### Save and Track Emails to Salesforce

Never miss a sales conversation again. With Cirrus Insight, you can track and save emails to Salesforce with just a click. Relate emails to any object in Salesforce, standard or custom. See who's opening your emails and when. Discover which emails and subject lines are connecting and which need work.

### Sync Salesforce with Google Calendar & Contacts

Automatically sync your Salesforce and Google Calendars. Cirrus Insight is the only solution that automatically relates Google Calendar events to matching contact records in Salesforce so you can track your customer meetings. You can also sync your Salesforce contacts to your Google Contacts and to your phone.

### Create and Edit Salesforce Records

Create new leads, contacts, opportunities, & cases right from Gmail. Update existing records and manage your entire sales pipeline and support tickets without leaving your inbox. Even access custom fields and related lists!

### Automatically View Contextual Salesforce Information

You communicate with your customers in Gmail but their information is in Salesforce. Now you can automatically view contextual Salesforce information inside Gmail as you talk with your customers. Always know exactly who they are and where they are in the pipeline.
