

**IntelliJ IDEA**  
JETBRAINS IDE

# The Leading IDE for Professional Development in Java and Kotlin

## Integrated AI tools

Both AI Assistant and Junie are available under one license with a free tier and trial. For daily Junie use, AI Ultimate is recommended.

### Junie

#### A smart coding agent

Junie handles tasks autonomously, keeping developers in control of their entire workflow. Developers describe what needs to be done, and Junie makes it happen. Fully integrated into JetBrains IDEs, it plans, writes, tests, and documents code across files, significantly increasing end-to-end productivity.

**Best for:** Accelerating larger, multi-step tasks like feature builds, migrations, or architecture updates.

### AI Assistant

#### Your everyday coding boost

AI Assistant integrates seamlessly into JetBrains IDEs, helping developers write, improve, and understand code. From smart code completion to refactoring and test generation, it provides fast, focused support – all while keeping developers in control.

**Best for:** Boosting day-to-day developer efficiency without changing existing workflows.
