

Our Story & Our Features

Supporting the therapist community for 25+ years

When I was building my private practice, our office manager, Lisa, would often tell me about an afternoon lost to record-keeping or billing. I'd think, "I can help with that," and retreat to my office to write computer code to automate the task.

I began to think that other therapists might benefit from the tools I was creating. I assembled the software package now called TherapyAppointment, tested it on my own practice, & began selling it to a few colleagues in Dallas.

25 years & 50,000+ customers later, my work has shifted from seeing clients personally to helping thousands of therapists see millions of clients. Lisa is a partner & leads our Customer Support team.

At the risk of sounding corny, we're not in this for the money. Our goal is to make therapy available to everyone. We help therapists deliver treatment, clients match with local therapists, and donate a portion of our profits to mental health resources.

At times, it can feel as though we're trying to empty out a swimming pool full of anguish using a teaspoon. But if we're all working together efficiently, we can get it done, one spoonful at a time.

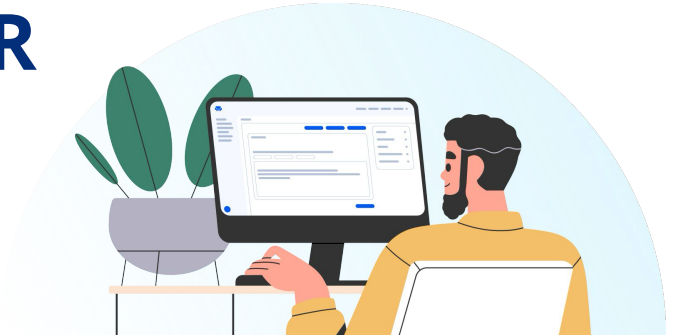

All my best,

Bill Whitehead

Founder & CEO

All-in-one practice management EMR for therapists

TherapyAppointment puts every tool therapists need in one place.

Client Portal

One place for scheduling, billing, and secure, HIPAA-compliant messaging.

Billing & Claims

Integrated card processing, automated billing, and paperless payments.

Notes & Charting

Choose from our free library of SOAP and custom templates.

Scheduling & Reminders

Effortlessly book and track appointments with ease.

Data & Reports

Import existing client data, view income analysis, and create custom reports.

Insurance

Simplify claims with easy filing, eligibility verification, and automated tracking.

Telehealth

Conduct HIPAA-compliant telehealth sessions directly from your dashboard.

e-Prescribe

Simplify prescriptions for both controlled and non-controlled substances.

**Built by therapists,
for therapists.**
