This system changed my salon life for the better. Online booking saves me a receptionist and the ease with which I can look at two locations is brilliant. Also, having client notes at my fingertips helps me remember everything. I simply can't imagine not having Phorest in my life! It's a fantastic, all-round salon software.

Phorest lovers! I got 65 bookings since 6pm yesterday - I actually can't believe it! I've had Phorest since last June and didn't really push online as I didn't think it would work that well and thought it would cause drama! But I love it and so do my clients - you need to get this!

Our clients love the TreatCard, simple as that. They like getting rewards rather than discounts. And, for us, the TreatCards have generated over 35K in revenue since we have started using them. I've already recommended them to 3 other salons that I know.

I can't believe how easy Phorest is to use. Honestly, I can't believe how much time I wasted looking at other systems. All I can say is you get what you pay for. Phorest does everything apart from making your client's tea and coffee!

I think Phorest is designed excellently. It's completely personalised to suit your Salon, Hairdressers or Nailbar, which makes it so user-friendly. The colour codes make it easy to navigate, and the stock reports make stock-taking a lot easier. Our business is run more efficiently using this software.

I have never been good with computers & programmes, so I was nervous about getting Phorest into my salon. However, the training in Phorest was so clear & their support network is excellent & very accessible.

I asked for help doing a spring newsletter & had a call from Luke within an hour. I sent him the material and he took over the rest. What an amazing service. I wouldn't have been able to do that myself. Thank you so much!

“It is an investment, but I can honestly say it's one of the best we've made. I only wish we got it in when we opened 6 years ago. It's so easy to use. You can track all your figures, bookings and clients in such a simple, easy manner and even from your phone. Phorest truly wants to help salons reach their full potential. If you don't have a salon POS and software system, then you need this.

Online bookings are a God Send to the salon and the reviews are a great idea. When we opened the salon, we looked at a few software companies but are delighted we went with Phorest. In my opinion, it's a must-have for every salon :)
