

CloudEASE

Parking System Control in the Cloud

The Parking Management Software is called CloudEASE

- Easily and quickly control all aspects of the parking system from the Cloud.
- View transaction counts, ticket status, spaces available counts, proximity RFID access control usage.
- Scale from a single parking laneway to many laneways across multiple garages.
- Configure complex parking rate structures, validations, discounts, coupons.
- View real-time machine operational status, including live screen view.
- Incorporate proximity RFID access control credentials (access permissions, usage control) & holders (monthly parkers, employees, etc.).
- Generate reports, export data to Excel or CSV for further manipulation or integration.
- Audit trails may be printed at stations to enhance cash controls.
- View detailed system logs and monitor via email/text alerts.
- Create granular user permissions to limit access.
- Automated data back-ups with redundant architecture.
- Integrate with third-party systems.
- PCI compliant.

Validation Solutions & Passes

- Discount (amount, time, percentage) via:
 - On-line validation stations
 - Web-based validation
 - Coupon paper chaser tickets or stickers
- Automated pass sales.

Reports

View real-time data. Generate reports by start + end date/time. Export data Excel or CSV
