Improve Supply Chain Resilience

Continuous Monitoring of Vendor Ecosystem

RiskProfiler AI algorithms provide real-time surveillance of third-party vendors, offering immediate insights into their cybersecurity posture.

Automated Vendor Questionnaires

RiskProfiler automates the distribution, tracking, and analysis of security questionnaires—streamlining the due diligence process and reducing manual effort.

Vendor Risk Categorization

Enables organizations to segment vendors based on risk levels, industry, geography, or business criticality—allowing tailored monitoring & risk allocation.

Precise Compliance Mapping

RiskProfiler monitors vendors' adherence to specific regulations and industry standards, helping you avoid legal and financial penalties.

Security Ratings & Scorecards

Generates dynamic, A-F security ratings for each vendor across multiple risk categories enabling clear, ongoing performance tracking.

Proactive Incident Reporting

Receive automated incident reports and alerts on vendor breaches or compliance violations, allowing them to act proactively before escalations.

A Platform Ensuring Holistic Supply Chain Security

RiskProfiler revolutionizes Third-Party Risk Management with advanced automation and expertly crafted workflows. Our intuitive, user-focused platform streamlines risk assessments, enabling organizations to protect their operations from supply chain risks while maximizing efficiency.

“

RiskProfiler has brought structure and clarity to how we manage third-party risk. Instead of juggling spreadsheets and scattered tools, we now have one platform to continuously monitor vendors and prioritize issues. It's become a key part of our risk governance strategy.”

— Edward M. Hinchey, Sr. Director Of IT & Security, Fisher Brothers
