

Use Real-time GPS Data to Increase Field Worker Visibility & Productivity

Help your field workers stay on track and be more accountable by increasing visibility between the field and the office. Right from WorkWave® Service, you can easily monitor your vehicles' locations, alongside scheduled stops, actual time spent on-site, as well as driver behavior.

WorkWave Service Benefits:

- **View current vehicle locations** alongside planned jobs, right from WorkWave Service, as well as our GPS mobile app
- **Provide accurate ETAs to your customers** without the need to contact field workers
- **Keep track of job statuses throughout the day**, particularly when combining GPS with the WorkWave Service mobile app
- **Re-route your field workers** to avoid congestion and decrease idle time
- **Receive alerts** when company vehicles are driven outside of specific geographic areas
- **Eliminate wasted time** by comparing actual start and duration times for each service
- **Ensure** company vehicles aren't being used outside of business hours

View vehicle history
via breadcrumb trail of
locations and activities.

Improve driver safety and decrease liability with Driver Behavior

Driver Behavior, an add-on feature for WorkWave Service, helps improve the driving habits of your field workers with in-vehicle alerts and driver performance reporting, to help you identify your best drivers and those in need of additional coaching.

Speeding Threshold Alerts

Receive alerts when a vehicle travels over a certain speed

Posted Speed Violation

Activated when a vehicle speed is over the posted speed limit

Pinpoint Common Violations

Including excessive idling, harsh braking, cornering & acceleration

Driver Behavior Scorecards

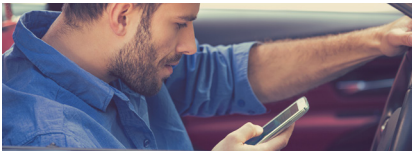

Identify your best and worst drivers through detailed reporting

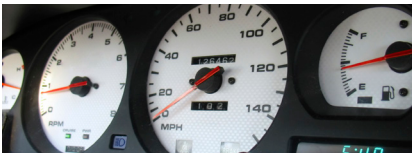

\$16,000 The average amount a crash costs an employer.¹

80% of crashes are the result of distracted driving.²

26% of crashes involve cell phone use.²

27% of motor vehicle fatalities involve speeding.³

1 National Highway Traffic Safety Administration (NHTSA) • 2 National Safety Council (NSC) • 3 Insurance Institute for Highway Safety (IIHS)
