SINCH Mailgun

MAILGUN FOR ENTERPRISE

Empowering brands with flexible, scalable, and reliable email APIs

Build an exceptional email communication experience and improve ROI with the best global infrastructure and integrated suite of applications in the industry.

World-class cloud based infrastructure providing reliability and scalability

We understand that email is never a one size fits all solution, and different enterprises have varying needs that must be met. Sinch Mailgun is here to provide your large-scale business with the tools and services needed to equip your email program for success.

Power with scale
Guarantee email will arrive on time and land in the inbox. Send billions of emails a month with the provider that puts your use case, deliverability, and security standards first.

Reach with confidence
Commitment to deliver your desired level of performance without fail – every day. Our platform stability achieves 99.99% server uptime while protecting your business and customer data with industry-leading compliance.

Transform with confidence
Craft and implement a tailored strategy for your large-scale email program with guidance and support from our team of experts. From technical guidance to strategic direction, we partner with you for long-term success.

> For us, at the volume we're sending — every fraction of a percentage means a potential customer, and as a community of designers, it's our job to create meaningful touchpoints. High deliverability ensures that our messages and our reach are seen; any improvement in our email program has a huge effect on our business.
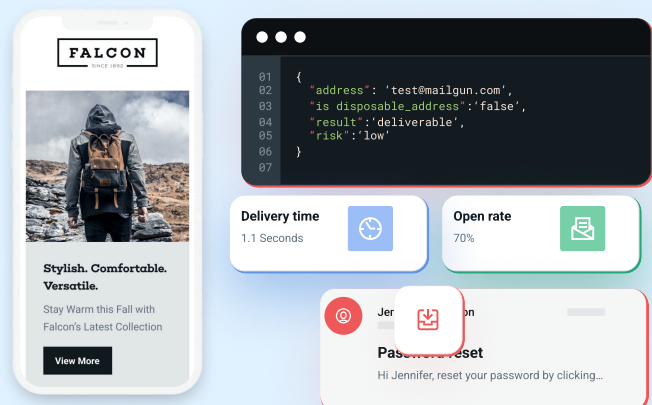

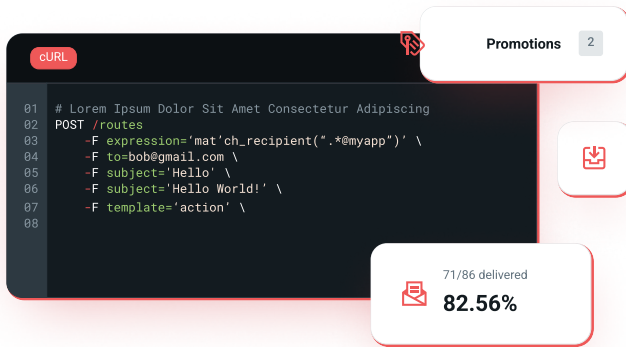

Michael Sacca
Vice President of Product at Dribbble

Don't just send emails, deliver them

As the only email sending solution with a full deliverability suite built on our platform, we have everything you need to maximize inbox placement, boost engagement, and proactively detect deliverability threats. Experience next level guidance provided by our Technical Account Managers (TAMs), with response time SLAs ensuring that regardless of contract size, your enterprise business can always expect a swift, helpful response.
