# Alleva Billing

## Purpose-Built Revenue Cycle Management for Behavioral Health

Alleva Billing is a fully integrated Revenue Cycle Management (RCM) system designed specifically for behavioral and mental health providers. From services to payments, it streamlines the entire billing process—boosting revenue integrity and team efficiency.

> Every **billing interaction** is **automatically logged** and **time-stamped,** ensuring **full traceability** and **effortless compliance.**

### Rules-Based Billing
**Smart Encounter Transmission Table (ETT)**
Automatically configure billing rules by payer, service type, and more—ensuring clean claims from the start.

### Automated Charge Capture
**EMR-Triggered Billing**
Charges auto-generate from documented sessions, closing the loop between care and collections.

### Claim Scrubbing & Submission
**Built-in Validation Tools**
Prevent costly rejections with auto-scrubbed claims and faster clean claim rates.

### Rejection & Denial Management
**Real-Time Correction & Resubmission**
Recover faster with streamlined workflows for fixing and resubmitting denied claims.

### Patient Responsibility Management
**Co-Pay & Deductible Tracking**
Collect and apply patient payments transparently, boosting revenue and patient satisfaction.

### ERA Auto-Posting
**Insurance Payment Automation**
Auto-post ERA files to eliminate manual work and ensure accurate financial tracking.

**Simplifying** Billing **Empowering** Care
