

ITFM & TBM Solutions to See Further and Invest Wiser

Decipher costs and illuminate value by managing technology spend through a new lens of transparency and granularity, exposing actionable insight to maximize the impact of both today's resources and tomorrow's investments.

Understand Costs. Maximize Value.

Achieve Total Transparency to Grow Trust and Shared Accountability

Raise awareness of costs and the drivers behind them, eliminating doubt and revealing new levers to guide intelligent consumption of IT resources.

Expose and Rectify Waste to Fund Growth and Transformation

Lift the veil on sprawl, redundancy, and mismatched resources, allowing you to free up funds and redirect them toward innovation.

Manage Capacity Based on Anticipated Usage to Gain Operational Efficiency

See a clearer picture of future business demand and IT supply, enabling you to balance accordingly and deliver using the optimal resource mix.

Use New Granularity to Inform Decisions and Demonstrate Value

Get nuanced, detail-level visibility of spend to lead with facts vs. emotions, while tracing funds through key dimensional views to demonstrate value of new and existing spend—mapping critical financial data to IT services, next to consumers and applications, and finally to business capabilities.

Streamline Planning to Ensure Investments Firmly Align with Value

Accelerate budget creation, increase forecast accuracy, and enable greater diligence for multi-year planning, helping you understand how and why today's funds are being spent, and how tomorrow's investments can drive new value.

Deploy Automation to Reduce Effort, Increase Confidence, and Unlock Time to Analyze

Reclaim team resources and remove the risk of human error with automation, reducing manual effort and increasing accuracy while letting you refocus on value-add analysis and insight discovery.

A Full Suite of Solutions to Manage the Business of IT.

IT Planning

Vendor, Labor, & Project
Expense Management

Streamlined Budgeting Today Enables Stronger Diligence for Tomorrow

Centralize and integrate spend data to reduce variance and effectively manage resource supply against shifting demand, while reducing the burden of essential operations to refocus effort on value-added activities like multi-year planning and insight discovery.

Cost Transparency

App TCO, Service Cost
Modeling, & Benchmarking

Spend Less Time Defending Costs and More Time Driving Innovation

Lift the veil on true costs (including Cloud) and what they enable to inform smarter consumption, justify budgets, and harvest savings to fund growth and transformation – continually benchmarking to track and rationalize technology spend across the business.

Bill of IT

Transparent & Defensible
Showback or Chargeback

Build Trust and Expedite Dispute Resolution to Recover Costs Quickly

Cultivate accountability, monitor usage, and provide consumers with granular, fully loaded rates to show market fairness, encourage prompt payment, and expose levers for optimization.

“The software application itself is amazing and meets all of our needs, but it is truly the people behind the product that can’t be beat.”

Nick Kaliszewski, Director of IT Financial Management, Erie Insurance

Elevate IT. Ignite Possibility.

At Nicus, we empower organizations to realize their full potential by elevating IT. We're passionate advocates, providing financial management solutions that expand what's possible. We believe what we do with technology defines what we can do in the world.
