

Day Off Leave Tracker App

Day Off

<https://day-off.app/>

What is Day Off?

Day Off is a Mobile & Web based app dedicated for companies of any size to manage the leaves and vacations of the employees.

The app connects employees with managers regarding the leaves management where it eliminates the need for leaves paper forms or emails and makes leaves and vacations easily managed in one place.

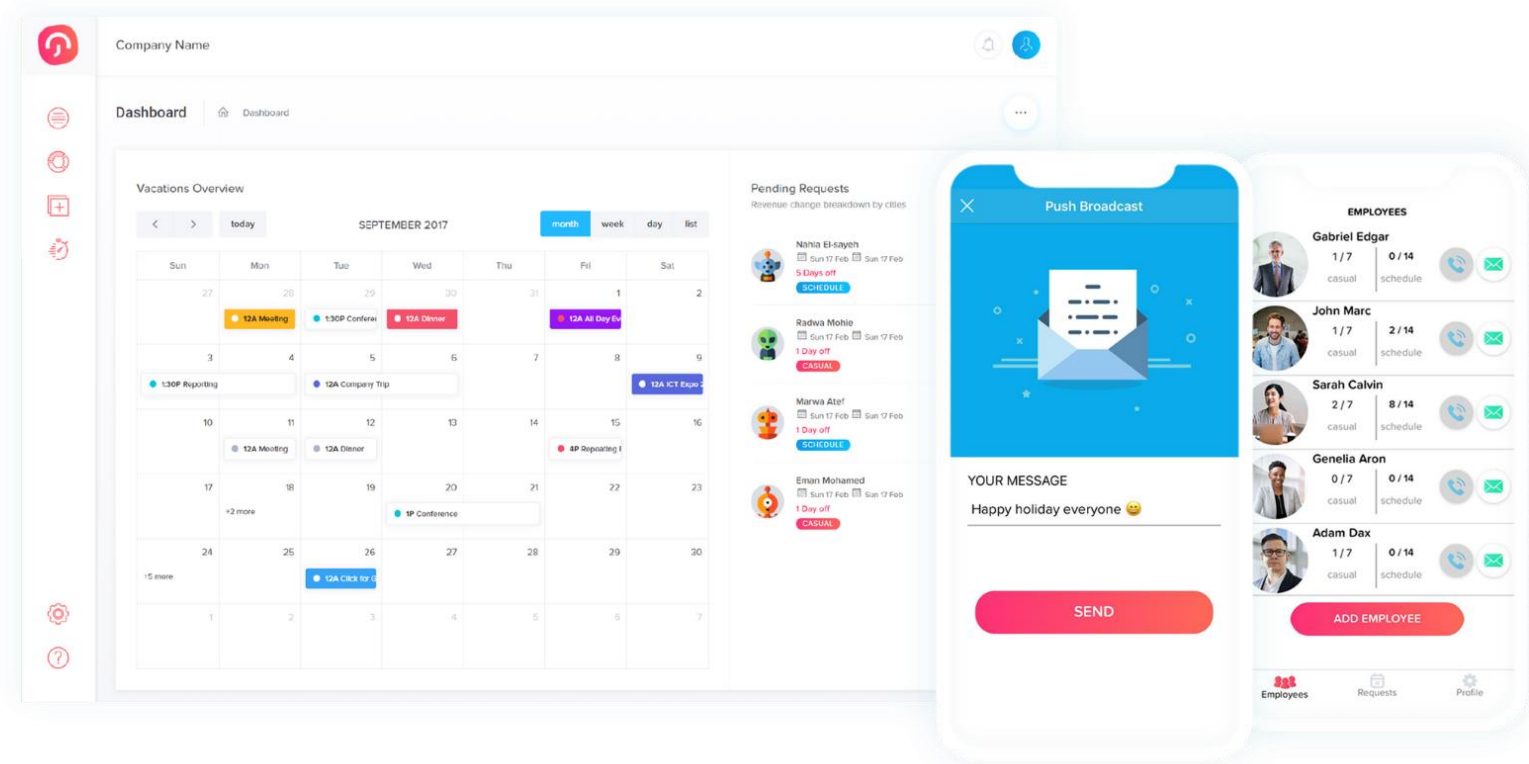

Day Off Modules

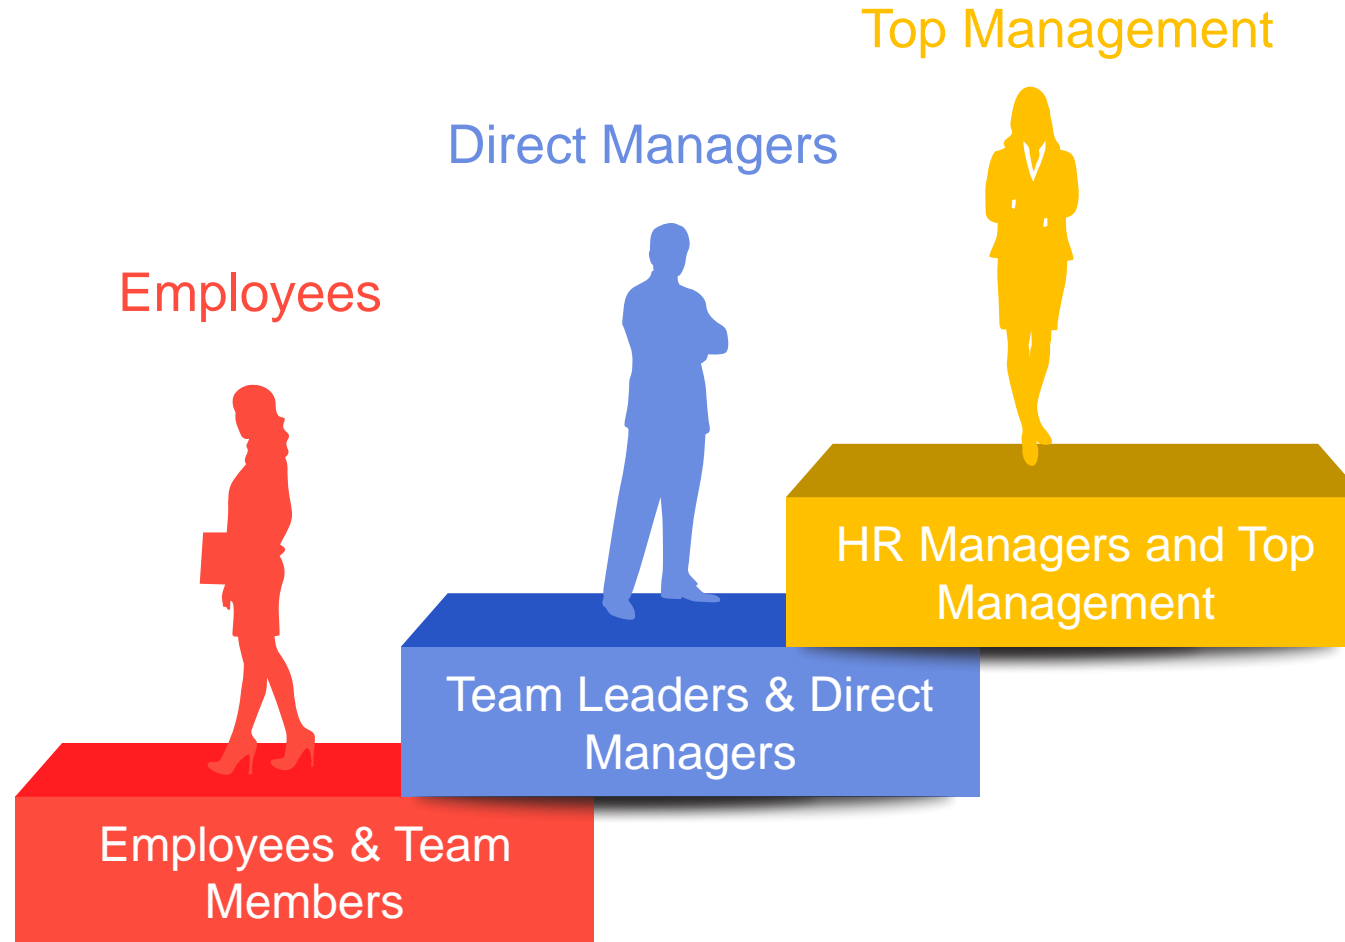

Day Off app is available in the following versions:

- Mobile App (Android & iOS)
- Web Dashboard

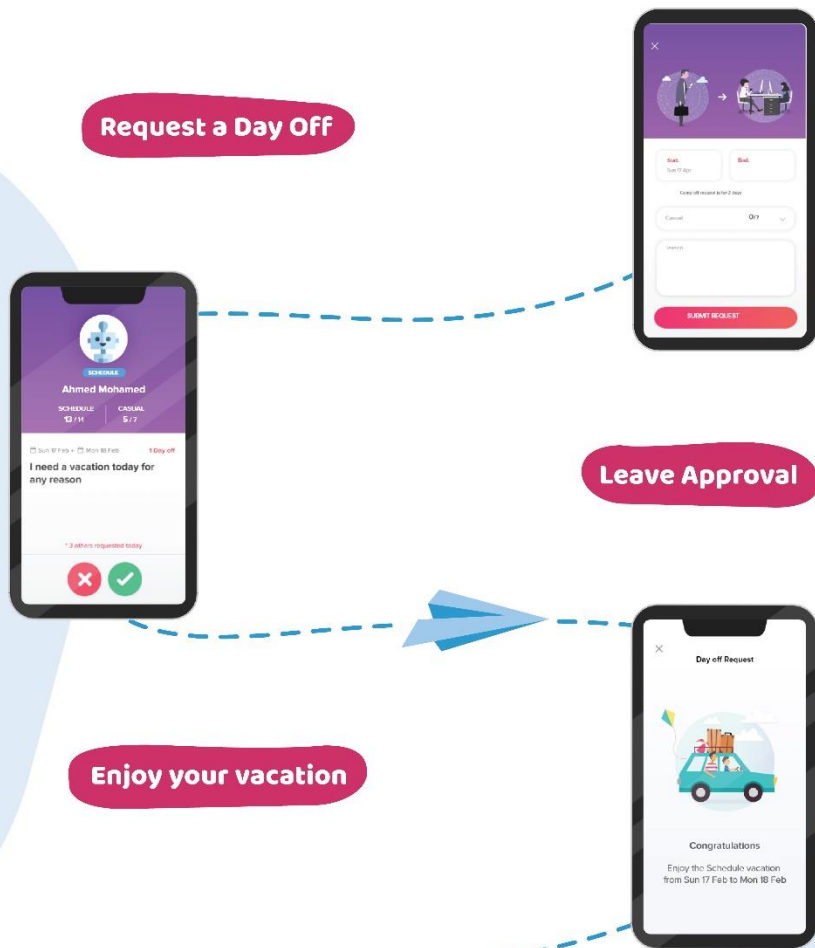

Both the managers and employees interfaces are available in the mobile and web versions of the app.

Who Can Use Day Off?

It's Easier than You Imagine

Why Day Off?

Free forever

Access anywhere

Get control

How it Works?

A team member will just need to choose leave type, the start and end dates of the leave and the leave reason, then submit the request

Leave requests will get approved by the direct managers and the HR managers

Team members can now enjoy their vacations after getting notified with the vacation approval

Company Key Features

Set company Settings, working days,
leave types and balances

01

Invite employees and set managers
