

BCG is committed to helping you respond to the current COVID-19 pandemic. Our years of experience in the disaster and emergency management field make us a great partner for providing solutions to the ongoing COVID-19 outbreak and the challenges it presents.

MONITOR VITAL SERVICES

Track, distribute, and account for vital services in real time.

- Hospital Bed Tracking
- Quarantine Facilities Management
- Illness Tracking
- Contact Tracing
- Mortuary Tracking
- Personal Protective Equipment (PPE) Tracking

VISUALIZE SITUATIONAL AWARENESS DATA

Aggregate data from multiple sources and display in one unified view for improved decision making.

- Common Operational Picture Map
- Custom Dashboards & Reports
- Create and Manage Facility Opening/Access Plans
- Interoperable with almost any source, including ESRI ArcGIS Online

DEMOBILIZATION AND AFTER-ACTION REPORTING

All information entered within DLAN is logged for easy demobilization and after-action reports.

- Asset Tracking
- Financial Tracking
- Incident Reports
- After-Action Reports
- Assist with Reporting for FEMA Reimbursement

All DLAN functionality is mobile friendly and available from anywhere on any device, meaning responders don't need to gather in a centralized location in order to work on a response. This saves time and adheres to social distancing policies.

COVID-19 Solutions

DLAN is the proven and trusted incident management solution for governments, private-sector corporations, and educational institutions throughout the US and Canada.

INTEROPERABLE

DLAN is fully functional out of the box, including real-time visual situational awareness dashboards & built-in standards based communication tools.

FLEXIBLE

DLAN can be tailored to meet your specific workflow and its modular design means you choose only the features you need.

SCALABLE

DLAN's scalable design allows you to seamlessly move from daily operations to emergency response.

SECURE

Whether on premise or in the cloud, DLAN stresses security and privacy so that your data is protected at all times.
