

Secure File Sharing and eSignature Software for Your Law Practice

If your firm doesn't currently secure your files over email, now is the time to make a change! LexShare's features are designed with security and simplicity at its core, which is essential for keeping client information confidential and for making the eSignature experience easy for everyone!

The Modern File Sharing Solution

As a legal professional, securing your client's information is a top priority, especially when it comes to your documents. Sending and receiving secure files with LexShare is the modern file sharing solution that your firm needs! LexShare is a cloud-based service that allows users to securely share files with your clients and request signatures from them, as well as import the signed documents back into the PracticeMaster Document Management file.

Benefits Include:

- Enhanced security with the assurance sensitive data is kept safe
- Unlimited file size giving you the ability to share large files such as videos or deposition recordings
- Peace of mind knowing we back up your information and secure it so you can access your files when you need them
- Convenience of obtaining signatures quickly and easily from any location or device
- Protection of your clients' confidential data
- Cost savings by eliminating the need for physical signatures on printed documents

Software That Works on Your Terms

Save time and streamline your workflow by enabling clients to receive and send secure files to and from your firm without changing the way you operate.

Customized to Fit Your Needs

One size does not fit all when it comes to software. LexShare allows you the flexibility you need to cater to different clientele.

Make it Yours with Custom Branding

LexShare's easy-to-use interface makes adding your firm's name, colors, and logo simple. Your clients will feel secure knowing that your email requests come from you!
