

The background of the entire page is a low-angle, upward-looking photograph of several modern skyscrapers. The buildings have glass facades that reflect the sky and clouds. The sky is a vibrant blue with scattered white clouds. A large, white, stylized 'X' shape is superimposed over the lower half of the image, partially obscuring the buildings and the text.

# Lifecycle Management

as a Docker Container

# Lifecycle Management

Avatier Lifecycle Docker container cloud-Independent solution brings employees, partners and customers applications, cloud services, assets and even e-signature forms together to manage them as one system. More importantly, our unified digital dashboard enables C-level executives to deliver business growth and increased profits.

## **Avatier Identity Anywhere Lifecycle Management**

Introducing Identity Anywhere Lifecycle Management, the world's first user provisioning and access request system as a Docker container. These technologies combined create the most portable, scalable and secure Lifecycle Management solution in the market. Docker container technology allows Identity Anywhere Lifecycle to run anywhere: on any cloud, on premise or a private cloud instance hosted by Avatier.

### **Get 360 Degree User Provisioning Today**

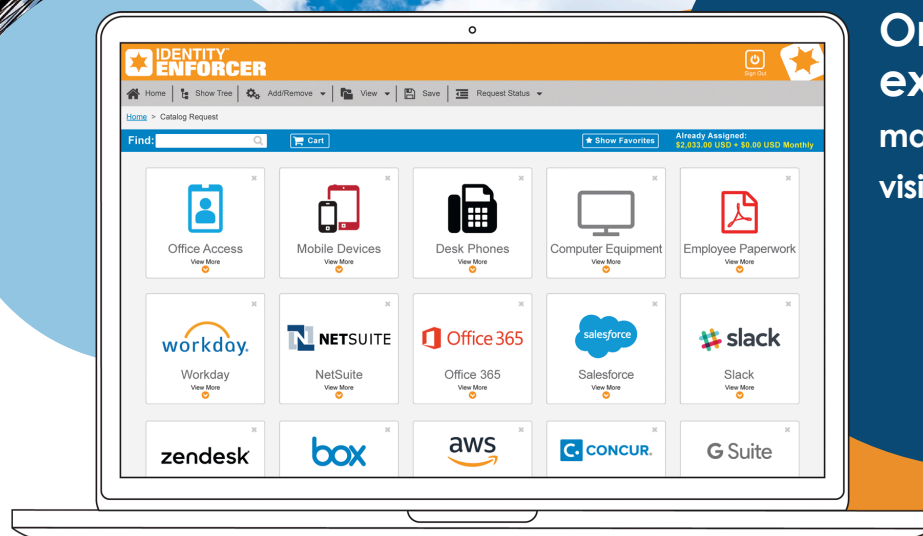

Our Lifecycle Management goes beyond traditional user provisioning. For example, in addition to account creation, all business documents and tax forms are generated and signed online. Severance agreements are generated and signed online on termination. HR driven role transfers, leave of absence, name changes, re-hire, terminations and layoffs occur automatically during employment.

### **Aggregate Risk Across your Business**

Every employee, partner and customer has associated risk they carry with them. Their risk is calculated from assigned access entitlements and assets that have their own risk. Contextual risk is also calculated from assigned system properties like admin access or a password that never expires. Avatier's patented Risk Radar calculates all this risk and shows graphically where most of the risk is coming from.

**Online shopping experience makes your IT services visible and accessible.**

## Lifecycle Management IT Store

### Discover the IT Shopping Experience

Every company is managing an invisible IT Store today. Unfortunately, most companies virtual store of access entitlements and assets are not consolidated or graphically displayed in one place. We solve this problem by becoming your one-stop shop for requesting access, assets and even e-signature forms. It is as easy as shopping online and provides the workflow controls to meet compliance laws.

### IT Store Intelligence

What good is an IT Store if it can't be managed? Avatier's in-store intelligence rapidly turns data into knowledge, providing clear and actionable insight into disbursement of access, assets, and their associated risks. Store Intelligence tracks how many times any item has been requested, denied, approved, and assigned this comes complete with SLA and risk scores. It's easy to drill down to see who has what and how was it assigned.

### Cloud-only identity is not enough:

- Legacy on-premise systems
- Governed by tight compliance
- Lack of trust in cloud security

### The hybrid identity crisis:

- Legacy maintenance and upgrades
- Separate cloud/on-premise models
- Labor intensive operations management
- Lacks CPU memory auto-scaling
- Manual updates
- Requires load balancer management
