Experlogix CPQ Microsoft Dynamics 365 Business Central

Power of Choice

We give you the power of choice with the unique ability to switch between platforms anytime. You can even host and own Experlogix yourself and connect to Dynamics 365 for Sales if needed.

Improve Manufacturing Productivity

Experlogix combines with Dynamics 365 to form a powerful engineering and product management system, automating bill-of-materials, cost and routing determinations, and enabling dramatic cuts in manufacturing lead times.

Build Rules & Formulas Fast

The Experlogix Design Center is a user-friendly workbench which allows non-technical users to create and maintain complex rules and sophisticated algebraic formulas – all without programming expertise.

Dynamics Updates

If you're ready to take advantage of a new Dynamics release, rest assured we support the new version – there's never a delay.

Guided Selling

Experlogix CPQ immediately verifies the accuracy of each user entry, providing intelligent feedback with easy to understand pop-up messages and color-coded highlights.

We Respect the Dynamics UI

No matter which version of Dynamics you use, Experlogix matches the look of each Dynamics release. Why is this important? It provides a natural transition from Dynamics 365 to CPQ for your users, shortens learning curves and increases user adoption. Wish we didn't match Dynamics 365? We've got other skins to choose from or you can create your own.

- Eliminate quote errors
- Speed quote-to-order times
- Place engineering expertise into the hands of sales representatives
- Guarantee complete product and service configurations at the time of order
- Automatically Create Production Orders
- Multi-currency & language support
- Works with Dynamics 365 Business Central and Dynamics NAV editions
- Fast set-up, easy maintenance
