

# What is WebWork Time Tracker?

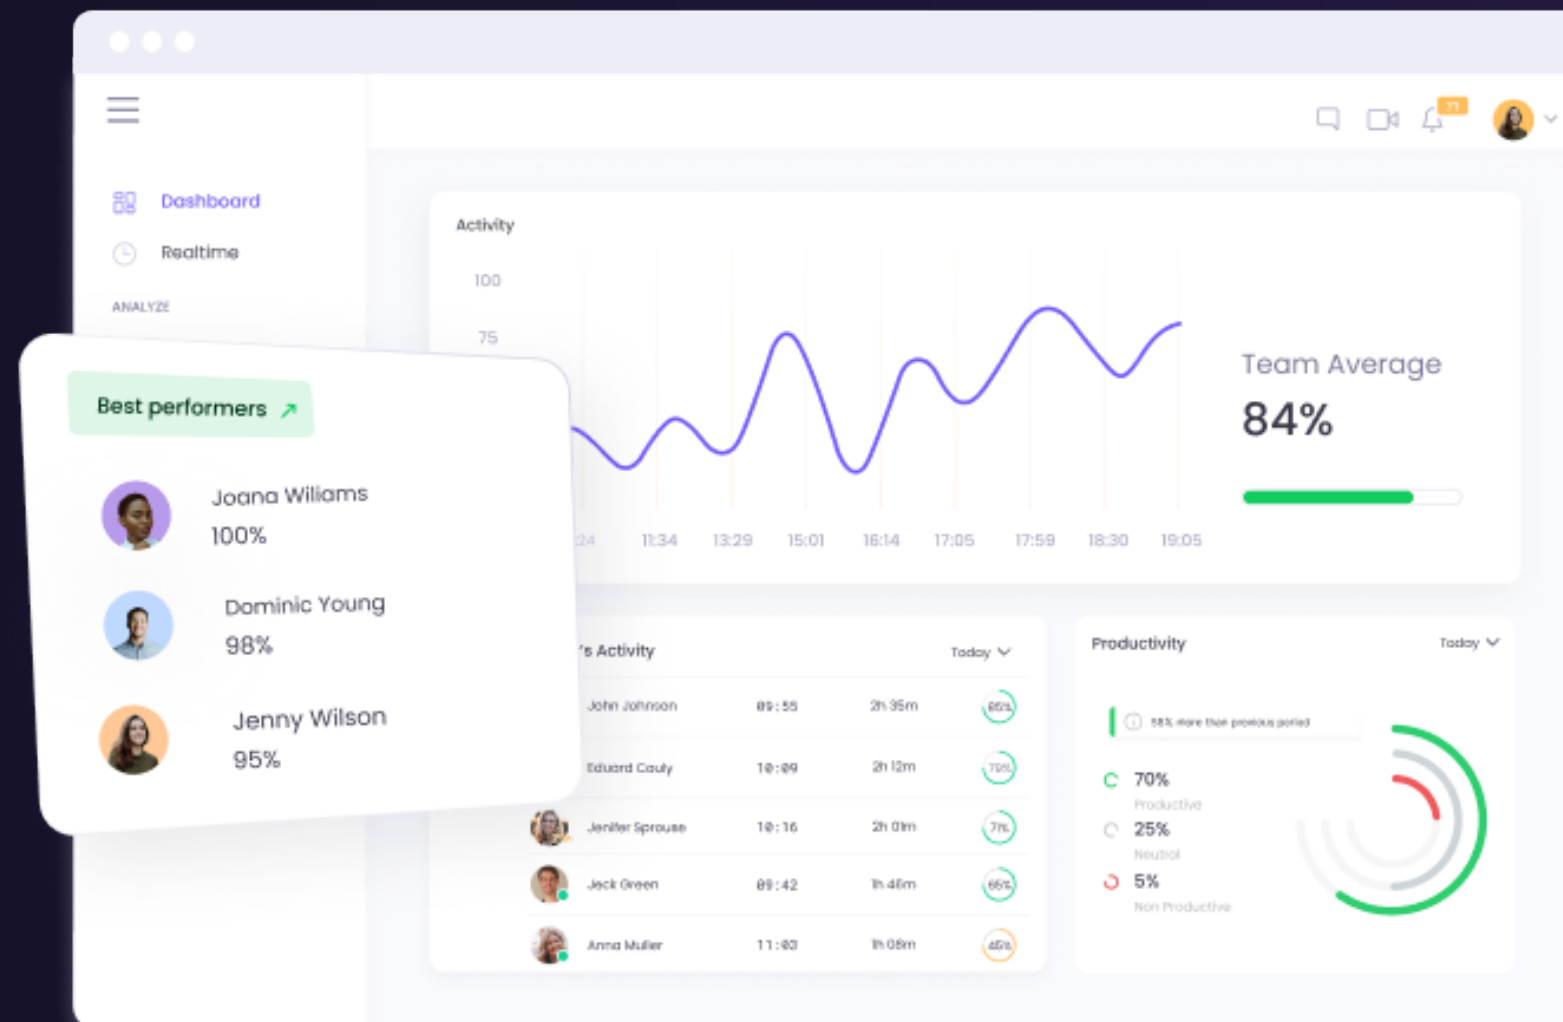

WebWork is an AI-powered platform for time tracking, smart monitoring, and workforce management — from clock-in to payroll, fully automated.

It helps you:

- Track work hours accurately
- Get actionable insights
- Manage time off & shifts with ease
- Simplify payroll & payments
- Automate workflows with AI

# Improved Productivity

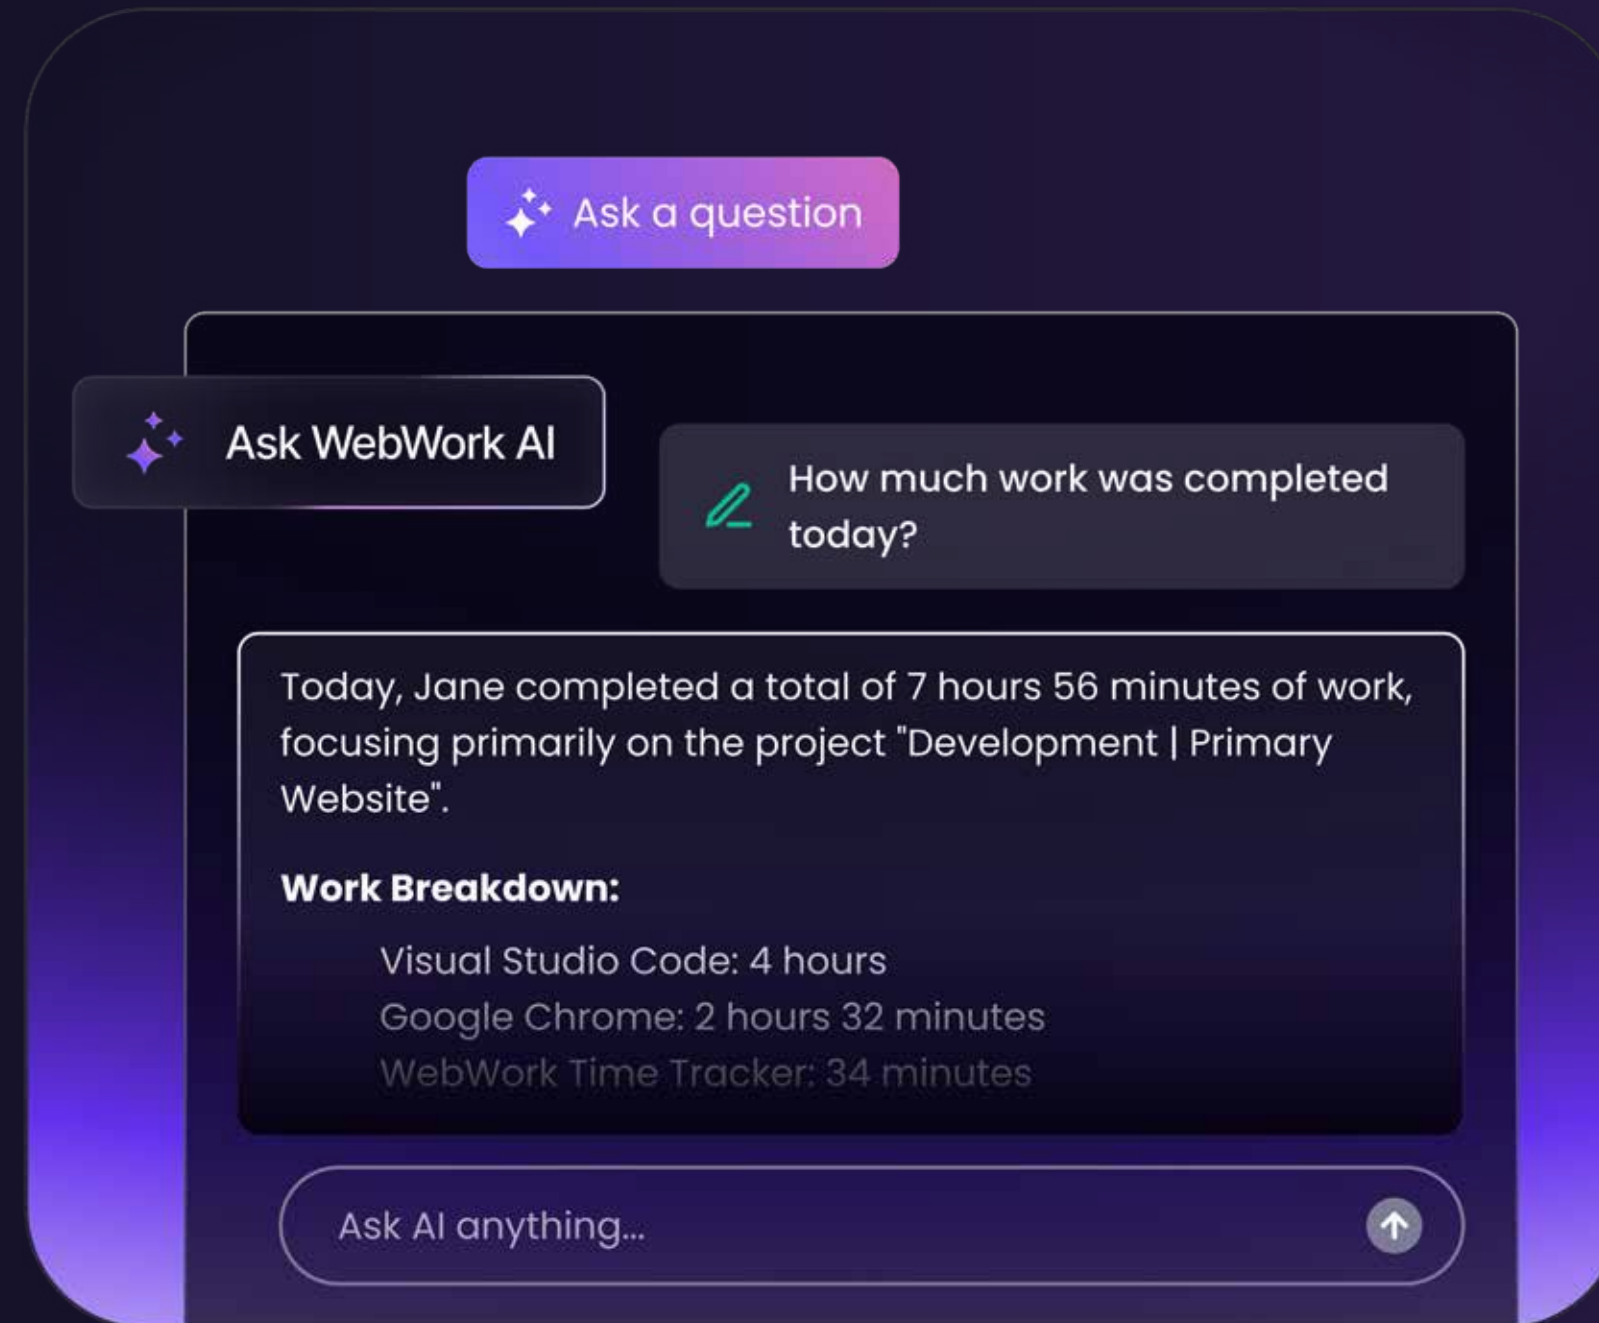

Productivity is the drive behind WebWork. All its features are designed to increase productivity and improve performance, especially in remote teams.

How?

By giving you a clear, detailed view of the work process, combined with smart productivity reminders and insightful reports that help keep teams focused and efficient.

# AI-Powered Insights & Automation

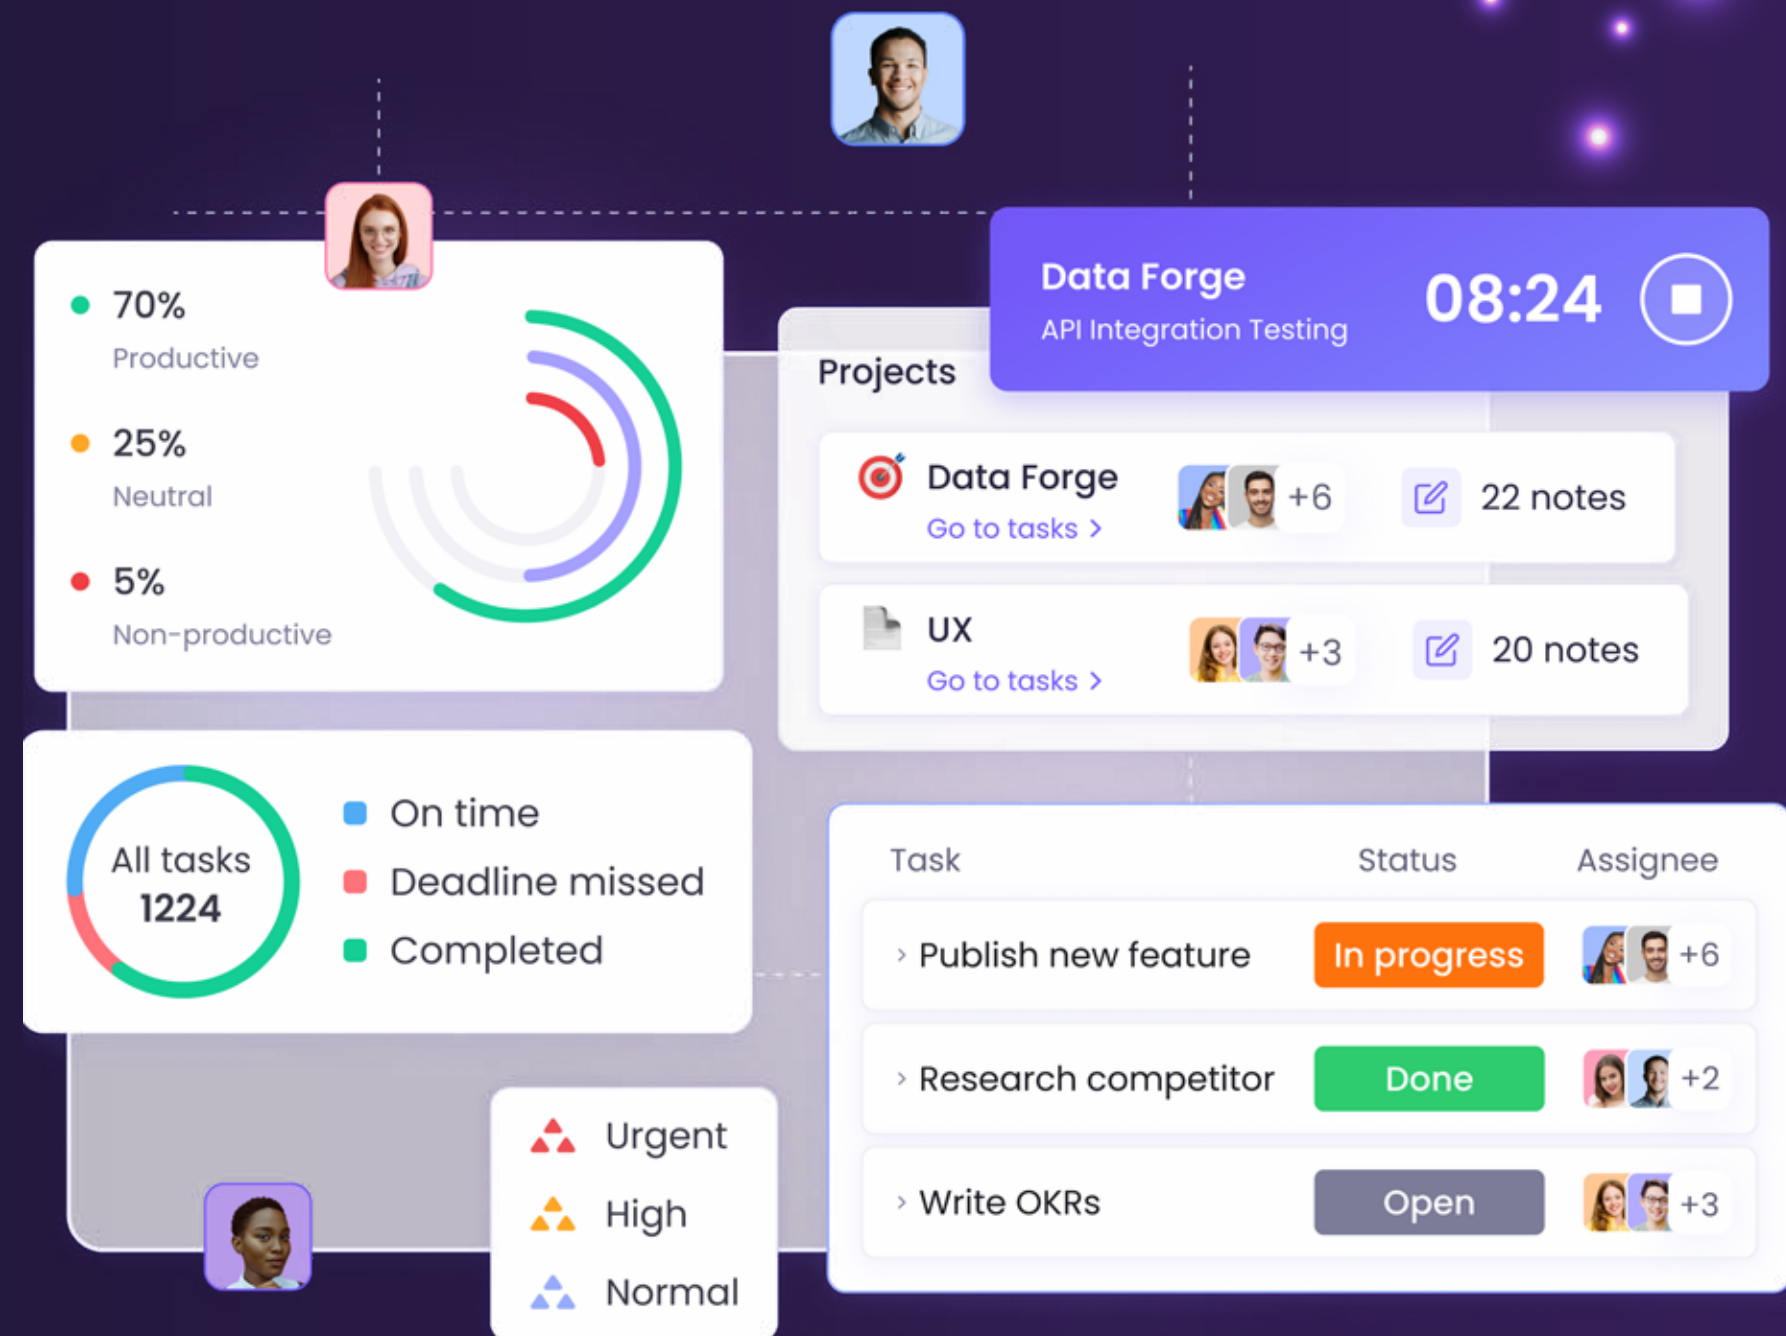

Ask WebWork's 100% agentic AI anything about your workspace and tracked data. It can create tasks, projects, holidays, and more, set events for analysis and periodic reviews, and handle the rest—keeping you informed and your team on track with zero manual effort.

# Effortless Team & Project Management

Manage projects and teams with full transparency and control. Create tasks, assign them to team members, set deadlines, and monitor progress in real time. Set estimated hours and budgets, then compare them to actual tracked data to stay on schedule and within budget.

Everything is centralized—making it easier to manage workloads, improve collaboration, and ensure projects are delivered efficiently.

# Automated Billing & Payroll

WebWork automates billing and payroll, connecting tracked hours directly to invoices and salary payments. Payments can be made directly in WebWork using cards, PayPal, and more. For added flexibility, WebWork integrates seamlessly with payroll platforms like Deel and Remote to streamline payroll management.

Managing billable hours and payments has never been easier. Focus on growth, not paperwork.

# Enhanced Collaboration

WebWork simplifies remote collaboration by bringing your team closer—no matter where they are.

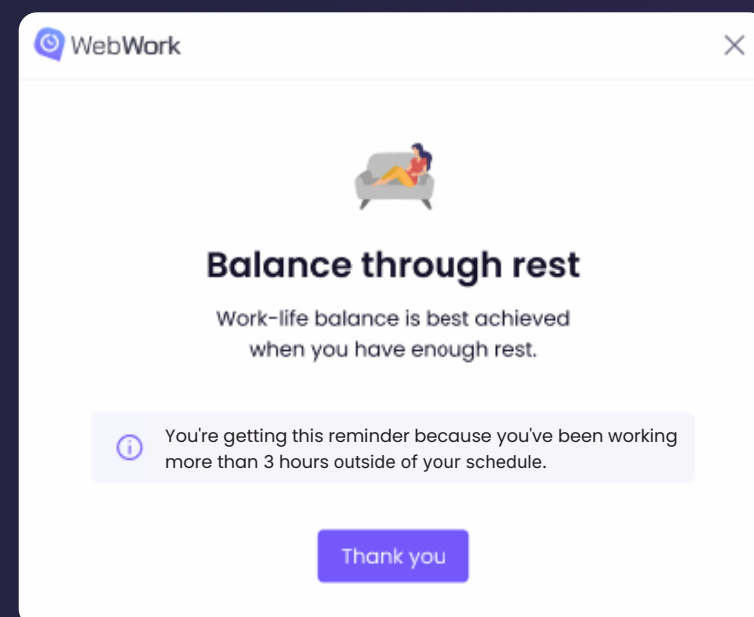

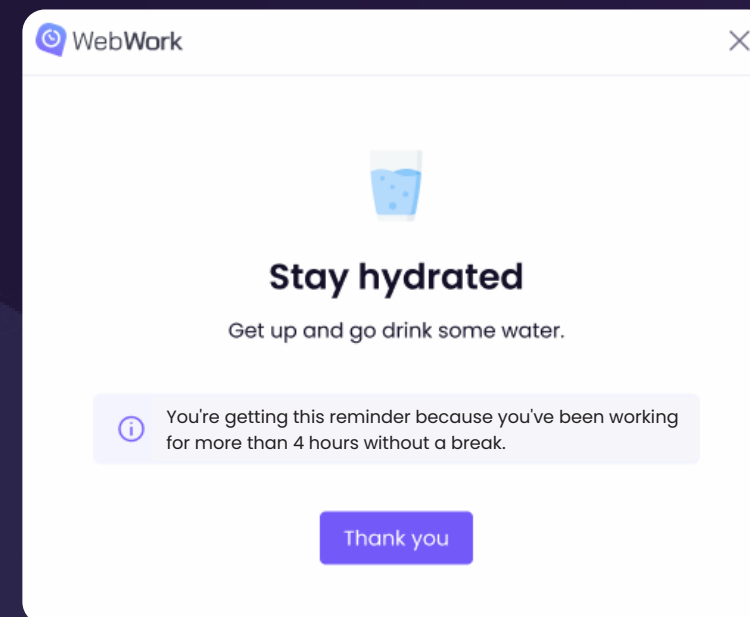

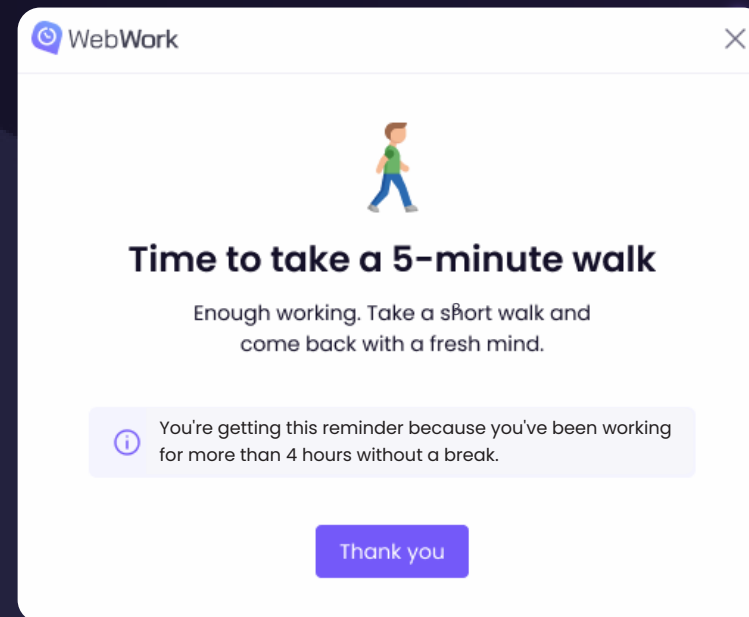

With built-in Team Chat and Video Calls, teams can communicate, share updates, and stay aligned without switching tools. You can also manage leaves and holidays directly within the platform, making it easier to coordinate schedules and keep operations running smoothly.

WebWork creates a connected workspace where collaboration feels natural, even across distances.

# Employee Wellness

Happy, healthy employees are more engaged and productive. WebWork promotes work-life balance with customizable reminders that help employees avoid overworking or procrastinating.

Employees can set personal goals, while managers gain insights through the Work-Life Balance Report and Burnout Risk feature—making it easier to support well-being and maintain a healthy, productive work environment.
