

The Leading IDE for Professional Development in Java and Kotlin

Built for your comfort, it unlocks productivity, ensures quality code, supports cutting-edge tech, and protects your privacy.

Values

Stay productive, always

Write code faster with tools that take care of tedious tasks and help you focus on what matters – building software.

Tackle all your development tasks with ease

Your needs are met at every stage, from design and development to testing and deployment.

Key features

- Smart editor
- Ergonomic design and customizable environment
- Code quality assurance
- Top-notch Java and Kotlin support
- Early adoption of new technologies
- High performance with large repositories and codebases
- Accessible UI and navigation
- Comprehensive customer support
- Regular updates

System Requirements

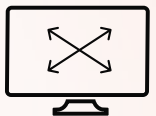

**Windows**
64-bit
Windows 10, 1809 and later,
or Windows Server 2019 and later

**macOS**
12.0 (Monterey)
and later

**Linux**
Two latest versions of Ubuntu LTS
and Fedora Linux distributions
that support Gnome and KDE

**3.5 GB hard disk space,**
SSD recommended

**2GB of free RAM**
(8GB of total system)

**1024×768px**
minimum screen resolution

Stay at the cutting edge

Create innovative solutions with advanced technologies supported from the get-go.

Work in ultimate comfort

Code long hours without losing efficiency, making fatigue and burnout a thing of the past.

Craft high-quality code

Write better quality code from day one, with fewer issues to fix later on. Free yourself up to focus on the more creative aspects of development, like creating new features.

Tools and integrations

- Debugger
- Profiler
- Testing tools
- HTTP Client
- Database tools
- AI-powered tools
- Terminal
- Decompiler
- Version control systems: Git (GitHub, GitLab), Subversion, Mercurial, Perforce
- Build tools: Gradle, Maven
- Container orchestration systems: Docker, Kubernetes, Terraform

Frameworks

JVM frameworks

- Spring
- Jakarta EE (Java EE)
- Micronaut, Quarkus, Helidon
- Thymeleaf
- Ktor
- JPA, Hibernate

Web frameworks

- Vue
- Angular
- React, React Native
- Electron
- Node.js

Headquarters:

JetBrains N.V.
Terrace Tower, Gelrestraat 16
1079 MZ Amsterdam
The Netherlands

EMEA & APAC Sales:
