

# Prevailing Wage

labor tracking and job costing for government contract work

Knowify takes the stress out of managing Davis-Bacon work. We make it easy to track your employees' job classifications and prevailing wage rates right from the job site, so you can master job costing and certified payroll reporting.

## ⚡ Real-time job costing for prevailing wage labor

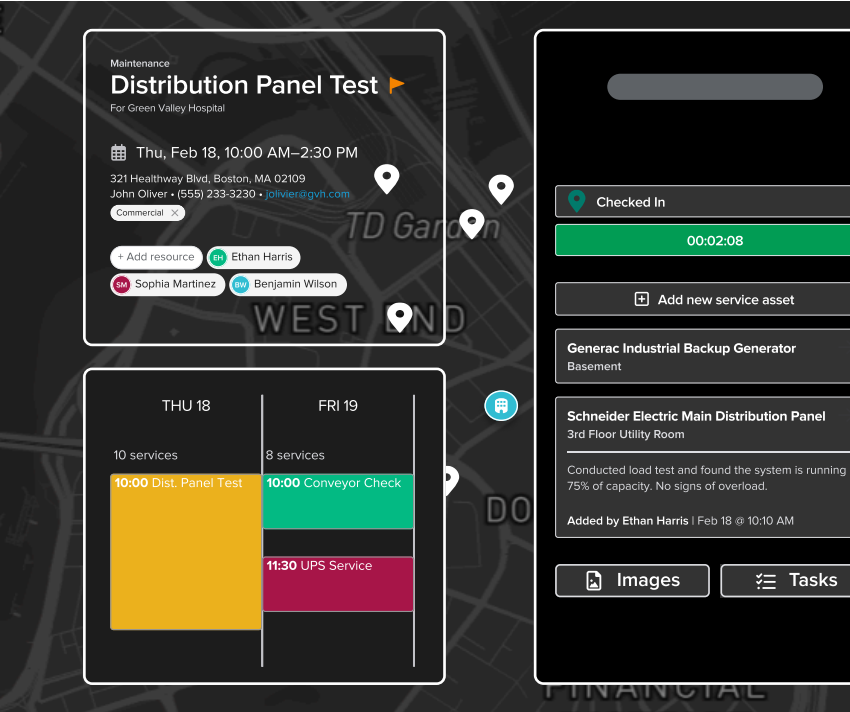

Build accurate budgets based on the true cost of labor — including hourly wages and fringe benefits — and track job costs in real-time without waiting for payroll.

## \$ Simplified labor tracking from the job site

Make it easy for your employees to log job classifications when clocking in and out, and instantly sync details back to the office.

## 📄 Certified payroll reporting made easy

Generate a pre-filled certified payroll report with labor time, job roles, and pay rates. Add your payroll data to complete the report.

### PREVAILING WAGE RATE TABLES
