems

From Procure-to-Pay, We've Got You Covered

Corpay Procure-to-Pay includes our payments automation solution, along with our vendor management, purchase order (with punch out capabilities), receiving, budgeting, accruals, invoice automation, corporate card, and expense reporting solutions. Seamlessly pair this solution with any of our other offerings to further streamline your AP workflows and optimize the way your business pays, all from one dynamic system.
