# cape.io

Creative Automation

Automate your creative. Elevate your performance.

The all-in-one platform to produce, personalize, and launch high-performing ads for every channel, from social and display to video and DOOH.

Creative studio

Build from smart templates and connect data and commerce feeds to generate unlimited, on-brand ads. The all-in-one engine delivers pixel-perfect creative for every channel.

Automated publishing

Eliminate manual work. Push platform-ready ads to Meta, Google, TikTok and other channels with a single click. Keep campaigns relevant with live, feed-driven updates.

Total workflow control

Unify teams on one platform. Manage briefs, reviews, brand governance and approvals in one place, replacing scattered tools and endless email chains.

Key benefits

True omnichannel production

Go beyond social with outputs for Display (HTML5), Video (MP4), DOOH, and Print.

Data-powered personalization

Turn product catalogs, CRM data, and other feeds into highly relevant, dynamic ads.

One-click cross-channel activation

Launch campaigns across all major ad platforms simultaneously.

Ironclad brand governance

Protect creative integrity with centralized brand kits, user permissions, and streamlined approvals.

Seamless ecosystem integration

Works with your stack, including Figma, Adobe, CRMs and ad platforms.

AI-powered workflow

Supports you in every step of the campaign lifecycle.

Who we work with
