

# AI Conversations That Convert at Every Touchpoint

With the power of behavioral AI, Rep AI connects with disengaged visitors at the perfect moment, delivering personalized conversations that drive conversions, resolve inquiries instantly, and provide valuable insights to fuel continuous growth.

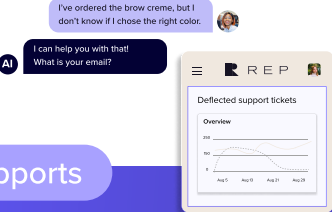

Rep’s platform provides 3 core layers to help any merchant unlock untapped revenue and growth:

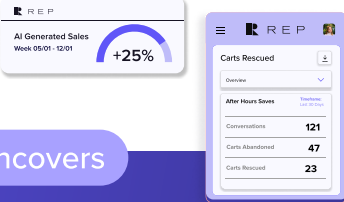

**Converts**

Engages the right shoppers at the right time, using behavioral insights to start meaningful conversations and guide them effortlessly to purchase.

**Supports**

Handles the routine inquiries, product questions and order tasks, enabling your team to focus on delivering exceptional service and solving complex issues.

**Uncovers**

Tracks and analyses shopper behavior to surface insights that help you optimize the your store, the customer journey and uncover growth opportunities. (edited)

Overview	Feedback
After Hours Saves	Feedback

- Your Favorite Integrations

“

Rep raised conversion rates overall by +22%, answered 92% of customer conversations. I would describe Rep AI as an extension of every part of the customer experience, from support to sales to education

**Harney & Sons**

“

Rep is able to answer any product-related questions and recommend products that are best suited for the customer. Not to forget, the conversion rate has increased exponentially.

**Underoutfit**

“

With Rep AI we've been able to have a super high conversion, literally in the 30-35 percent range for abandoned carts.

**Snow Teeth Whitening**
