AI summary of insights		✕

Insight similarity		✕
AI suggestions for data destinations		✕
Alerts and reports		
Alerts about policy violations	✕	✕ New alert system
Alerts related to insights	Coming Soon	✕
Maintenance-related service alerts	In Safetica Maintenance Console	Coming Later
Summarizing informative alerts	In Safetica Maintenance Console	Coming Later
Advanced schedule reports with customized layout	✕	✕
Security Audit Report	✕	✕
Record exporting	✕	✕
Maintenance		
Companion Safetica Maintenance Console for advanced maintenance use cases	In Safetica Maintenance Console	
Safetica server update	✕	✕
Safetica server settings	In Safetica Maintenance Console	Not Needed
Access rights and permissions	✕	✕
Basic Safetica Client deactivation	✕	✕
Advanced Safetica Client deactivation for individual components	In Safetica Maintenance Console	Not Needed
Advanced Safetica Client management (process and folder hiding, user notification controls, record sending controls, etc.)	In Safetica Maintenance Console	Coming Later
Basic troubleshooting log collection	✕	✕
View license details	✕	✕
Change language and date/time format displayed in Safetica console	✕	✕

Advanced integration settings (Application and system integration, trusted servers, external device exceptions)	✕	✕
Data retention		
Attaching and managing database archives	✕	Not Needed
Creating and managing new database archives	✕	Not Needed
Data record retention on cloud	✕ Depends on server and database specifications	✕ 6-18 months depending on license
Integrations		
Entra ID Integration	✕	✕
Active Directory Integration	In Safetica Maintenance Console	We support Entra ID integration. If you cannot use Entra ID, you must pair your local AD with Entra ID.
SIEM Integration	In Safetica Maintenance Console	Coming Soon
Extended reporting: Data analysis tools integration (PowerBI, Tableau, etc.)	In Safetica Maintenance Console	Coming Later

Why Choose Cloud-hosted Safetica

- Instant access to the latest features and cutting-edge technology
- No maintenance, upgrades, or IT overhead
- No added costs, resources, or management required
- No concerns about data retention or database upkeep
- Early access to beta features and innovations
