

Breadcrumb

Jobsite safety and visibility.

Built for the field.

A bit about us.

Breadcrumb is a modern jobsite safety and compliance platform built for the construction industry in the United States and operating globally across the United Kingdom, Ireland, Australia, and New Zealand.

With a focus on streamlining vital safety documentation and increasing visibility of worker sign-in and attendance, we empower jobsite teams to manage projects safely and efficiently.

■ 1000+

General contractors globally.

■ 1M+

Worker profiles on the platform.

■ 120K+

Subcontractors set up.

■ 80K+

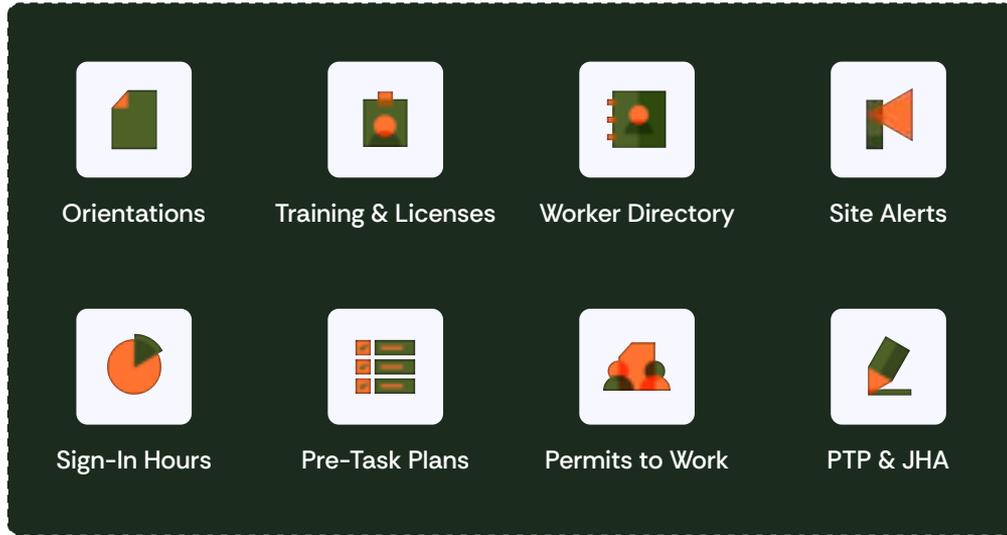

Customer projects.

◆ Integration

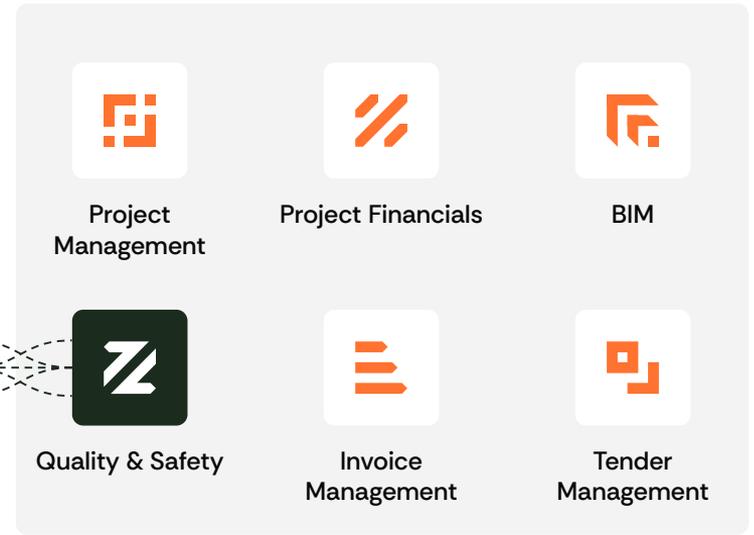

All the tools, all integrated.

Our integration with Procore unites your site safety with your project management platform – no extra admin and no time lost switching between different systems.

Breadcrumbs

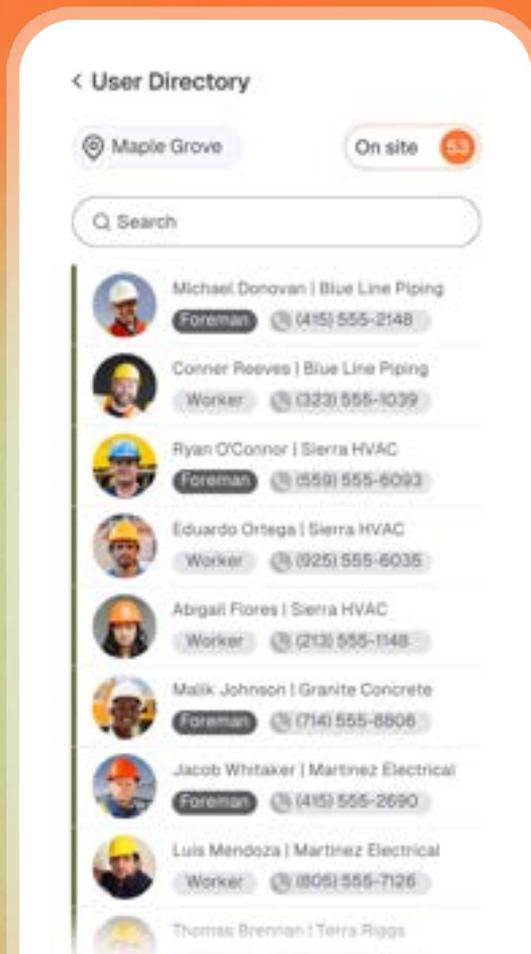

PROCORE

A site directory in your pocket.

Once their orientations are completed, workers can get on the tools, and you can see who is on your site.

From here, you can see worker details and contact information. You also have the ability to send out evacuation notices or site alerts to all workers on site.

Orientations that keep you compliant.

OSHA compliance.

Ensure every worker is trained and documented on mandatory safety plans, in accordance with OSHA Injury and Illness Prevention Program (IIPP).

Deploy critical safety data.

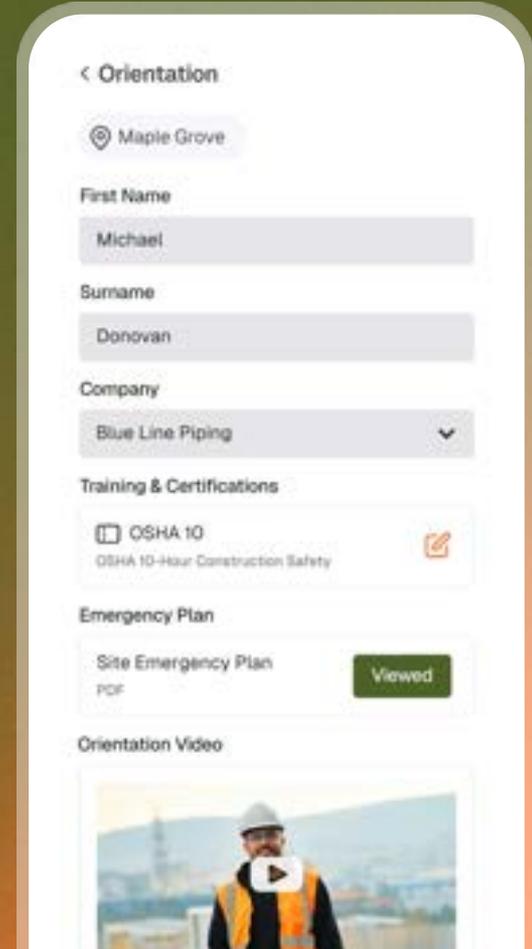

Deliver SSSP, Emergency Plans, and Contact Lists to the entire workforce.

Digital audit trails.

Capture automatic date and time-stamped signatures and submission records.

Enhance engagement with video.

Embed videos directly into orientations for maximum retention.

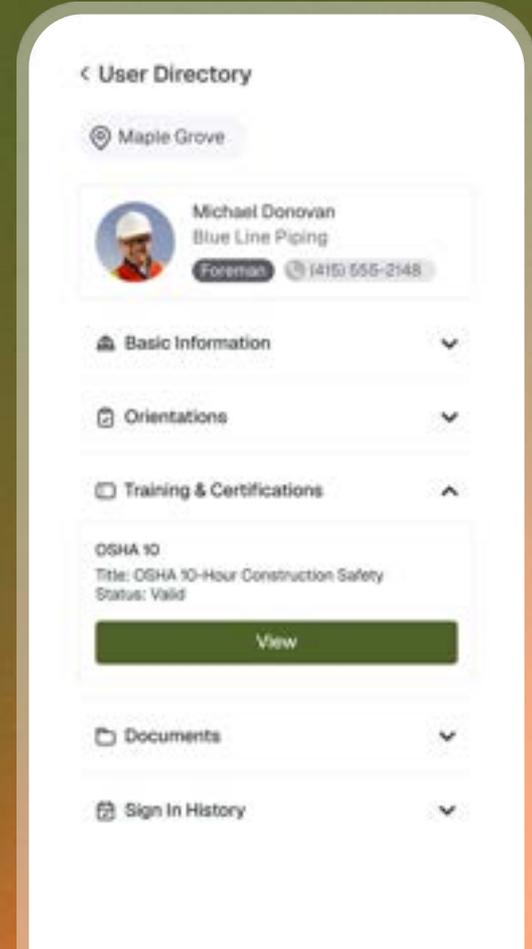

Orientations that create profiles. Profiles that create worker data.

Complete visibility.

Breadcrumb creates instant visibility with a complete worker directory, the ability to send alerts to everyone on site, and all site safety records stored digitally in one place.

Integrated safety with Procore.

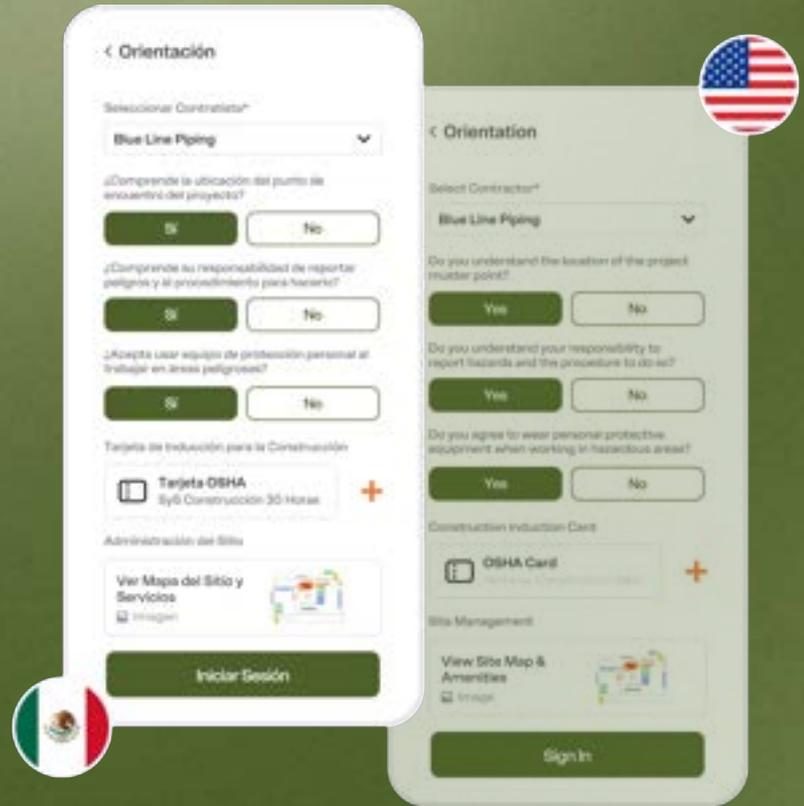

Breadcrumb's integration with Procore was built to remove repetitive data entry and keep all your core project information in one-place.

Multilingual Support

We'll support your diverse workforce with multilingual orientations.

If you have English and Spanish-speaking workers on site, you can host videos and media content in their native language, guaranteeing that your crew is on the same page when it comes to safety.

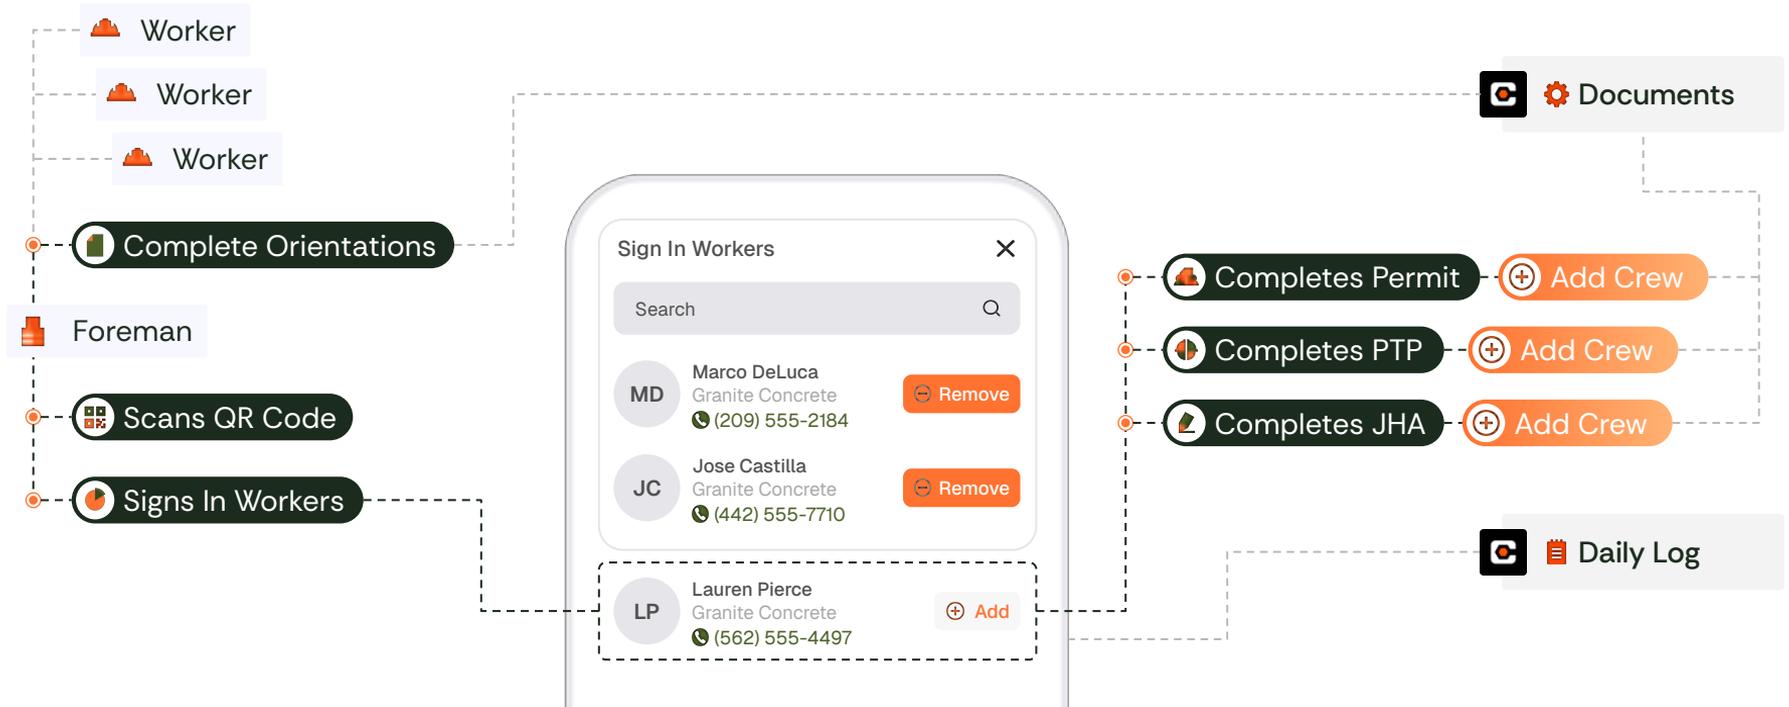

Connecting the field.

Operating with Breadcrumb and Procore means everyone is connected, from the worker on site to the senior project manager in head office.

Empowering foremen.

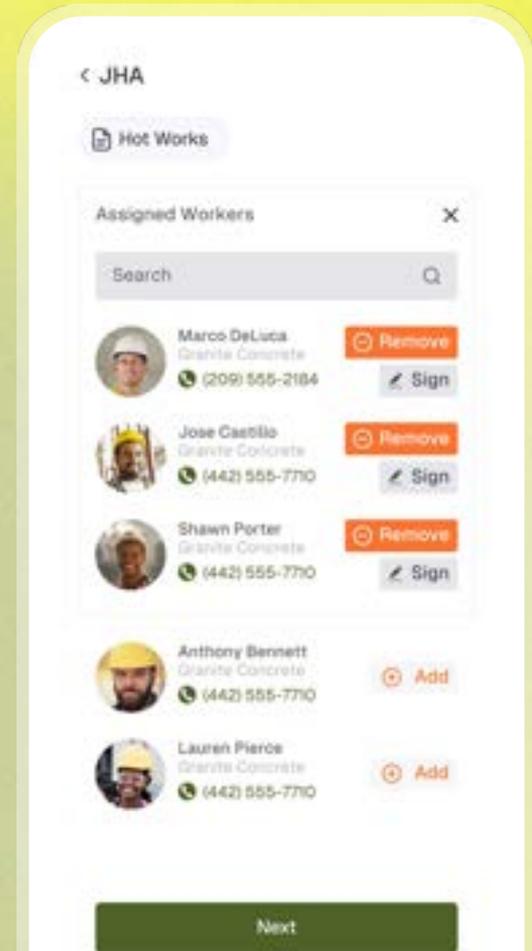

Foremen are forefront of subcontractor safety. When we give them the tools to manage their crews, compliance becomes systemized, and you have better visibility and accessibility than ever.

Compliance through leadership.

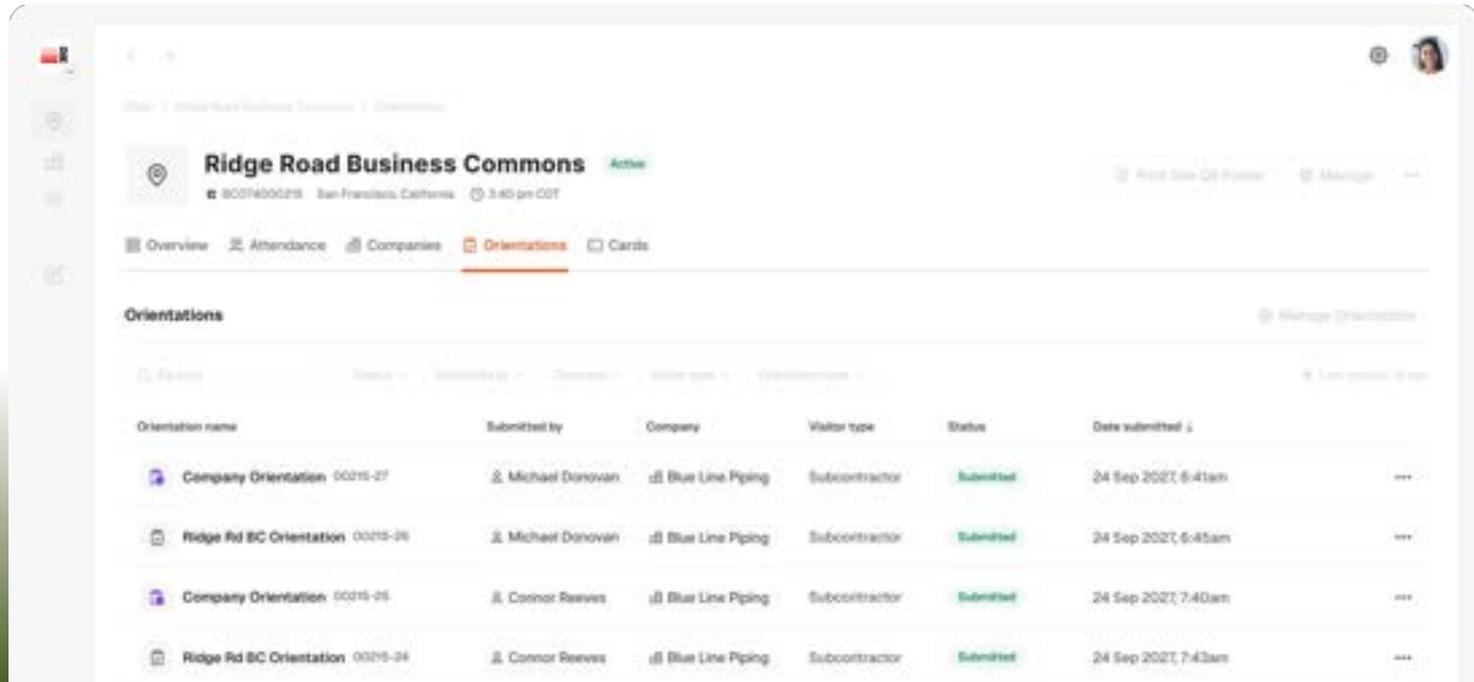

The foreman can apply for any sort of pre-task plan, PTP, JHA or permit to work, as well as other safety documents.

During the process, they can easily add their workers to the task, and even collect their signatures on the spot.

Orientations

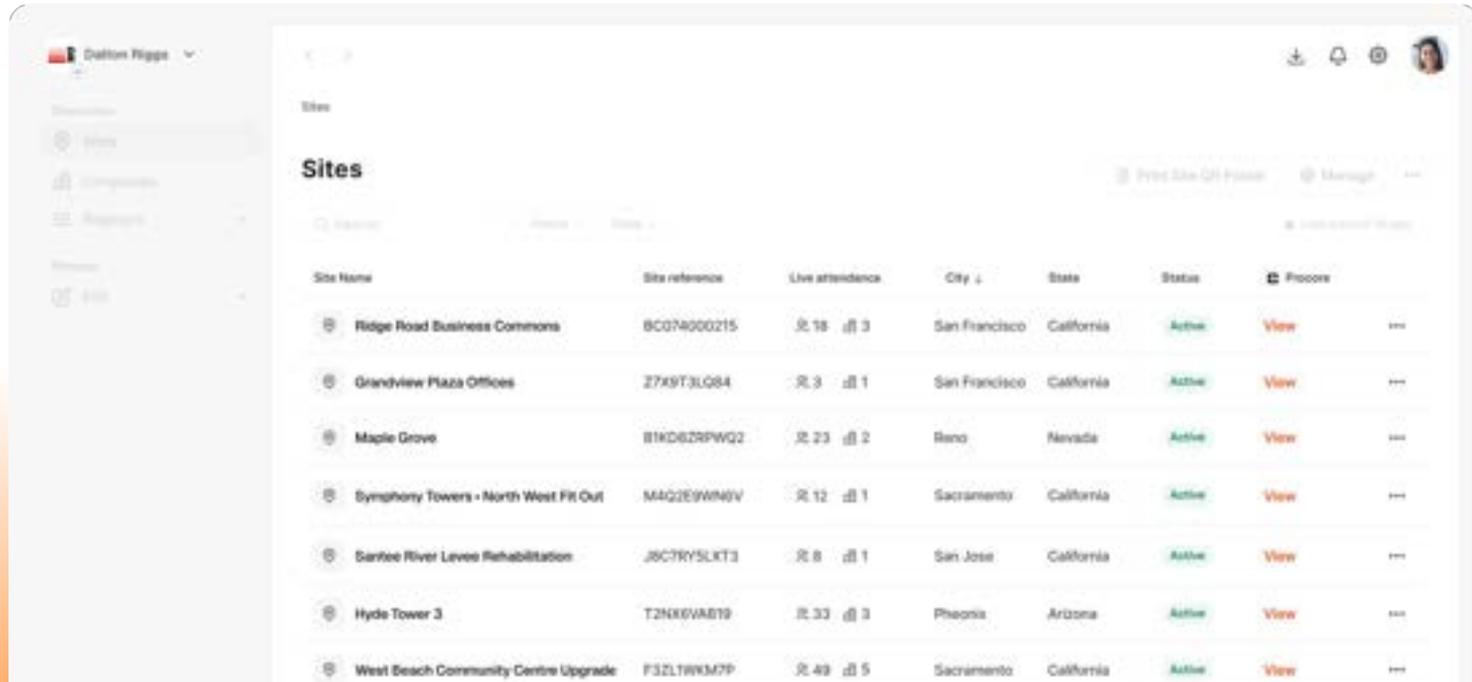

A complete library of company and site orientations. Everything is time-stamped with details of workers and subcontractors.

◆ The Portal

Projects

An updated central command center, providing a clear, organized view of all projects. Gain full visibility, and ensure compliance across the board.

The screenshot displays a web application interface for project management. On the left is a sidebar with navigation options: 'Dashboard', 'Sites', 'Companies', 'Reports', 'Users', and 'Settings'. The main content area is titled 'Sites' and features a search bar and a table of project data. The table has columns for Site Name, Site reference, Live attendance (with a bar chart), City, State, Status, and Actions (View and a menu icon). The data rows are as follows:

Site Name	Site reference	Live attendance	City	State	Status	Actions
Ridge Road Business Commons	BC074000215	18 / 3	San Francisco	California	Active	View
Grandview Plaza Offices	Z7X9T3LG84	3 / 1	San Francisco	California	Active	View
Maple Grove	B1KD6ZRPWQ2	23 / 2	Reno	Nevada	Active	View
Symphony Towers - North West Fit Out	M4Q2E9WNOV	12 / 1	Sacramento	California	Active	View
Santee River Levee Rehabilitation	J6C7RY5LKT3	8 / 1	San Jose	California	Active	View
Hyde Tower 3	T2NKKVAB19	33 / 3	Phoenix	Arizona	Active	View
West Beach Community Centre Upgrade	F3ZL1RWJM7P	49 / 5	Sacramento	California	Active	View

Site Attendance

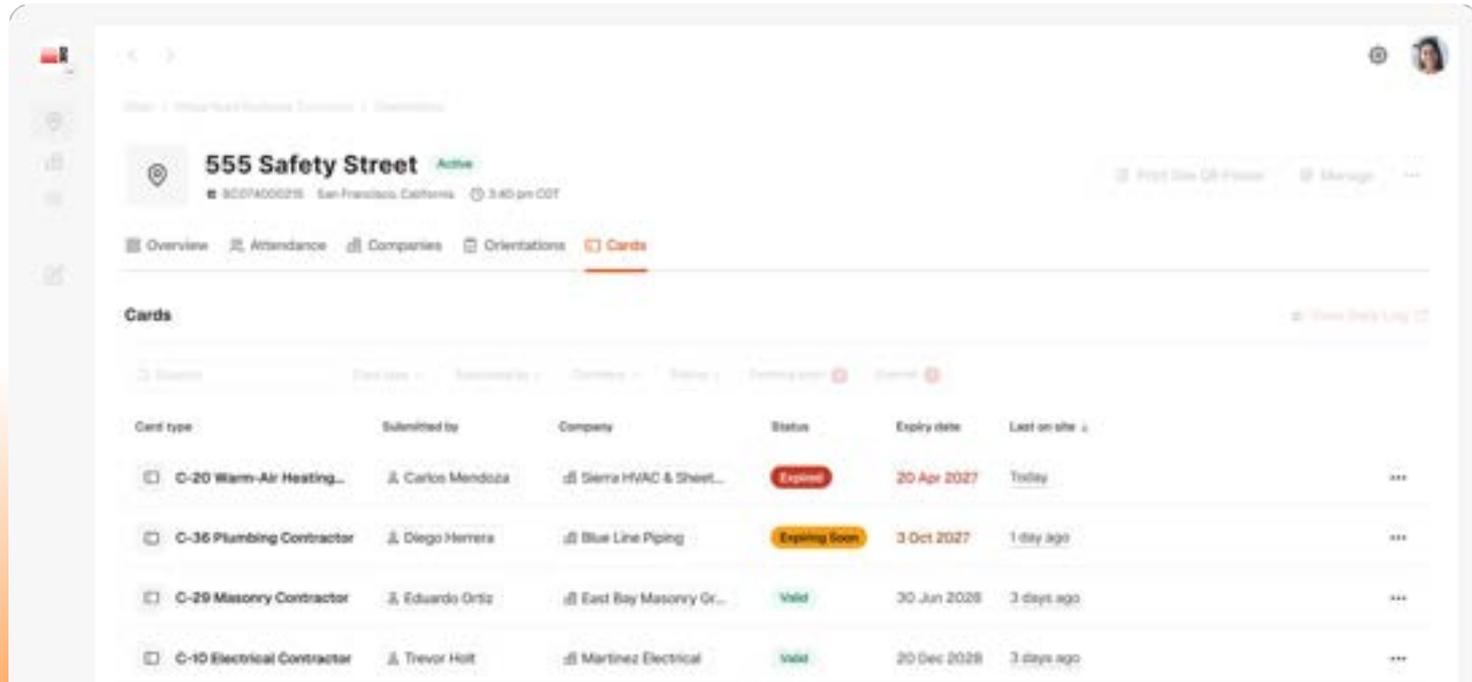

Attendance transformed into a seamless process, providing administrators with clearer real-time data and improved oversight of project foot traffic.

The screenshot displays a mobile application interface for site attendance. At the top, the location is identified as '555 Safety Street' with an 'Active' status. Below this, a navigation bar includes 'Overview', 'Attendance', 'Companies', 'Orientations', and 'Cards'. The 'Attendance' section is active, showing a table of visitor records. The table has columns for 'Orientation name', 'Company', 'Visitor type', 'Sign in time', 'Sign out time', and 'Duration'. Five records are listed, each with a unique ID, name, company, visitor type, and specific sign-in/sign-out times and durations.

Orientation name	Company	Visitor type	Sign in time	Sign out time	Duration
MC Michael Donovan	Blue Line Piping	Subcontractor	24 Sep 2021 9:08am	24 Sep 2021 2:40pm	9:02hrs
CR Connor Reeves	Blue Line Piping	Subcontractor	24 Sep 2021 6:03am	24 Sep 2021 2:36pm	8:33hrs
AW Andre Walker	Siena HVAC & Sheet...	Subcontractor	24 Sep 2021 6:13am	24 Sep 2021 3:17pm	8:58hrs
LR Lorenzo Romano	Granite Concrete	Subcontractor	24 Sep 2021 6:20am	24 Sep 2021 2:15pm	7:55hrs

Training & Certifications

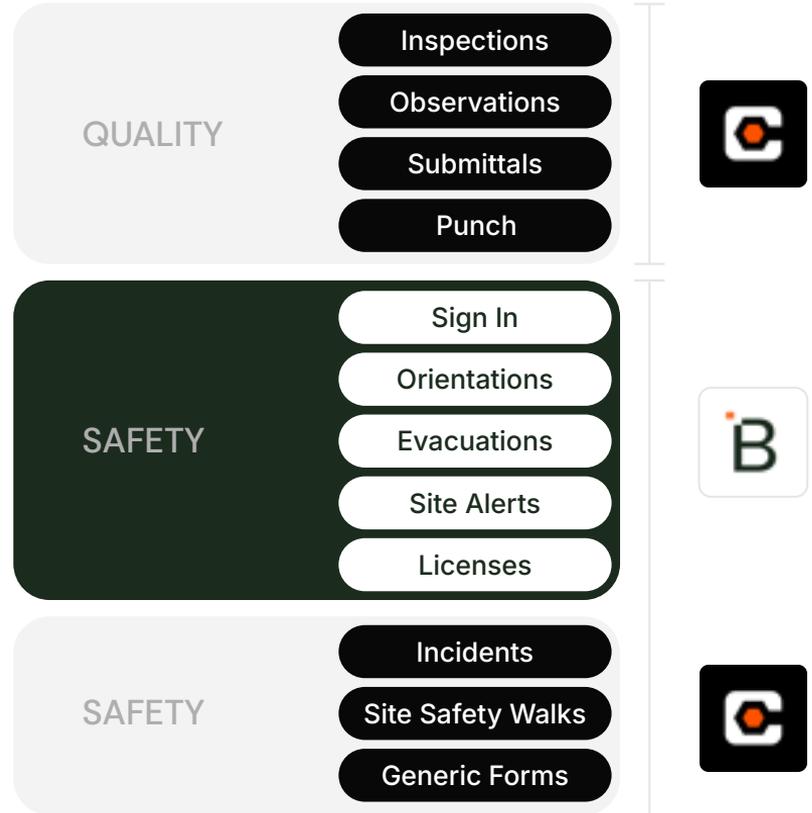

Modern technologies power a more accessible and visually organized Cards page, allowing for quicker verification and management of worker qualifications.

The quality and safety duo.

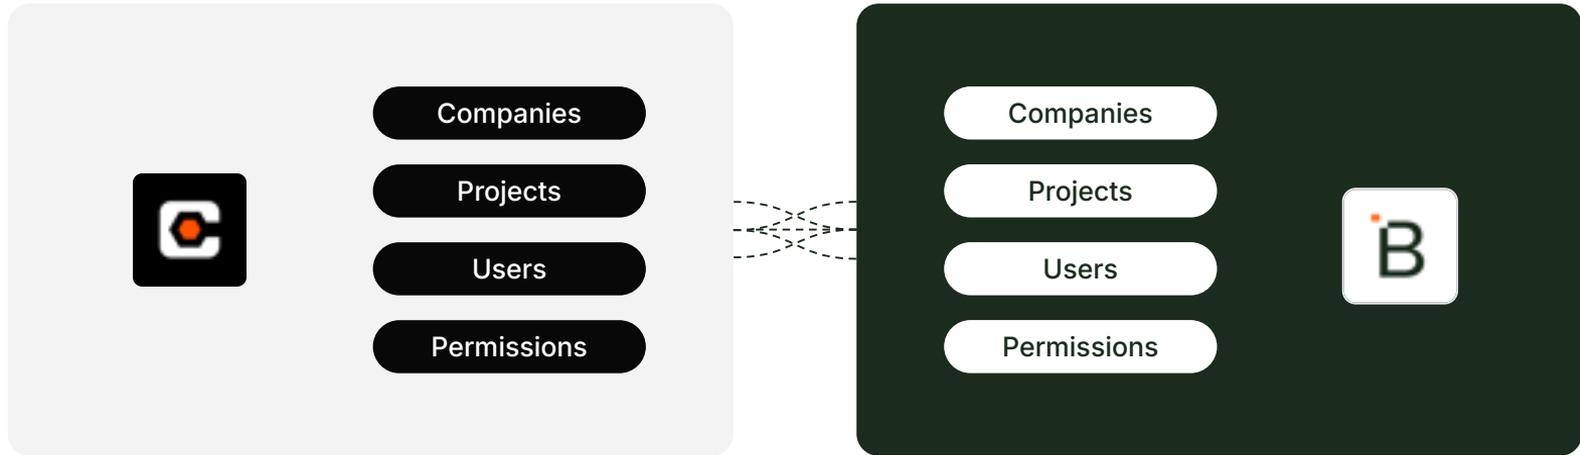

While Procore delivers comprehensive project management tools, Breadcrumb complements it by providing an easy-to-use safety and compliance add-on.

Together, they create a unified solution that empowers teams to manage projects more efficiently while keeping safety a top priority across every site.

Directories integrated.

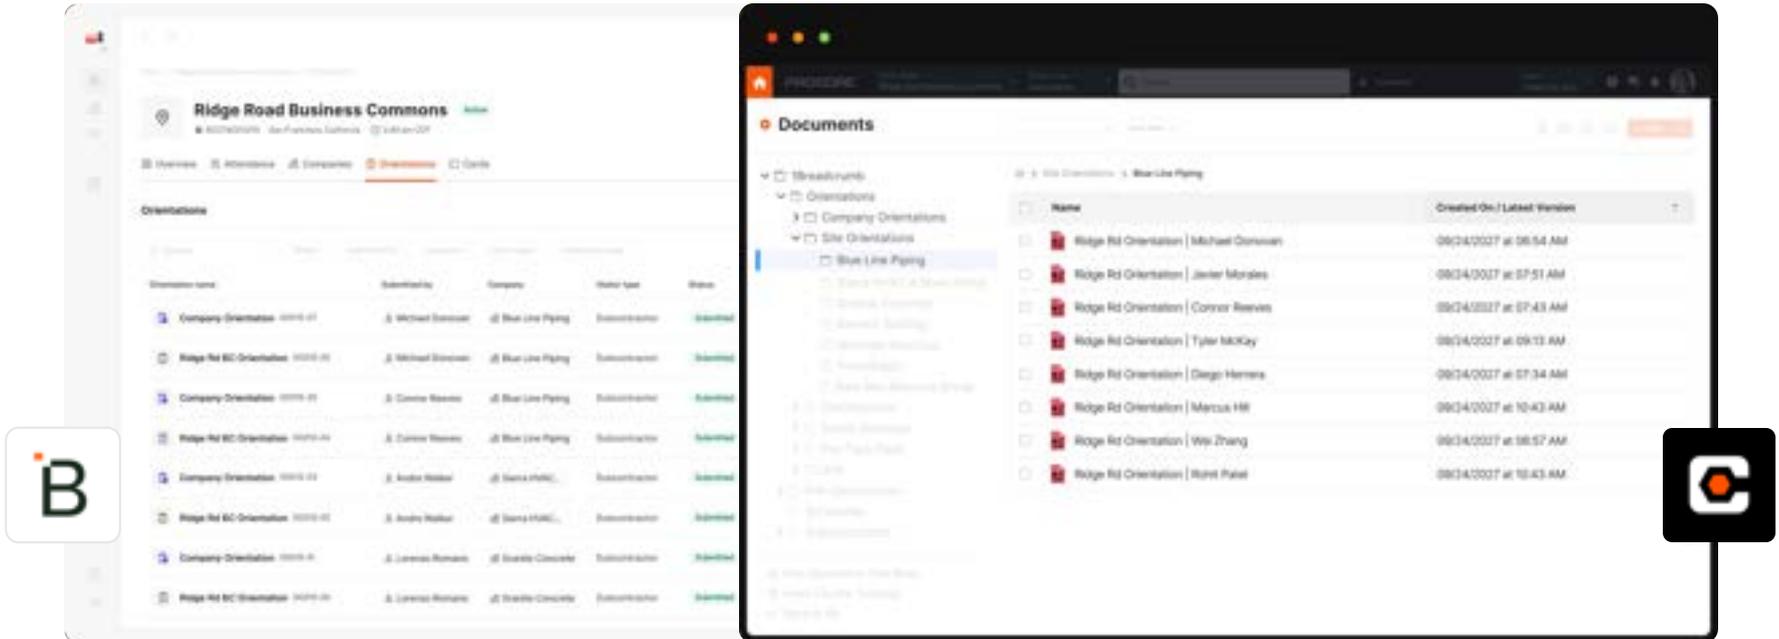

Breadcrumb syncs with your Procore account to pull all essential operational data. This comprehensive integration includes your subcontractors, existing user permissions, and all relevant project details, allowing you to deploy the system with zero setup friction.

Safety documents integrated.

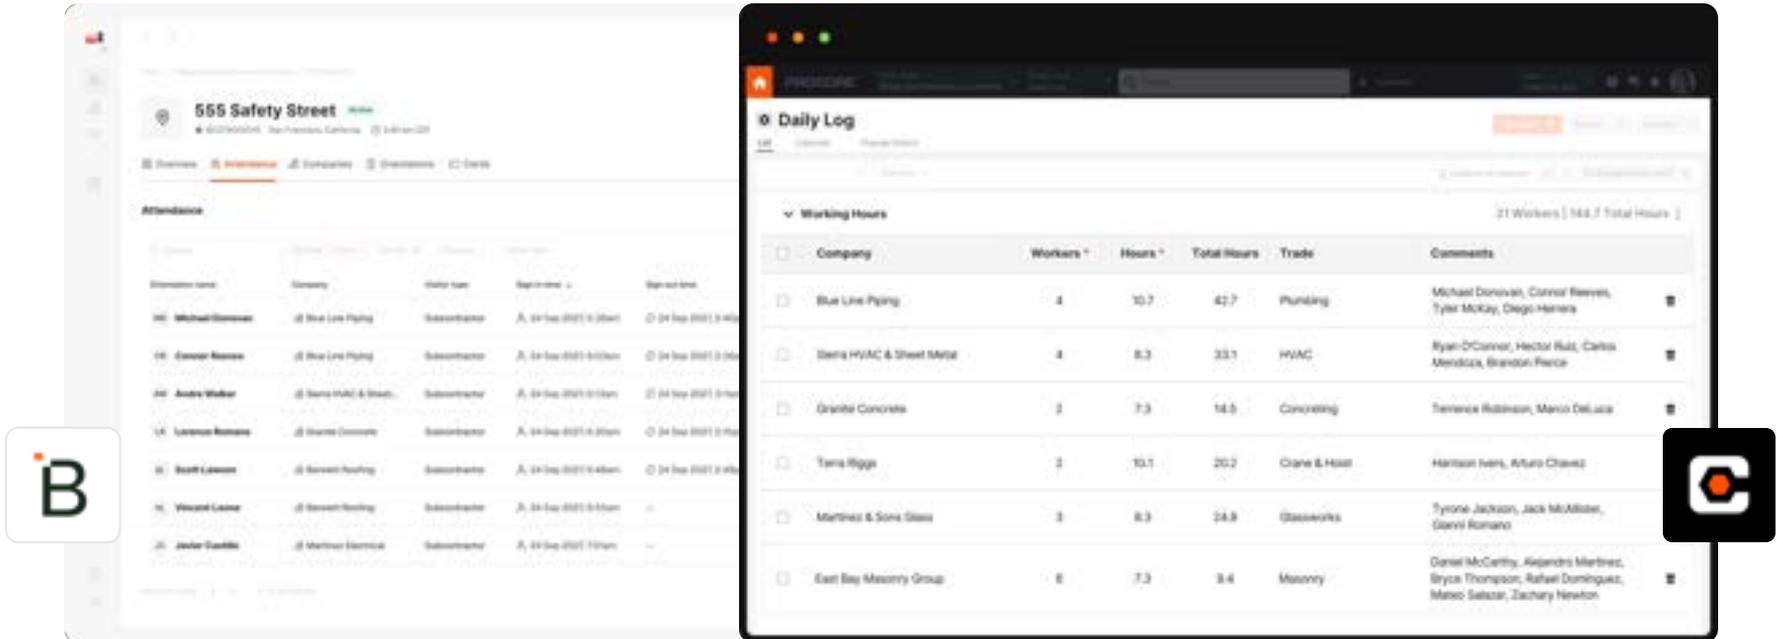

Everything from orientations with licenses and training to permits to work, JHAs, PTPs, pre-task plans and the rest.

They are all securely stored in Breadcrumb and reciprocated in Procore Documents.

Manpower hours integrated.

All foreman, workers and visitor information is saved and stored in both Breadcrumb and Procore. You can see who was on which project and when without switching between systems.

Breadcrumb

Jobsite safety and visibility, built for the field.

Book a demo today.

Disconnected systems slow you down. We don't. See how Breadcrumb keeps work moving – and every worker and manager connected and protected.
