

Papermark

modern
document
sharing
infrastructure

www.papermark.io

Document
sharing and
Data Room
software of
2025 is
outdated!

This is why we
are building
Papermark.
Modern. Open
Source.

60+

Developers and
contributors who help
building Papermark.

Previously founder of
Hackerbay, backed by NFX.
Ex. Fund of Funds, ex. Intel.
Open Source enthusiast.

Marc Seitz

Co-Founder of Papermark

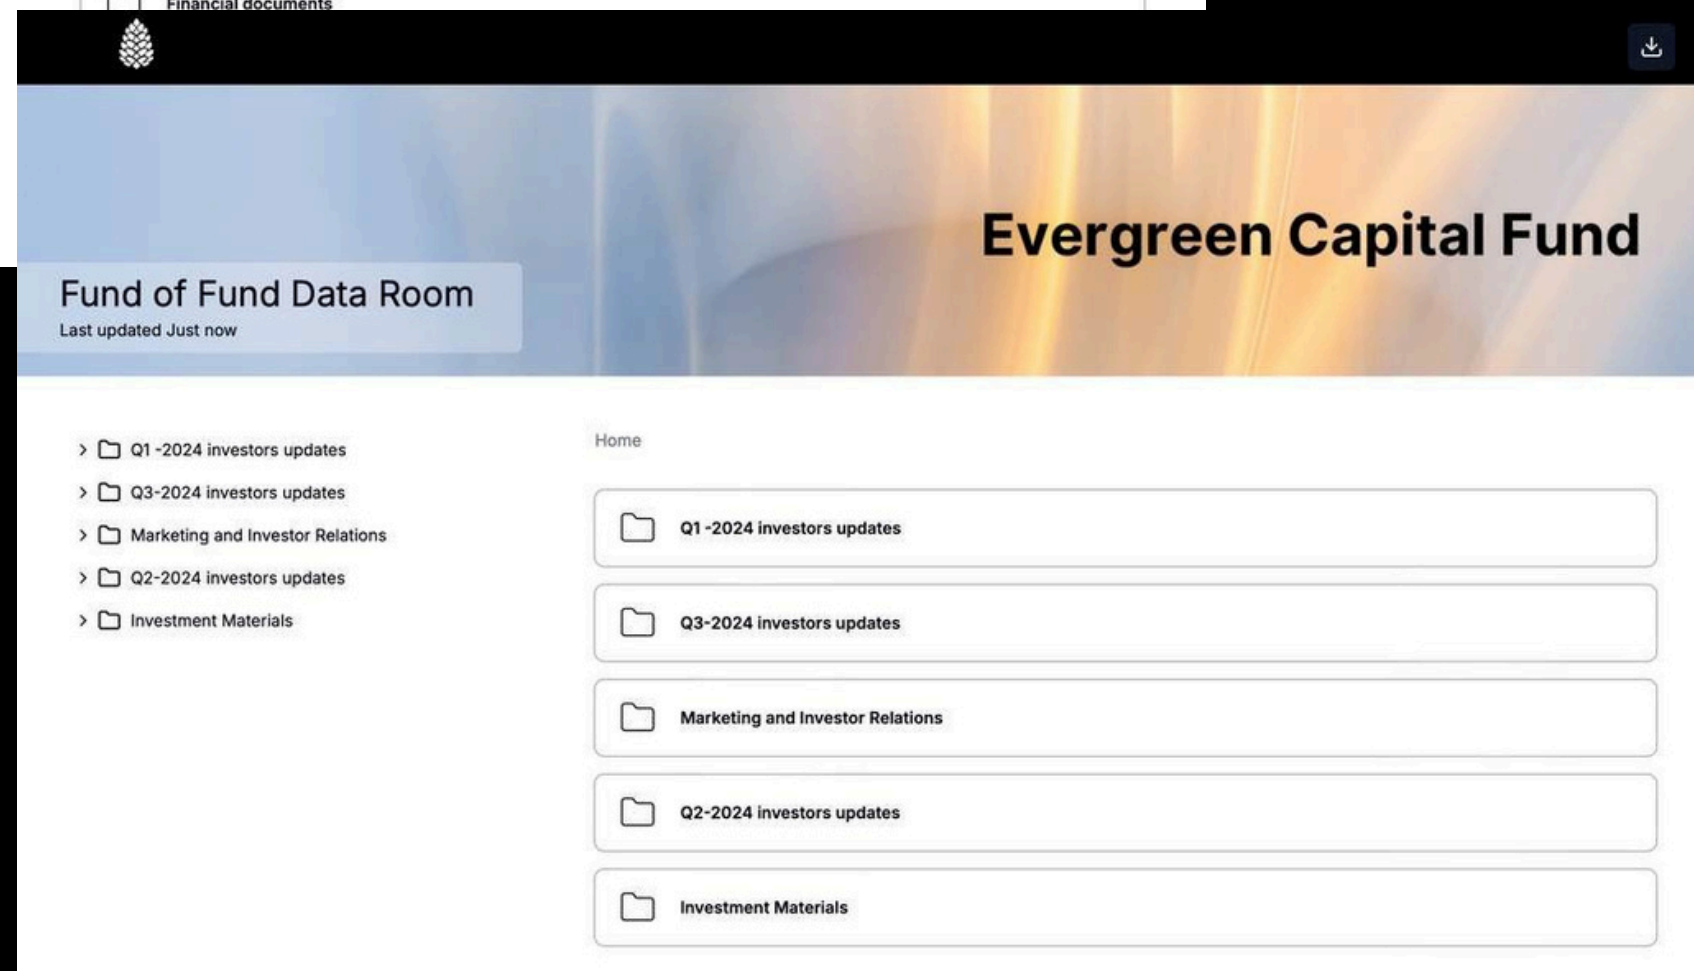

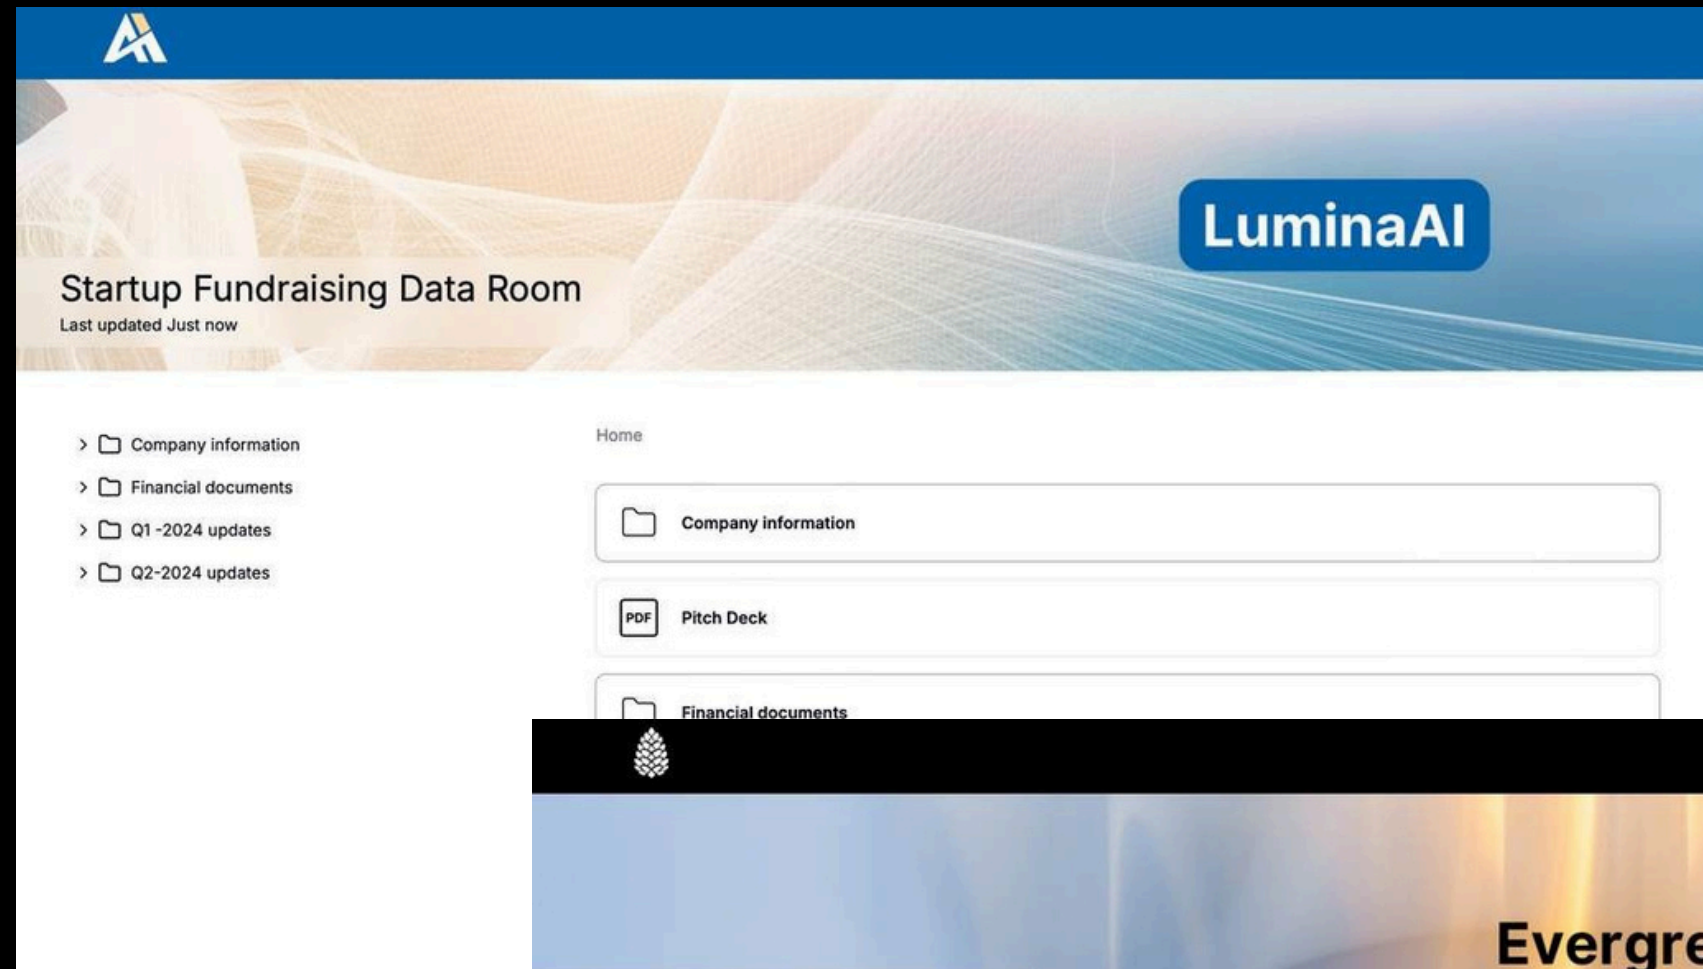

Second time founder, PhD in
technology. Self-taught
developer focused on growth
and marketing.

Iuliia Shnai

Co-Founder of Papermark

Papermark turns
your files into
shareable secure
links and give
insights into each
page of your
document

Securely share
branded **data**
rooms and
documents, set
access rights
and collaborate
inside.

White-label

It means that you can have fully customizable platform by self-hosting with us or setting up it your self.

7000+

GitHub stars from developers around the world supporting Papermark.

10x more secure

Papermark is more secure, as a source code is public and transparent. In addition, if you use self hosted version you can host all the data on your own servers.

60+

Developers and contributors who help building Papermark.
<https://github.com/mfts/papermark>

Papermark is an
Open-Source
document
sharing platform.
We provide self-
hosted version.

Ted Spare

@TedSpare

We self-host Papermark at Rubric Labs for doc-sharing. Brilliantly-simple alternative to Docsend. Features are well-executed, so I can't wait to try new stuff!

Trusted by thousands
of companies and
employees including

Papermark team listens to their users. Thanks for solving a big pain point. DocSend monopoly will end soon!

Jaski

Founder, Townhall Network

We actively use Papermark to create many links and track analytics for our branded data room!

Vatanyuta

Manager, Banyan Property

I am using Papermark daily sharing documents to LPs and viewing the pitch decks from founders.

Dominik

Partner at VC Fund

Thank You!
