

Getting Started with Redox

Redox pricing is designed with two features in mind: predictability and scalability. By following a transparent Platform and Connection cost structure, we make sure you know exactly what your costs will be—regardless of the number of integrations Redox powers.

REDOX PLATFORM FEE	CONNECTION FEE
Your Redox Platform Fee is a flat annual fee that covers all of the managed services and support required to integrate via Redox. Your Platform Fee is determined by your support requirements. Services covered by your Platform Fee include: ✓ Developer and API documentation ✓ Site identification assistance ✓ Workflow scoping ✓ Full implementation services for each site ✓ Project management ✓ 24/7 technical support ✓ Access to testing environment	Your Connection Fee recurs annually and is based on the number of connections you power with Redox. The Connection Fee covers all ongoing services needed to keep your connections healthy, including: ✓ Connection maintenance ✓ Deployment of upgrades ✓ Data modifications as needed ✓ 24/7 connection monitoring

Get a Custom Quote

With Redox Pricing, you never have to worry about costs tied to unpredictable message volume or unexpected support fees. What you see is what you get.

As an added bonus, our flat Platform Fee structure means you realize serious average-cost-per-integration savings as you scale.

For interested parties, we also offer generous discounts when you prepay your annual Connection Fees or purchase Connection Bundles (5-100+).

To receive your custom pricing quote specific to your organization, contact your Redox representative today. All pricing is determined after initial project scoping and will be clearly outlined upon contract signing.
