Salient Features

SaaS Model

Enjoy the benefits of PayWheel SaaS, and pay as you use, with our flexible models. Avail all the benefits of the cloud features with no more infrastructure costs, flexible payments, scalable usage and automatic updates.

Ease of Salary Setup

PayWheel allows the flexibility to customize salary parameters as per your company policy, re-process salary in case of any errors, calculation of loans, bonus, incentives and reimbursement, generates bank advice, pay slips and much more.

Income Tax Calculation

PayWheel is up-to-date with the latest statutory compliance, and allows hassle free taxation. It also allows the display of tax details on pay slips and generation of various reports.

Statutory Requirements and Reports

PayWheel is well equipped to handle all your statutory requirements, be it ESI, PF, PT, Form 16, Form 24Q etc. PayWheel can generate a host of reports ranging from pay-registers, employee details reports, pay slips and other essential reports.

Leave & Attendance Management

Paywheel automates leave management such as modify leave types, set-up and manage holidays, alter leave policies for different employment levels, auto deduction of LOP, leave credit, leave balances etc. Any biometrics system can be easily integrated with PayWheel.

Employee Self Service

With PayWheel's ESS module, all employees can access their information regarding leaves, reimbursements and pay slips using unique ids and passwords. Managers will no longer be reliant on HR to check their respective team member's leave details.

Email Management

Instantly alert your employees on information that concerns them, by configuring what information they receive. E-mail alerts on application and approval of leaves, birthday emails etc. keeps all interested parties up to date.

Multi-Level Role Based Security

Each user can be assigned with multiple roles and can be granted privileges based on their needs. HR can have access to all employee data, while managers have the information pertaining to their teams. All requests made by employees will need to be approved by their respective managers/ HR.
