ACCUR8 - REVOLUTIONIZING LOGISTICS THROUGH TECHNOLOGY

Welcome to the forefront of innovation in logistics and transportation management. At **Accur8**, we blend expertise with cutting-edge technology to redefine how businesses navigate the complexities of the modern supply chain.

OUR VISION

In 2019, a group of passionate logistics professionals and IT software developers came together with a shared vision: **to revolutionize transportation management systems (TMS)**. We recognized the shortcomings of outdated solutions and saw the potential for something greater – a system that not only adapts to the digital landscape but thrives within it.

BRIDGING THE GAP WITH ACCUR8

The COVID-19 pandemic accelerated the shift to remote work, presenting unprecedented challenges for the logistics sector. Traditional systems struggled to meet the needs of a dispersed workforce, highlighting the necessity for a **cloud-based solution**.

Enter **Accur8 TMS** – a platform designed to seamlessly connect multiple offices and divisions, including globally distributed staffing agencies, under one unified platform.

CONTROL, SYNC, & BEYOND

Our greatest challenge was replicating the office environment in a digital space. How do we maintain management control and ensure **team synchronization across continents** and time zones? The answer lies within Accur8 TMS. Beyond facilitating remote work, our platform enhances **operational efficiency, fosters collaboration, and streamlines communication** like never before.

OUR EVOLUTION

What began as a team of ambitious individuals has grown into a **leading provider of cloud-based TMS solutions**. Our commitment to continuous improvement drives us forward, ensuring Accur8 TMS remains at the forefront of technological advancement.

Today, we offer a modern, intuitive solution that keeps **everyone in sync** and exceeds the capabilities of traditional installed software.

ELEVATING BROKERAGE EFFICIENCY AND RELIABILITY

Our Brokerage Management module is designed to elevate the efficiency and reliability of freight brokerage operations. Through deep integrations and internal functionalities, this module offers **unparalleled insights into carrier performance**, ensuring every load is matched with the most suitable and reliable carriers.

With enhanced carrier validation and agreements, including direct integration with MyCarrierPackets by Assure Assist, Inc, and integrated carrier performance data, brokers can make informed decisions swiftly and seamlessly within our platform.

STREAMLINED OPERATIONS, COMPREHENSIVE FINANCIAL OVERSIGHT

From sophisticated load matching and **real-time tracking** to transparent commission allocation and integrated accounting, our module provides a comprehensive solution for optimized brokerage operations.

Customer invoicing, carrier payments, and payroll management are seamlessly integrated, offering complete financial oversight **within a unified platform**. By empowering brokerages with advanced financial tools and operational efficiencies, our Brokerage Management module sets the standard for excellence in the logistics and transportation industry, supporting growth and success in today's competitive landscape.

REVOLUTIONIZE YOUR FREIGHT CARRIER OPERATIONS

Our platform offers an **integrated suite of modules** designed to meet **every aspect of carrier needs**. From **advanced load** management to **AI-powered data entry** and seamless accounting integration, our tools ensure **efficiency and reliability**.

With **asset and driver tracking**, **fleet management**, and **seamless communication capabilities**, we provide the foundation for operational excellence. By unifying operations under one roof, our platform empowers carriers to stay ahead in a rapidly evolving industry landscape.

CONTINUOUS INNOVATION FOR LASTING SUCCESS

Our commitment to continuous innovation means your business stays at the forefront of industry advancements. With **regular updates** and **new integrations**, our platform evolves alongside your needs. Whether you're a freight carrier seeking optimization or a brokerage expanding your services, our platform offers a dynamic solution tailored to your unique requirements.

EXPERIENCE THE FUTURE WITH ACCUR8
