Director of Environmental Health  
& Safety, Churchill Downs

Without a contractor solution, organizations can face hefty fines due to non-compliance from third parties.

Contractor Safety Management offers a comprehensive solution designed to streamline the management of third-party contractors. By integrating advanced technology with user-friendly features, our platform ensures compliance, enhances operational efficiency, and mitigates risks, transforming the way you manage your contractual workforce.

## Comprehensive Compliance and Reporting

- » Utilize our contractor compliance scoring and risk rating systems to assess and manage compliance risks proactively.
- » Significantly reduce the risk of regulatory fines and legal challenges by gaining better visibility through enhanced reporting.

## Easier Administrative Processes

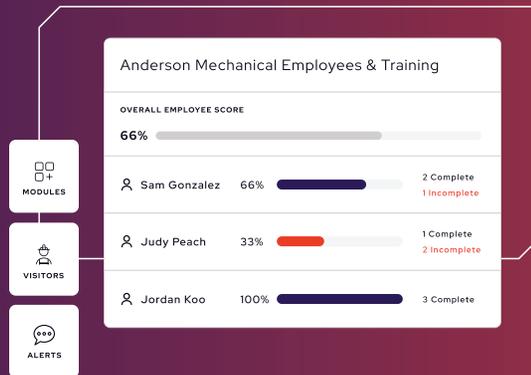

- » Automate contractor documentation through our centralized contractor portal and configurable prequalification standards.
- » Save substantial time and resources, reducing administrative burden and allowing your team to focus on core operational tasks.

## Enhanced Contractor Performance and Safety

- » Deliver tailored training modules and manage onsite contractor visits efficiently with our visitor management system.
- » Improve overall contractor performance and safety standards, leading to better project outcomes and reduced workplace incidents.
