Programs**

With 20 years of experience, Bentek delivers modern benefits administration for organizations with layered plan designs, legacy systems, and hybrid workforces. Originally built for the public sector, Bentek is trusted by complex private sector entities seeking greater clarity, compliance, and control. We maintain a 98.5% client retention rate and 100% implementation success, while upholding the highest standards through SOC 2 compliance, an A+ HIPAA rating, and GovRAMP Progressing Snapshot certification, a level of security rarely matched in the private sector.

Case Studies: Complexity Made Simple

Consistency in a Rapidly Changing Environment

Kane Financial, a private holding company with nearly a dozen nursing and rehabilitation facilities across Florida and the Northeast, operates in an industry defined by constant change. From shifting regulations to operational updates, their teams face ongoing challenges that demand real-time adaptability. Bentek delivers the consistency they need, enabling back-office teams to make live updates without disruption. The system is intuitive for both administrators and employees, and it continues to exceed expectations by providing the functionality and reliability required to navigate a complex, fast-paced environment with confidence.

"We enjoy working with the team at Bentek and our Client Service Manager can't be beat. She is responsive and understanding and she ensures that we get resolution quickly. The communication from the team is remarkable and for that we are quite thankful and pleased"

- Cindy Delmonte, Director of Employee Benefits and Payroll, Kane Financial

One System, 60 Agencies, Zero Discrepancies

The U.S. Virgin Islands government faced thousands of eligibility discrepancies across 60 agencies — including Frederiksted Health Care, a non-profit Federally Qualified Health Center. These discrepancies disrupted benefits for over 27,000 members. Bentek led a full-system audit, integrating payroll and retirement systems, and implemented automated eligibility checks. In just four months, the territory achieved accurate, real-time eligibility, clean billing, and a reliable system of record for the first time in over a decade.

"We are thankful to the management and staff at Bentek for your professionalism, attention to detail, and steadfast commitment."

- Valerie P Daley Chief, GHI, U.S. Virgin Islands
