

INFOSEC Skills

Upskill and certify your team with hands-on cybersecurity education

Threats move fast. Your team moves faster.

Upskill and certify your security, IT and engineering teams with the hands-on cybersecurity training platform that scales to your organization's needs. Assess teams and close skills gaps with hands-on cyber ranges, projects and courses mapped to the NICE Workforce Framework for Cybersecurity and MITRE ATT&CK® Framework — or upgrade to a live boot camp for instructor-led training to certify your team, guaranteed.

Infosec Skills includes 1,200+ hands-on courses, cyber ranges and labs to:

Prepare teams for MITRE ATT&CK tactics and techniques with hands-on labs in cloud-hosted cyber ranges

Guide team development with 130+ learning paths mapped to the NICE Framework

Assess knowledge and skills to pinpoint gaps and training needs

Gauge exam readiness with customizable certification practice exams

Fast-track certification with 100+ live, instructor-led boot camps

Learn how to ATT&CK & defend in the cyber range

Infosec Skills cyber ranges guide learners through realistic scenarios inside the operating environments they'd encounter on the job. Launch a cyber range with one click and learn how to counter the MITRE ATT&CK tactics and techniques targeting your organization today. From command line basics to advanced adversarial techniques, Infosec Skills cyber ranges teach your team how to:

- » Run red and blue team exercises
- » Write secure code by example
- » Pass dozens of technical certifications by gaining hands-on domain knowledge
- » Attack and defend cloud-based applications
- » And much more

Personalize learning with training mapped to the NICE Framework

All Infosec Skills training maps directly to the NICE Framework to help you build role-relevant, scalable team development programs that close cyber skills gaps. Take a bottom-up approach to any training initiative by building custom learning paths covering specific NICE Knowledge and Skill Statements, or browse and assign training from any of the 52 NICE Work Roles inside the platform.

"Infosec Skills is a very good place for building technical acumen and engineering development knowledge. It enables us to provide training to the entire team on relevant topics."

— Romy Ricafort, West Division Senior Director of Sales Engineering

Get certified — then stay certified with 100s of CPE opportunities

Infosec Skills includes training for dozens of popular certifications from CompTIA®, (ISC)²®, ISACA®, Cisco®, Microsoft®, AWS™ and more. Prepare for your next exam with help from our expert instructors, then gauge exam readiness with unlimited access to customizable practice exams. With completion certificates available for every course, Infosec Skills has everything you need to keep existing certifications current with 100s of CPE opportunities.

Upgrade to a live boot camp for guaranteed certification

IT and security certification is often more than a goal — it's a business requirement. That's why we offer over 100 certification boot camps taught by industry experts with 10+ years of experience. Live boot camps include all the content in Infosec Skills, plus:

- » Exam Pass Guarantee (live online students)
- » Exam voucher
- » Bonus boot camp prep course and 90-day access to all boot camp video replays and materials

Here's how we guarantee certification success:

- » **Exam Pass Guarantee:** Students who don't pass their exam on the first attempt get a second attempt free. Includes the ability to re-sit the course for free for up to one year.
- » **100% Satisfaction Guarantee:** Students who are not 100% satisfied with their boot camp at the end of day one may enroll in a different online or in-person course.
- » **Knowledge Transfer Guarantee:** If your employee leaves within three months of obtaining certification, we will train a different employee tuition-free for up to one year.

Orchestrate and track team training from one location

Infosec Skills Teams makes it easy to manage and measure your training initiatives. Administrators can enroll learners via single sign-on (SSO) or CSV upload, and organize team members into groups to quickly assign content to specific departments or roles.

We'll help you secure next year's employee development budget with at-a-glance metrics that prove training impact at the individual, group and team level like:

- » Training progress and completion rates
- » Skills assessment and practice exam scores
- » Boot camp attendance and completion rates

With Infosec Skills' open API, it's easy to integrate learner data into existing business intelligence systems — or add Infosec Skills course information to any LMS or website for a seamless, centralized learning experience.

Award-winning training you can trust

About Infosec

Infosec believes knowledge is power when fighting cybercrime. We help IT and security professionals advance their careers with skills development and certifications while empowering all employees with security awareness and privacy training to stay cyber-safe at work and home.
