Go global with confidence

A true extension of your team

The only provider that can recruit AND hire, pay, analyze, and manage talent—all in one place. Scale faster, with less friction.

Unmatched local expertise

400+ in-country experts, fluent in compliance and culture—so your people feel supported, and your business stays protected.

Human when it matters

In a world full of bots, we lead with people. When you work with us, you get more than support—you get a partner. Real experts, real-time collaboration, and solutions built around you. Because your success isn't just a ticket in a queue—it's personal.

Tech that works for you

One intuitive platform with seamless integration, powered by real people. Access live workforce insights, spend analytics, and compliance data to make faster, smarter decisions across your global strategy.

Transparent pricing, no surprises

One invoice per country. All statutory costs and compliance fees upfront. No hidden extras. Just clean, predictable pricing you can trust.

CASE STUDY:

A global services firm scales with confidence

A global professional services firm came to Safeguard Global through an acquisition—we started as the EOR provider for the acquired company.

After seeing the difference, the parent organization chose to transition all workers off their existing provider to Safeguard Global.

Why they switched:

- A platform their teams loved
- Transparent, compliant payroll
- Strategic, human-led partnership, not just a tech vendor

The results:

- Stronger worker Satisfaction: 4.2 / 5
- High product engagement: 80s–90s
- 11 new hires planned
- Expansion into South Africa and Australia
- Support for entity closure in Europe

Proof that when service and support shine, partnerships grow.
