

### IF YOU'RE A:

- CIO, CISO or IT leader
- Supply chain, logistics, or business ops leader
- MFT expert looking for a ground-to-cloud strategy

### WHO WANTS TO:

- Protect against ransomware
- Accelerate innovation
- Manage fixed costs and expert resources
- Improve SLA scoring

### BUT YOU:

- Need better security when sending files
- Risk non-compliance with increasing regulations
- Are losing skilled and experienced resources
- Have aging IT infrastructures

### THEN:

It's time to move your on-prem MFT to a single-tenant cloud managed by Axway.

# Upgrade your MFT to the secure cloud

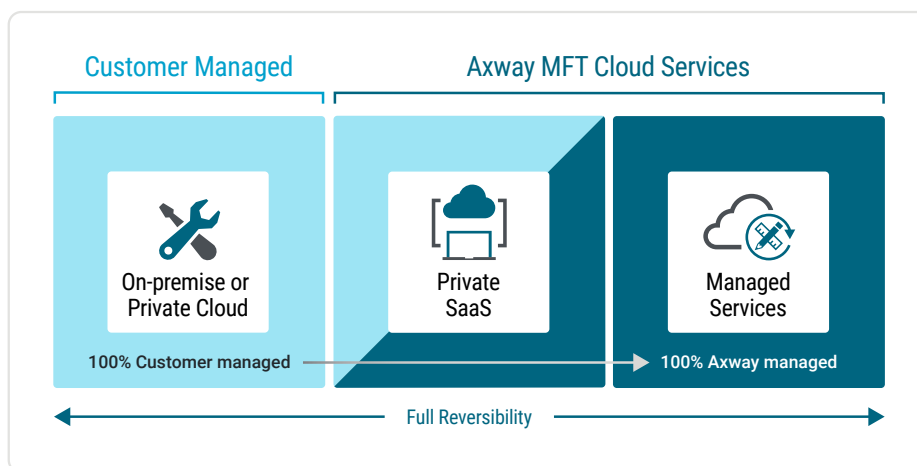

## From best-in-class MFT to best-in-cloud MFT

With cyberthreats and the mounting pressure to move growing volumes of data securely and quickly to meet increasingly demanding SLAs, large enterprises like yours are transitioning their MFT to the cloud.

As a trusted partner for MFT solutions with expertise going back two decades, Axway can lower the costs and mitigate the risks of upgrading your MFT operations to the cloud. Our subscription-based managed cloud for MFT model is a dedicated, enterprise-grade solution operated by experienced personnel capable of delivering:

- **Security.** Deploy a single-tenant MFT operations environment hosted and controlled by Axway in any region right out of the box with all security certifications.
- **Resiliency.** Gain high-performance scalable MFT operations capabilities with 99.99 percent availability.
- **Flexibility.** Subscribe to a full range of managed cloud services with low-impact migration for ground-to-cloud, cloud-to-ground, or hybrid delivered by Axway and our partner ecosystems.

### MFT operations with Axway Managed Cloud Services

Axway MFT Cloud Services provides a single-tenant environment for each customer, with tiered SLAs up to 99.99%. You can outsource all operations to Axway, or we can manage the platform for you while you maintain control and configuration of your MFT operations.

AXWAY MANAGED CLOUD SERVICES FOR MFT BENEFITS	
SECURITY	Protect your business, your brand, and your customers with an MFT cloud solution that complies with the broadest range of certifications, audibility, and security standards.
FULLY MANAGED MFT	Gain on-demand 24/7 managed services in the cloud with nearly infinite scale-out capabilities backed by an experienced team of experts.
LOWER COSTS	Transfer your capital expenses to operations expenses to lower TCO.
BETTER RISK MANAGEMENT	Reduce business and technical risk by outsourcing your MFT cloud operations.
EXPERTISE	Avoid lack of human resources and optimize allocation of the ones you have.
DATA PROTECTION	Control where your data resides geographically and safeguard it by keeping data software up to date.
TOTAL RELIABILITY	Meet SLAs with always-on MFT service availability in the cloud.
FUTURE ENABLEMENT	Be ready for cloud-native applications on the horizon with hybrid cloud-based MFT solutions that adapt to your evolving cloud adoption strategy.
SCALABILITY	Connect your expanding ecosystem of partners and control mission-critical data flows by selecting the right subscription levels for your evolving workforce.
FLEXIBILITY	Align cost and revenue with a pay-as-you-use MFT cloud subscription and operating expense to drive up ROI and ease the burden on your staff.

### Companies trust Axway Managed Cloud Services

From achieving highest levels of uptime, to adopting fully managed cloud services, to winning over customers with superior service, companies trust Axway to run their mission-critical MFT processes. Axway has never missed an SLA or experienced a data breach and we are committed to keeping it that way.

Enabling rapid setup of state-guaranteed loans and keeping the French economy innovative and competitive

Bpifrance knew that MFT Cloud Services would provide the flexibility, reliability, and fast time-to-market they need as a public investment bank. Within just three months, they put in place more than 700 secure file transfer connections with banks and achieved a 300 percent increase in data volumes.

**Enables** rapid set-up of financial payments to partners

**Empowers** French economy to meet future challenges

**Simplifies** management of information flows with scalability
