

Accelerate Cash Flow. Reduce Your DSO.

Eliminating Overdue Receivables with Automation

49% OF INVOICES ARE PAID LATE - BUT WHY?

Our team of collections experts understand the hassle and stress of chasing invoices all too well. Over the years, we've collected billions of dollars from clients across 5 continents.

That's why we created Gaviti, an automated A/R collections platform that streamlines the receivable collections process. Gaviti intelligently automates your client engagement and provides visualized insights on your accounts receivable value chain.

With Gaviti, You Can Expect

- 60% reduction in Receivables at Risk (RAR)
- Complete elimination of manual tasks
- 60% decrease in overdue invoices
- 100% affordability

Key Enablers

- Quickly integrates with any ERP
- Real-time collections team dashboards
- Fully customizable fields with zero limitations
- Scales client outreach and reduces effort

Gaviti's automated receivables collection solution eliminates manual collection tasks and improves customer experience resulting in accelerated cash flow for your company, and ensures you send the right message to the right persona at the right time.

Automate Your A/R Collections with Gaviti
