

# Finale Inventory

**Cloud-based inventory management software for your growing business**

[www.finaleinventory.com](http://www.finaleinventory.com)

*"I would highly recommend Finale Inventory to any multi-channel retailer who wants to move beyond Excel spreadsheets to an easy, intuitive software solution to manage their inventory."*

*Omar Cordero, CEO StrongerRX*

# + Finale Inventory

## Finally get control on our inventory

Finale Inventory is an intuitive cloud-based inventory management system that is easy to use while designed to scale to the demands of a growing business. Finale removes the complexity of inventory management and easily handles all your stock movements from purchasing to shipping your orders.

Finale is an ideal inventory solution for wholesalers, distributors, warehouse management, multichannel e-commerce sellers, and many other types of businesses.

Our affordable solution saves your business time and money and increases your efficiency. With an efficient management system, you will be able to do more with less.

Getting an excellent handle on your inventory will allow you to sleep better at night and enable you to ..

### **1. GROW your business.**

With an efficient inventory management solution in place, you will have confidence your company has the proper infrastructure to add additional product lines, sell in additional markets, or add additional warehouses. With your inventory under control, you will have more time to dedicate to expansion.

### **2. Decrease COSTS.**

Physical inventory is often the largest asset in the financial books. With an efficient inventory management, you will be able to handle your inventory to keep your ideal stock levels while detailed reports give better control and visibility into your business.

*“After setting up the company info, I was up and running in a few hours thanks to the easy import and export features. Finale has really helped our business be more efficient. It has reduced counting errors to almost zero. It has also given me peace of mind in terms of inventory levels and value. I would definitely recommend the product to everyone. Its simplicity yet scalability and speed is exactly what every inventory manager or COO must have! “*

*Pat Bianchi, COO, Lox Extensions*

### **3. ELIMINATE Stock-outs.**

A sure fire way to lose sales is running out of stock. Our cloud-based interface gives everyone 24/7 access to accurate, consistent stock level counts even for companies spread out over multiple locations or countries. Set reordering thresholds so you can know when you should purchase more stock.

### **4. Have complete TRACEABILITY.**

The inventory complexity compounds when you need to keep tracks of batch codes, lots, or serial numbers. Finale makes it easy to keep track per-stock-unit information from the start (receiving or manufacturing) to finish (shipping the products). Our turnkey mobile barcode solution eliminates error and speeds up operations with advanced features like automatic barcode learning and product lookup tables.

## **THE FINALE ADVANTAGE**

Implementing a new inventory management system is a critical milestone for a growing business. We want to be a successful long-term partner in your success and give you a robust product offering without requiring large financial or long-term commitment.

We understand transition to a new inventory management solution is a big decision. We make the process as painless and smooth transition possible.

**Simple, straightforward pricing.** Our pricing is month-to-month start at \$99/mo. There are no set-up fees, hidden fees, or surprises.

**No long-term commitments.** We want you to be a satisfied customer. We believe a satisfied customer will get immediate benefit and value in the software and allow us to be long-term partners in helping companies manage their growth. As a result, there are no long-term commitments, and you may cancel anytime, no questions asked.

**Free training and support.** We offer free training sessions at the start, and you'll have a dedicated account manager with their mobile numbers and email for responsive support.

**Quick set-up.** Every customer's situation is different, but most Finale users are trained, set-up, and up and running within 1-3 weeks.

**No software to install.** Finale Inventory is a fully web-based solution that is hosted in the cloud. As a result, you never have to worry about installing software, upgrading updates, or archiving up your data. There is no need to submit an IT ticket to install Finale Inventory on the company servers.

**Continue using QuickBooks for your bookkeeping.** No need to learn new software if you are already using QB. Finale has direct integration with both QB Desktop and QB Online to ensure all your information between the two systems remains consistent,

**Copy/paste from Excel.** Get started by copy and pasting your product data from Excel or Access. Be up and running sooner than you expect.

# + Inventory Management Solutions

Warehouse Management,  
Distributors, & Wholesalers

Our cloud-based inventory control system helps you track inventory operations at a single location or at multiple locations. From inventory control, shipping and receiving to order fulfillment, our warehouse management focus helps businesses manage their warehouse properly, saving money and time due to improved efficiency, accuracy and reporting.

Finale offers an integrated barcode solution that is second to none. Finale Inventory offers a comprehensive out-of-the-box barcode solution that doesn't require a small team of expensive integration consultants to get everything setup.

Finale Inventory supports many barcode configurations - whether you print your own labels, use UPC codes, or use serial numbers. With lot id tracking, serial number tracking and multi-location support, Finale offers a complete solution at an affordable price.

Multi-Channel Ecommerce

Our cloud-based inventory control system helps accurately track inventory operations and reduce the complexity of selling online on multiple marketplaces (e.g. eBay and Amazon). Consolidate sales order from multiple marketplaces to a single location. Prevent stock outs and loss revenues with real-time inventory view.

From the ShipStation inventory management integration, QuickBooks integration, and Kitting / Product Bundling capability, Finale offers a comprehensive solution for multi-channel ecommerce retailers.

***“Finale Inventory is worth its weight in gold. Saves everyone in our organization involved with products a ton of time and keeps me from running out of critical goods thus enabling us to grow continuously.” Greg Friedman, CEO, Airbeam***

# Finale Pricing

Finale Inventory is a month-to-month service. There are no hidden costs, set-up costs, long-term commitments or contracts on your part. At any time you can export all the data in your account.
