

# Why Driver iQ?

Because your trucking company deserves a screening partner that knows your industry inside and out.

Driver iQ was founded in 2008 by trucking industry leaders that include a former HireRight president and a former president of the TCA; who set out to create a better screening business for carriers. One key to this was focusing exclusively on screening for the trucking industry and to this day, we're still the only screening company focused only on the needs of trucking companies.

**PRICE** - We work with carriers of all sizes on a day to day basis. We're typically able to provide a significant savings to carriers when they switch to Driver iQ. If you're willing to provide me with an invoice, we'll be happy to put a side by side comparison together for you.

**NETWORK FEES** - We don't have them. (Typically \$.42 fee per MVR with HireRight)

**"INSTANT MVR" FEES** - We don't have them. Our MVR are same day and priced like your "Standard" MVRs. MVR ACCESS - You can order MVRs for all 50 states in Tenstreet. (No more hassle of going to a state's portal i.e. - PA)

**CDLIS** - We work with you and CDLIS and have them investigate with the state to resolve the mismatches often caused by incorrect SSN, DOB, Name Mismatches or because the state of record has not been updated. The exact match needed to ensure companies can query FMCSA database for DA results can be accomplished easier with our help. Ensures faster processing.

**PSP** - We take all licenses, name configurations, and aliases and run them all through NICT on one order minimizing any need for multiple orders, thereby saving you time and money.

**NO HIDDEN FEES OR BINDING CONTRACTS** - You only pay for what you order with Driver iQ. No startup cost, setup cost, or integration costs with major Application tracking systems (i.e. Tenstreet or Driver Reach).

Additionally, we want to continually earn your business so we don't require any lengthy service contracts. You can even keep your existing provider available beside us in your ATS while you give us a try.

**PRE-EMPLOYMENT SCREENING (PRE)** - Driver iQ was founded in 2008 and since then we have added over 4.5 million termination records to our database. (No the DAC is not the only game in town!) Carriers who switch to us have shared that they believe PRE offers a better "hit rate" than DAC. This is because we have many of the largest carriers in trucking contributing exclusively to the PRE, which also means that the records we have are current drivers and ones who are churning in the industry. This valuable tool is significantly less expensive than DAC and returns in less than 60 seconds.

**EARN MORE CREDITS** - We have a more lucrative credit program for contributing your termination records than you have today. We offer \$2.50 the first time the record is requested and an additional \$.50 thereafter for the lifetime of the record.

**CUSTOMER SERVICE** - We can say without a doubt, Driver iQ's customer service is second to none. Our entire support team is located here at Driver iQ headquarters in Tulsa, OK and is always available by phone, chat, or email when you need support. We're also proud to say that every employee of Driver iQ is PBSA certified, something no other background screening company can claim.

**RECORD FORMAT** - We've gone to great lengths to make our MVRs easier and faster to read. I have attached a copy for your review. We have a new PRE report format coming out that I will also add.

**ACCURACY** - Driver iQ has never been sued and has no legal actions against us for providing inaccurate or incomplete information. This is NOT the case for most of our competitors. These are some of the differentiators that cause 24 or the top 25 carriers to do business with DiQ. There are more ways that we can help if given the opportunity to become a partner with your organization. We strive to be screening consultants offering up not just superior products, but over 150 years of industry expertise to help create the optimal screening process for your unique situation.
