- Guarantee complete product and service configurations at the time of order
- Automatically Create NetSuite Manufacturing Orders, BOMs, Routings
- Multi-currency & language support
- Never a delay supporting new NetSuite releases
- Fast set-up, easy maintenance

Improve Manufacturing Productivity

Experlogix combines with NetSuite to form a powerful engineering and product management system, automating bill-of-materials, cost and routing determinations, and enabling dramatic cuts in manufacturing lead times.

Define Stock Configurations and Kits

Streamline the quote and order entry process for your product lines with pre-built configurations and best practices. Use automatic up-sell and cross-sell messaging to increase your bottom line and profits.

Build Rules & Formulas Fast

The Experlogix Design Center is a user-friendly workbench which allows non-technical users to create and maintain complex rules and sophisticated algebraic formulas – all without programming expertise.

Excel Import Utilities

Experlogix provides rich tools to bring your Excel data to Experlogix fast, from extensive tables to multi-sheet workbooks.

We Respect the NetSuite UI

Experlogix matches the look of NetSuite. Why is this important? It provides a natural transition from NetSuite to CPQ for your users, shortens learning curves and increases user adoption. Wish we didn't match NetSuite? We've got other skins to choose from or you can create your own.

NetSuite Certified

Experlogix earned "Built for NetSuite" accreditation from NetSuite in 2012, providing assurance that Experlogix conforms to NetSuite's development standards for an integrated solution.

"Experlogix brings a wealth of experience and offers proven CPQ capabilities that enhance NetSuite's ability to handle complex quoting and guided selling requirements. The integration and adherence to the NetSuite user interface makes it a seamless and natural extension to NetSuite quotes and orders."

- Ranga Bodla
