

Training Tailored To Your Needs

CMD+CTRL Security provides role-based training with progressive learner journeys tailored to all stages of the software development lifecycle. Our courses, labs, and cyber ranges offer realistic simulations, interactive content, skills assessments, and comprehensive analytics—available on the CMD+CTRL Base Camp SaaS platform or your Learning Management System (LMS).

We offer two subscription tiers designed to meet the unique needs of your business. The **Pro Plan** helps you get up and running quickly with curated packages designed for the most common training goals. The **Enterprise Plan** offers full platform access and comprehensive features for maximum flexibility. Both plans include a dedicated customer success manager to ensure a great user experience.

PRO PLAN

Annual Subscription

Pre-configured packages designed to develop specific skill sets through curated learning journeys and hands-on interactive labs. Journeys are purpose-built to support organizational goals such as Secure Code Development, Cloud Deployment, Compliance, or building a Security Culture.

- ✓ Purpose-built programs
- ✓ Curated learning journeys
- ✓ One proctored cyber range tournament

ENTERPRISE PLAN

Multi-Year Subscription

Full access to all 250+ courses, curated learning journeys, 125+ hands-on labs, 11 unique cyber ranges, skills assessments, and certification program along with two proctored cyber range events.

- ✓ Access to all courses, labs and cyber ranges
- ✓ Two proctored cyber range tournaments
- ✓ Cyber Skills Competency Certification program
- ✓ Skills assessment

**SECURE CODE
TRAINING SOFTWARE**

“A+ software security training that covers the most roles and technologies. The product is easy to use, requires zero cost or time to implement, and features the most up-to-date content with outstanding customer service. We use it all the time!”

— A recent G2 review
