

# AskAI for Everyday ROI

## Artificial intelligence to supercharge your conversation analytics

Use AskAI to double the value of your conversations. With simple prompts, you'll scrub communications for the details, summaries, and data you need to fuel your strategies and workflows.

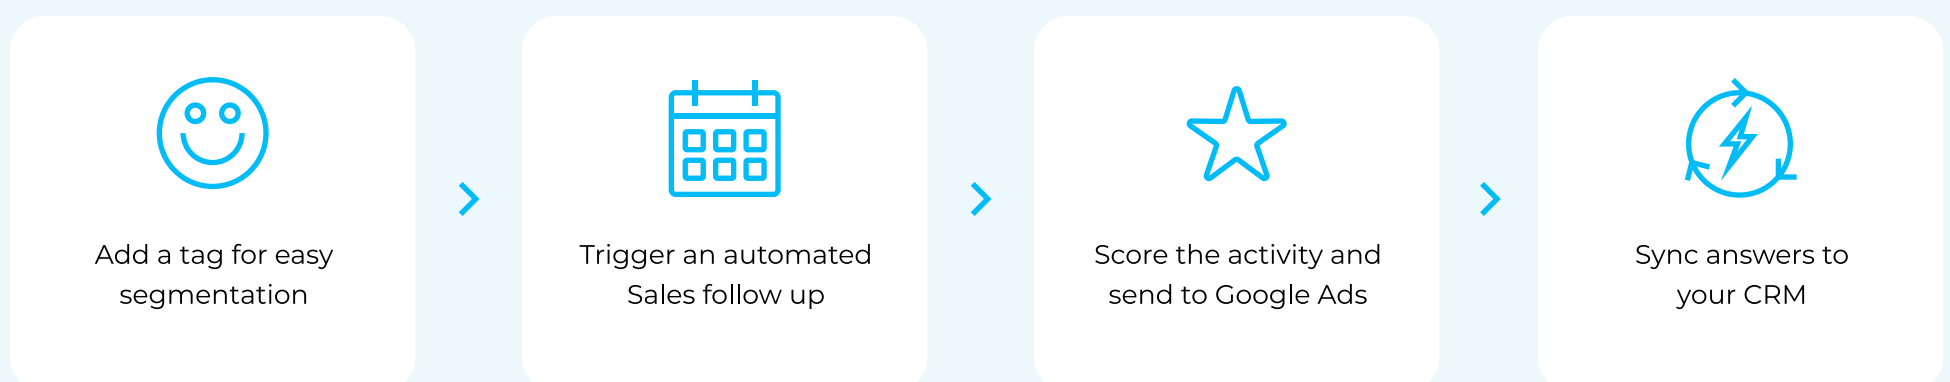

## Shorten Your To-Do List

### Your conversations are the key.

- Use AskAI to analyze your call transcriptions, chats, and texts for action items, like best next-steps after a sales call or which products your customers love.
- Collect general information outside your transcript with questions like, "How could the agent have improved this call?" or "What's the median income in this caller's zip code?"
- Anything actually said in your conversation, AskAI can analyze. *This does NOT include tone of voice or conversational indicators e.g. enthusiasm, unhappiness, repeated sighing, or other nonverbal cues.*

## Take Action.

Knowing is only half the battle. Take what AskAI discovered and:

## Let us do the heavy lifting. You relax.

Our AskAI Boost Packs help you access all the benefits of AskAI without having to figure it out yourself.

Our Professional Services department will set up:

- A goal-setting kickoff call
- 30 minutes of personalized training
- Up to 5 AskAI questions and/or text responses
- Up to 5 custom fields to store responses
- Custom trigger(s) and/or workflow(s)

## And the cost?

AskAI starts at \$0.01 per ask and is available on Marketing Pro & Sales Engage plans. Boost Packs start at \$900. Book your demo now to get started!
