

BLUE TEAM LABS ONLINE

Our platform is the perfect place for established cyber defenders to sharpen and showcase their skills in a gamified and competitive environment. With new investigations releasing regularly, BTLO scenarios are designed to be immersive and realistic. Paired with external training or self-study, BTLO can develop your technical capability to investigate and defend against cyberattacks and intrusions.

With labs ranging in difficulty from easy to hard, covering domains such as DFIR, reverse engineering, SecOps, and malware analysis, BTLO offers challenging content to suit all skillsets.
