

Bring your contracting needs full circle with LinkSquares.

Streamline contract management with a purpose-built, end-to-end CLM solution, powered by AI.

Old-school contract processes have burdened in-house legal teams for decades, but not anymore. LinkSquares is here with AI-powered, end-to-end contract lifecycle management software where everything from first draft to final signature lives in *one place*.

Life for in-house legal just got a whole lot easier.

LinkSquares Analyze

Save hours of searching through multiple systems.

Automatically centralize your contracts in one secure repository with intelligent data extraction and tagging features that make searching through hundreds of documents simple.

Meet Analyze

LinkSquares Finalize

Get agreements out the door faster.

There'll be no more drafting from scratch, toggling between tools, or version control nightmares.

Meet Finalize

LinkSquares Sign

Banish bottlenecks and get to signature faster.

Inundated with signature requests and worried you're slowing down deals? Get an at-a-glance view of agreements that require your signature, so you can keep deals moving.

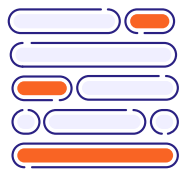

Meet Sign

“The reporting saves us hours that we can now spend getting something else done for the business.”

– Dean Fiotto, Associate Corporate Counsel, DraftKings

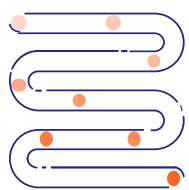

What sets us apart from the competition?

LinkSquares AI can scour your digitized contracts, extracting Smart Values (like dates and terms) to include in reports, dashboards, or events tracking.

The LinkSquares platform **fits seamlessly into your workflow and integrates** with Word and Salesforce so teams can work in their preferred tools with Finalize.

Your team will have **unlimited workflow options** to create custom templates for unique business cases (at no charge).

With industry-leading support included to help all our customers achieve their goals, LinkSquares outranks competitors on G2 with a 9.9 out of 10 rating.

Great minds *Link* alike – 1,000+ customers are thriving.

But don't just take our word for it. Check out the amazing ways they're using LinkSquares for better business outcomes.

Let's go
