

INVOICEAUTOMATION

Cut costs, create savings, and generate rapid ROI with Goby's Invoice Automation Solutions

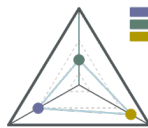

Managing invoices can be a time-consuming, inefficient process. Goby's cloud-based solution automates the data capture, validation, and approval process on a single, simple, user-friendly platform.

Goby Invoice Automation will reveal opportunities, identify trends, and help you make confident strategic decisions backed by powerful analytics. You will reduce administrative work, identify billing errors, and avoid late fees.

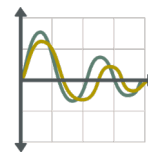

ACQUIRE

Reduce costs with an intelligent acquisition process as invoices are automatically captured and data extracted from any format.

VALIDATE

Take action as a powerful validation system identifies and tags billing errors and usage outliers.

APPROVE

Review and approve invoices through a robust workflow and routing engine.

Rapid ROI: start saving from day 1

- ✓ Accelerate business processes - cut processing time by 50%, reduce cost per invoice by more than 50%
- ✓ Identify errors in invoices or spikes in consumption
- ✓ Increase accuracy and data integrity
- ✓ Mitigate financial and compliance risk
- ✓ Reduce administrative work: regain time normally spent on manual processing and eliminate errors
- ✓ Track costs, consumption, and late fees
- ✓ Improve supplier and vendor relationships
